INDEX TO THE NEW YORK CONVEYANCES AND PROJECTED BUILDINGS PUBLISHED IN THE RECORD AND GUIDE.

VOL. LII. JULY——DECEMBER, INCLUSIVE. 1893.

The following semi-annual Index of the Conveyances and Projected Buildings in New York City, as published in THE RECORD AND GUIDE during the last half of 1893, will be found of great value to those of our subscribers who have preserved all the issues of this paper during that period. Care has been taken to keep the Index up to the same standard which has characterized it in the past. The pages are given on which all the transfers of realty published in Volume LII. can be found, and the streets and avenues are so subdivided that few references are required. For instance, transfers of property on Bank st appear in five issues during the six months. Bank st in the Index is subdivided into three parts, so that the least possible trouble need be incurred, provided it is known between what streets the property is located. In this volume we have continued to arrange the transfers in such a manner that almost every street affected (below the Harlem) can be seen at a glance by turning to the pages which the Index calls for. Take for instance page 8 and find thereon:

121st st } begins 121st st, n s, 125 e Boule-
122d st } vard, runs e 275 x n 201.10 to 122d st, x w 75 x s 100.11 x w 200 x s 100.11 to beginning.

The above applies when a piece of property is on the corner of any street or avenue and runs in depth upon both streets more than 100 feet, or when a plot has buildings fronting on both streets, and also when the property begins on one street and runs to another. Although many of our subscribers have used the Index for years, some of them do not fully understand the completeness of the work. We are frequently told of errors that our readers *think* they have discovered, which, upon investigation, prove to be errors of the searcher—not of the Index. For instance, in the current number appears the following: Gay st, 6, the latter being the page on which a transfer on said street may be found. Now, turning to page 6, the average searcher would fail to find the item referred to, because it does not appear in the alphabetical order of streets. A close search shows the item under the head of

Christopher st, s s, 177.9 e Waverley pl, runs s 48.9 x s e 11.6 to Old Gay st, x n e along same 18.4 to an angle in Gay st, x n 4'.11 to Christopher st, x w 21.

The Index is, therefore, in some cases condemned for a supposed error which is really the strongest evidence of the thoroughness with which it has been compiled. Where such an omission should occasionally seem apparent to the subscriber, he should search the whole page, and he will then find the item which is referred to. The Projected Buildings are indexed in a similar manner, so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, $2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office of THE RECORD AND GUIDE, 14 and 16 Vesey street; price, one dollar.

Annexed will be found a table showing the boundary lines, also the number of blocks contained in each of the thirteen Sections, and under which all property is now indexed in the Register's office by locality on new land maps of New York City, according to law, which went into effect Jan. 1, 1891:

Section

CONVEYANCES.

NOTE.—The figures in parenthesis—for instance, page (474) under the head of Barclay street—denote that the transaction on the pages given is Leasehold, an assignment of lease or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

The Great Guide

OF NEW YORK CITY.

Answers at a glance every possible question concerning the

History, — Topography, — Buildings, Public Service, — Amusements, Etc.,

of the Metropolis, with many novel maps,

Everyone interested in Real Estate should possess a copy of the COLUMBUS HISTORICAL GUIDE OF NEW YORK CITY. It forms a handy, compact book of nearly one hundred pages, with a number of novel copyright maps, with rapid handy indexes showing the location of every street, the direction in which it runs, where it begins and where it ends, with a scale to show the time necessary for covering any distance by horse-car, elevated road, or ferry. The streets and avenues of the annexed district are similarly treated. In addition, the book contains a short chronological history of the city, statistics, general information, the location of all piers, all elevated stations and the street numbers nearest to them, as well as the routes of all horse-car lines, their branches and connections, the distance they travel, and the time they occupy. A list of all post-offices, district messenger and telegraph offices, hotels, steamship lines, railroad depots, ferries, markets, theatres, express offices, dispensaries, hospitals, churches, libraries and clubs are given, with a great deal of other information. Indeed, there is scarcely a question that can be asked concerning the topography and buildings of the city that this book does not answer at a glance.

Laws Relating to Building

IN NEW YORK CITY.

By WILLIAM J. FRYER.

Handsomely bound and illustrated. **Price $2**

THE RECORD AND GUIDE edition of the Building Laws, meaning all the laws relating to building in New York City, together with the regulations of the Building, Public Works and Fire Departments, is published and now for sale at this office. It also contains the most complete directory of architects of New York, Brooklyn, Jersey City, Newark and Hoboken that has been published. The laws and regulations have been carefully and exhaustively indexed, so that no time need be lost in finding the requirements with respect to every and any detail of building. It makes a neat volume of 251 pages and will be the standard book of reference on the subjects embraced within its pages.

DYCKERHOFF
PORTLAND CEMENT

is superior to any other Portland Cement made. It is very finely ground, always uniform and reliable, and of such extraordinary strength that it will permit the addition of 25 per cent more sand, etc., than any other well-known Portland Cement, and produce the most durable work. It is unalterable in volume and not liable to crack. The foundations of many of the most important buildings recently erected in this city were constructed of the Dyckerhoff Portland Cement, such as the Statue of Liberty, Equitable Life, New York Times, New York World, Puck, Judge, Metropolitan Opera House, Metropolitan Telephone, U. S. Army, U. S. Trust Co., Union Trust Co., Farmers' Loan and Trust Co., Washington Memorial Arch, Brooklyn Soldiers' and Sailors' Memorial Arch, Postal Telegraph Co., Grant Monument, Riverside Park, and others.

VOL. LII. JULY 1, 1893. No. 1,820

LOOKING over the past week in the stock market it must be admitted that so far as prices are concerned they have been strong considering what has taken place. The two great features, the drop in the price of silver and the high rates for money would alone have been sufficient to utterly demoralize any other market than one in which large and wise provisions had been made to meet bad times. The judicious contraction of business and the discouragement by the commission houses of speculation for the last sixty days have saved values, because no active market could have stood the troubles of the week as this one has done. The stoppage of free coinage by the India Council was no doubt forced by the prospect of the repeal of our own silver law which would have left India, if still a free coinage country, in a worse position than we are in to-day by her action. Like ourselves India is a large seller to the rest of the world, and under the free coinage of silver system had to take payment in a constantly depreciating currency, which had no gold value whatever within her own limits. Consequently it would have been an act of folly to wait until the United States went out of the market as a buyer of silver. In this one matter this great country is behind England's Eastern dependency, because even in the face of a certain decline in the value of silver the Government has no discretion, but must make the monthly purchases stipulated in the act. From his previous course, it is not likely that the Secretary of the Treasury will assume a discretion and rely on the country and Congress for vindication and approval. The action of the mine-owners, as well as the reported opinions of their spokesmen in Congress, shows that when the question does come up for discussion there will be a bitter and vigorous fight for conditions of, even if there is no opposition to, actual repeal of the act of 1890. The indiscriminate shutting down of mines is due more to policy than an inability to produce silver anywhere, at current quotations. While the strength of the market gives encouragement, and more may be hoped from the early importation of gold, there is no reason to anticipate for some time to come much improvement in prices. It is impossible to bul a market on such items as the issue of clearing house certificates (which are already $2,500,000 more than were issued in 1890 to meet the stringency due to the Baring failure), money still 40 per cent, failures all over the country, the prospect of a struggle in Congress. The healthiest looking advance for some days was made in the last hour upon a bull report that President Cleveland had decided to call Congress for August 1st, and lost its vigor as soon as the truth was known; but still it is an object-lesson which the administration might consider carefully with good results to the country.

THE extremest midsummer dullness has fallen upon the real estate market this week, and, as our columns show, neither broker nor auctioneer is doing anything. Only a few sales, and those of no importance, have been completed by private contract, and at auction most of the parcels offered were withdrawn from lack of bids. So sudden a cessation of business in all kinds of property in all directions has seldom been experienced. Some people, naturally perhaps, endeavor to trace a connection between this full stop to business and the monetary troubles, which seem to be growing slowly acuter as they are prolonged. There is, however, no such connection. It is, of course, foolish to say, as some people do, that real estate, through some inscrutable reason, is exempt from the general conditions of trade, and that, as recently, while banks and solvent mercantile concerns were going under because they could not borrow a few thousand dollars on abundant and unimpeachable securities, investors were standing in a row with their cash ready to purchase real estate. Beyond all question the tight money market has affected real estate, just as it has affected every other commodity. But the result has not been very noticeable, because it has happened that the present acute stage of the monetary stringency fortunately set in at the close of the season, when transactions, even those recently announced, were practically completed. No doubt not a few fell through at the last moment, and many more that might have been consummated have been postponed and "hung up," but these slips are not so noticeable at the tail end of a season. The effect of the financial stringency, should it continue, which is by no means certain, will be felt next fall. If money remains "tight" and confidence in the commercial world the halting, shrinking thing it is to-day, real estate can hardly expect to avoid dull times. The fortunate circumstance is that we have before us almost three months when even under the most prosperous conditions little would be done in real estate. The market will be practically closed during possibly trying times. During these three months much may happen. The determination of Congress concerning the Silver question, even if not actually arrived at, may be foreseen; business abroad may improve, our own harvests—that great annual increment to our wealth—may be and the prospect now is that they will be abundant, the demand from Europe for cereals and cotton may be heavy, and with this the gold that we have been losing may return. Economy during the summer months, too, is certain to be rigorously practised in the commercial world, and this of itself will put the country in a better position at the opening of the Fall. Prognostication, however, one way or the other is foolish. Prophesy just now is a reckless risking of reputation. But the notion that real estate can prosper and be in good demand when money is scarce and the financial world is taking in all sail possible to avert disaster is sheer nonsense. Because a few men who may have been bitten in Wall Street and become disgusted with stock investments turn to real estate as a safe purchase, or because the few individuals who have ready cash even in the darkest times buy houses and lots in preference to railroad bonds, does not warrant us in jumping to the conclusion that hard times are good for real estate. Caution at present is wisdom in the real estate market as in all departments of business. Certainly, every indication just now points to a very quiet summer.

RECENT judicial action concerning two important city improvements—the Mulberry Bend and the Corlear's Hook Parks—very clearly shows that the extraordinary and summary condemnation procedure established by the so-called Elm Street Improvement Act was not necessitated by any inherent defect in the methods which have been in vogue up to the passage of that law. THE RECORD AND GUIDE said when that measure was under discussion that the only reason that there could possibly be for the revolutionary innovation of seizing a citizen's property before he had been paid for it, and even before compensation for it has been determined upon, was the dilitoriness which usually attend condemnation proceedings, and that this dilitoriness, often vexatious to property-owners and injurious to the city, was chargeable not to the law as it stood. but to the slackness and indolence of the Commissioners appointed to appraise and assess. The recent action of two Supreme Court judges refusing to accept as satisfactory the charges of the Commissioners for their time and expenses in the proceedings referred to has long been necessary. It should be salutary, but we have little hope in that direction. The political element is too strong, and the public are too indifferent. Even property-owners themselves, who know well enough how the city is plundered by some of these ten dollar a day Commissioners, had not a word to say when the Elm street bill was before the legislature. They left the fighting to a few property-owners immediately affected by the new law and went about what they regarded was more their own business. Under these circumstances why shouldn't Commissioners sit for a few minutes, do nothing and charge the city ten dollars for their services? And if this sort of thing doesn't work when there are improvements like the Elm street widening to be pushed along, why shouldn't our officials get bills passed giving them tyrannical powers rather than reform a method of procedure in which there is "a good thing" for political workers?

SENATOR JONES' statement, that the repeal of the Sherman bill will call a new political party into existence, is not at all beyond probabilities. The interests which the silver men have at stake are enormous, and it is scarcely too much to say that at the present moment they are threatened with what amounts to almost absolute extinction. By themselves, the mine-owners are neither numerous nor influential enough to count for a great deal politically, but we must not forget that behind them is a very large part of the West. It is very easy to say that our present financial difficulties are an "object-lesson" to this class, but we doubt very much whether the lesson is quite of the kind we think it is. It is going too far to say that silver is to-day in any sense discredited among the great body of Western silverites, who theoretically stick to bimetallism for very much the same reason that hundreds of thousands of people believe in protection and hundreds of thousands in

free trade. These people are not to be instructed in a day. They can no more be taught economics in one lesson than they can be taught the higher mathematics in one lesson. Their interpretation of the events of the last few weeks does not tell against free coinage or even against the Sherman Law, and there is very little doubt that a great majority of them would give their adhesion to an out and out Silver faction. Perhaps it is going too far to dub this possible coalition with the title of "party."

A Paramount Question.

DIFFERENT questions touching real estate in New York will be expected to have different degrees of interest and importance. Some are sectional in their bearings, some local, and some general, and they appeal with unequal force to the popular intelligence according to the circumstances of the persons most directly concerned.

There is the Harlem River improvement, for example. This is a question of deep concern to all persons living north of the Harlem, and who wish to see the prosperity of that section founded on an independent basis, on a basis which will make their district something more than a mere appendage of the lower part of the city. On account of the local importance of this subject the North End property-holder could be forgiven were he even to overlook questions of a more general bearing, and to think only of the obstructions to navigation which some other men believe it would be to their interest to throw in his way. Again, there is the question of rapid transit. Part of the people of the city have rapid transit already, however, when they are in sufficiently good health to hold on to a car strap. There, too, is the question raised by the Sailors' Snug Harbor property, an excrescence that has grown into the very heart of the city, but which affects the development of only a district, and which only that district is likely to consider. And there is the question raised by the unimproved parks, a question that will deeply concern the city a few years hence, but has only a sentimental interest so long as nearly the whole North End remains a park where every citizen can find green fields and sometimes even babbling brooks almost at his threshold. There is no doubt that all these questions are of importance, and some of them of critical importance; but none of them, save the question of Rapid Transit, can be said to affect the city vitally at all points, and give to every property-holder a subject for personal solicitude.

There is, however, a question of such general bearing that it immediately concerns every district of the city, and touches the interest of every property-holder in New York. This is the question raised by the condition of our water front and of all property adjacent to the water front from the Battery to Westchester County. Will it be asked why this is a question of so much importance? Our dilapidated and forlorn condition along the rivers has not prevented our growth and development in the past, and why should it interfere with our progress in the future? But this is an error. The defective water front system of New York has hindered the growth of the city in the past to a degree beyond all calculation. It has built up a competitor and rival across the East River, which now counts its population by more than 1,000,000, and it has prevented the increase of values in this city to an amount which could be conservatively estimated among the hundreds of millions. It would be folly to say that the growth of New York has not been retarded by a situation that has built up the formidable row of water front warehouses seen in Brooklyn, and given to Long Island a riparian property interest about double in value to the corresponding interest held by citizens of New York. Why, New York is beginning to wear externally the garb of a beggar seated at the feet of some opulent merchant who has known how to bring all his well-laden argosies into port, and to convert their cargoes into the richest kind of new clothing. We must not let the fact that the last thirty years have been making history escape our attention. We are living on our traditions; but some of our neighbors are beginning to thrive on fresh bread and butter.

Yes, the declaration already made by inference must be repeated directly. We find in the situation along the water front of New York a question that transcends any other question affecting real estate that can be raised in the city. True, it may not be of much importance as a current market question. It is to be presumed that commercial men, or let us say, rather, men interested commercially in real estate, will have their eyes more sharply turned on land worth several hundred thousand dollars a lot than on land that can hardly be sold at any price, or which, if sold, will hardly bring more than the same number of hundreds of thousands per linear half mile. But the question is important because considerations of public policy and the future growth of the city are involved. The history of the past thirty years cannot be repeated during the next thirty years without remanding New York to a second rate position on the harbor, and sending the chief commerce of the port to its southern and western sections, to Gravesend Bay and vicinity, to Staten Island and to New Jersey. Already it should be seen that New Utrecht, Gravesend, Flatlands and Flatbush are beginning to feel a stimulus to improvement which the 23d and 24th Wards of New York can hardly parallel, and the movement is only in its infancy.

Merely political considerations, limited to the distribution of official patronage, are exerting altogether too much influence in New York. This may have been said before, but it cannot be repeated too frequently; for it is the property interest of every community and not its political activity that gives it the stimulus to its growth. Of what importance to New York are the gentlemen of the Department of Docks? They are proving to be of much service to Brooklyn and other outlying districts of the great metropolis; but it would be millions a year in the pockets of the people of New York to double the salaries of these decorative municipal appendages and then lay them on the shelf with other useless pensioners and public beneficiaries. We have no disposition to traduce their motives. They have doubtless meant well; but this is the one subject that New Yorkers do not seem to have studied, and we may be sure that if popular ignorance will open the way for maintaining a number of fat but useless offices incumbents will be found ready to draw the salaries and conscientiously to give as good returns as possible. But it so happens that it is hopelessly beyond the power of these gentlemen of the Dock Commission to give value received. They can never be found anywhere except in the way.

Notice to Property-Owners.

The Board of Street Opening and Improvement give notice that they propose to open 135th street, from Amsterdam avenue to the Boulevard.

Contractors' Notes.

The Board of Education will receive sealed proposals until 9 o'clock A. M., July 12th, for erecting an addition to Grammar School No. 43, situated on the northeast corner of 129th street and 10th avenue; also for making repairs and alterations on building on the north side of 102d street, between 2d and 3d avenues, into a school-house. Sealed proposals will be received until 9:30 o'clock A. M., July 7th, for heating and ventilating apparatus for Primary School No. 27; for repairs, alterations, etc., at Grammar School No. 34, until 9 o'clock A. M., July 6th; for repairs, alterations, etc., at Grammar School No. 63, until 4 o'clock P. M., July 6th.

The Police Department will receive sealed estimates for building a station house, lodging house and prison at Nos. 24 and 26 Macdougal street, until 12 o'clock M., July 12th.

The Department of Docks will receive proposals until 11 A. M., July 6th, for building an iron awning shed, with appurtenances, on the pier at the foot of East 33d street, East River.

The Fire Department will receive sealed proposals until 10 A. M., July 13th, for the erection of a building for quarters to be located on the north side of 149th street, 20 feet west of Trinity avenue.

The Department of Public Charities and Correction will receive sealed bids until 10 A. M., July 6th, for fire escapes at Bellevue Hospital.

Notes.

Permission has been granted to the Second Avenue Railroad Co. to run cars across Central Park through 86th street.

LOOKING TO LAND TRANSFER REFORM.

The Committee on Titles and Transfers of the National Real Estate Association, appointed at the Buffalo Convention, last year, arrived in this city on Thursday and is composed of the following members: R. E. Montgomery, Denver; Frank T. Terry, Milwaukee; George E. Pomeroy, Toledo; J. C. Simpson and David R. McCord, Montreal.

Three members of the committee, Messrs. Pomeroy, McCord and Terry, met in the Board Room of the Real Estate Exchange on Thursday afternoon and began their investigation of the methods and system of transferring property employed here. To-day, at eleven o'clock, another meeting was held, after which Mr. H. H. Dolan escorted the committee to the Register's and County Clerk's office. The committee expressed themselves as well pleased with the methods of recording used there.

Removals.

E. N. Edel, formerly at 426 Amsterdam avenue, has removed his real estate offices to 432 Columbus avenue, where he is very advantageously situated, just under the elevated railroad station, opposite Manhattan square.

A Stone Company in Trouble.

News comes from Bedford, Ind., that the Bedford Stone Quarry Company, the largest producers of limestone in the world, made an assignment on Wednesday last. Inability to realize in time to meet maturing obligations is given as the cause. A. W. Wisshard, the assignee, executed a bond for $400,000. Business will be continued at the quarries and all contracts filled.

Change of Firm.

Winant & Goadby, real estate brokers, at 500 Madison avenue, have dissolved. Mr. Frederick Winant will continue the business at the same address.

Personal.

J. Stewart Barney, of Barney & Chapman, architects, is at Dea Beach, N. J.

Architect E. D. Lindsey is occupying his summer residence at New Canaan, Conn., and comes to town two or three times a week.

Charles S. Kohler is summering at Blauveltville, near Nyack, N. Y.

Builder C. W. Luyster is summering at Long Branch, coming to town frequently.

Mr. Wm. P. Mangam, of Mangam & Welling, and wife are spending a short summer vacation at Niagara Falls.

Mr. Otto Pullich will leave to-day with his wife and family, in the Ems, for a sojourn of a couple of months in Europe.

Mr. J. W. Taylor, of Giblin & Taylor, and wife are at Breadloaf Inn, Ripton, Vt., for the summer.

Mr. Fred'k G. Hobbs, of Slawson & Hobbs, is spending his vacation, with his wife, at Sugar Hill, N. H., stopping at the Sunset Hill House.

The following, well-known in the real estate world, are out of town: Max E. Bernheimer, at Long Branch, N. J.; F. J. Conway, at Passaic, N. J.; R. C. Derby, at Newport, R. I.; Wm. D. Murphy, at Water Gap House, Delaware Water Gap, Pa.; Morris Steinhardt, at Hotel Castleton, New Brighton, S. I.; Thos. S. Walker, at Saranac Lake, Adirondack Mts, N. Y.; M. J. The death of Henry S. Campbell, Chief Clerk of the Department of Buildings, of Brooklyn, was reported on Tuesday morning last. Mr. Campbell became associated with the department about twenty years ago, on its organization, occupying a minor position, from which he advanced to that of Chief Clerk.

John W. Hotaling, of Hotaling & Platt, has been called as expert on real estate values by counsel for property-owners in the matter of awarding damages in changing the grade of Vanderbilt avenue. Mr. Hotaling will be on the stand about three days a week. The commission which will award the damaged was appointed under an act of the Legislature, approved by the Governor May 3, 1893.

Storage Battery Electric Street Cars.

THE SYSTEM IN PARTIAL USE ON THE SECOND AVENUE RAILROAD, WITH GOOD PROSPECTS OF SUCCESS —TESTING A CAR ON THE BOULEVARD.

Except for a fugitive newspaper item, no public notice has been taken as yet of an experiment in street car motive power now being made in this city, and which is of engrossing interest. It is on the tracks of the Second Avenue Railroad Company that the experiment is being made, but for fear, apparently, of attracting undue attention before the system shall have demonstrated its practicability, the cars are not run over the whole line, but over the tracks between 95th and 129th streets only.

The system of traction—or, rather, of propulsion, is the Waddel-lEntz storage battery system. Until the present experiment was begun, about two weeks ago, the company had never made what could be reasonably termed a practical test of the sufficiency of the system. With only one car built at Bridgeport, Conn., where the works are located, it had worked out the problem of adapting its storage battery system to street car propulsion. This one car was exhibited in various cities in the East in the endeavor to induce some of the street car companies to adopt the system, if only tentatively, and in order to make a full and thorough test of its capabilities.

The Second Avenue Railroad Company was finally induced to allow the experiment to be made on its lines. The Waddell-Entz Co. took possession of one of the company's old car shops, on the northwest corner of 2d avenue and 127th street, and installed a complete electric plant, bringing over its own peculiar dynamos from Bridgeport, and ten cars, for the purpose. The cars resemble in appearance the new cable cars on the Broadway road, except that they are shorter. Thus far all the cars employed on the line have been operated with but one motor, which is applied directly to one of the axles, and one battery, which occupies the space under the car seats. But the system contemplates two batteries and two motors for each car, one motor applied to each axle, and some of the cars are now being so equipped. The battery is composed of 144 active steel cells, carried in a tray which is shoved through doors in the dashboard and end of the car to its position under the car seat. It is an alkaline battery, which has been developed by the Waddell-Entz Co. in the course of its experiments, in which a solution of zincate of potassium is used. The plates consist of copper oxide in a network of copper wire for positives, and steel plates for negatives, on which the zinc is plated.

The car is backed up to a platform which occupies an open court in the rear of the shop, and upon which are several low trucks running on narrow tracks and operated by a cable and windlass. The used-up battery in the car is hauled out on one of these trucks and a traveling crane in the second story lifts it up and takes it away and deposits a "live" battery on the truck, which runs it into the car. Batteries are in constant course of replenishment and are kept ready for use in the storage part of the second story.

Three cars are used alternately on the road, of nine in active employment. With one battery they will each make five round trips between 129th and 95th streets, a distance of about 15 to 16 miles. But this is said to be 10 miles short of the limit of their attainment. Thos. H. Foote is the manager or superintendent in charge of the work for the Waddell-Entz Co. To a RECORD AND GUIDE reporter he said that the cars had been running two weeks and in that time there had not been a single break or jar or mishap of any kind. They run smoothly and with less noise than any other car that has come into general use. They start with an easy, jerkless motion, and develop a speed as great as is possible by any system of propulsion, or traction.

As to the expense, Mr. Foote said the company had got it down to figures which would insure the system to be financially as well as mechanically practicable. In a short time cars would be run over the entire line, and he had no doubt but that the system would ultimately be adopted by the Second Avenue Company in place of horses. Yes, it was as readily applicable to travel on the elevated roads as on the ground.

A TEST ON THE BOULEVARD.

A representative of THE RECORD AND GUIDE this week rode on the first electric car run over the Boulevard route. The test was made north of 129th street. The car ran easily and quickly, making 50 to 75 per cent better time than the present horse cars.

The Acme Storage Battery was used. Should the tests prove successful and the new power be used, it would greatly benefit real estate along the of the Boulevard, as much quicker time would be made.

Special Notices.

NINETEEN YEARS ON GRAND STREET.

The firm of Loeble Bros., plumbers and gas fitters, has been doing business on Grand street for nineteen years. They were first at No. 76, later at No. 65 and are now at No. 45, near South 5th avenue. They are practical men and do all work intrusted to them in a thorough manner, guaranteeing it for a year. They have just finished overhauling the plumbing at Nos. 41 and 43 Warren street for E. N. Tailer, to whom they can refer.

The Real Estate Loan and Trust Co. has declared a semi-annual dividend of 2½ per cent, payable on and after August 1st.

Attention is directed to the advertisement by Wm. E. Eldred, of the basement, with steam power, which he desires to rent, at 529 and 531 East 134th street, near Lincoln avenue. It is 25x80 in size, and well adapted for a variety of manufacturing purposes.

Real Estate Department.

The Real Estate Exchange will adjourn to-day until Wednesday next, July 5th. Nearly all the principal brokers' offices will be closed from noon to-day until Wednesday morning next.

THE AUCTION MARKET.

No sales of real estate are booked for the auction market for the near future except such as are forced by legal proceedings, and even these will be unimportant. Such sales as are likely to take place of suburban property even will doubtless be protected, although the inquiry for cheap lots has not altogether ceased. Most of the sales of the current week were adjourned or withdrawn, although the offerings by George R. Read at the Real Estate Exchange on Thursday resulted in the sale at remarkably good prices of some as little desirable property as has been sold in a long while. But the summer dullness is on the real estate market, and the auction market will feel the effects of it as well as the private sale market.

PROSPECTS REGARDING THE ELM STREET IMPROVEMENT.

Owners of property along the line of the projected Elm street improve-

ment are manifesting a natural anxiety to learn when they are likely to have to surrender possession to the city. Letters requesting specific information upon the question having come to THE RECORD AND GUIDE, a reporter has made inquiry at headquarters with the following result:

Corporation Counsel Wm. H. Clark said: "I am waiting for the map showing the exact dimensions of the property to be taken before making application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment. I understand that the surveyors are now in the field, but as to that and as to when the maps will be finished you can obtain more positive information from Col. Webster, of the Department of Public Works, who is in charge of the work. After I receive the maps it will take less than a month to publish the necessary advertisement and make application for the appointment of the commissioners. Yes, the city can take possession immediately after the commissioners are appointed and prosecute the mechanical work of the improvement while the commissioners are settling the questions of compensation and assessment."

Commissioner Daly, of Public Works, said: "We are expediting the work as much as possible. Surveyors have been in the field for some time, and, according to the reports made to me, will have their preliminary work completed very soon. I am rushing the work, because I want to be able to make use of the favorable weather of this summer and fall to do the mechanical work. It's of no use to anybody to dally about such an undertaking—the sooner the work is done the better and cheaper it will be for the city and for everybody concerned."

Col. Webster said: "Yes, our rough drafts of the property to be taken are nearly completed, and work has already been begun on the preparation of the map. The surveyors have still a little work to do, but they are not delaying work on the final map, and I presume that we shall be ready to report within a month from now."

At this rate it will be not more than two months before the Supreme Court will be formally moved to appoint the Commissioners of Estimate and Assessment, and the Board of Street Opening and Improvement can make the formal declaration of entry and possession for the city. Then the property-owners will have to move out.

A DIFFICULT COMMISSION TO FILL.

Brokers are often called upon to perform miracles of negotiation and purchase or sale of realty, but it is doubtful if any more arduous task has been laid upon any New York broker in recent years than that imposed in the letter recently received by a well-known down-town broker and auctioneer, and which reads as follows:

"BEDFORD CITY, Va.

"SIRS: I want you to buy me a house and lot in New York City that will cost about $2,500 or a little less, that will pay between $25 and $40 rent; and I want to pay between $50 and $75 down cash and get the deed for it in my own hands, and the balance I will pay quarterly until it's paid a 3 per cent interest. Now write me at once, stating terms and commissions. Let me hear from you if possible by Friday so I can remit Saturday, so that you can send me the deed by Wednesday next (11th). Yours, in haste."

WESTCHESTER LOTS AT AUCTION.

H. C. Mapes & Co. sold the Arnow estate lots at Westchester Village, on Wednesday. Nineteen lots brought from $550 to $3,100 each, the latter for a choice corner. The average price realized was $855. The balance of the property was withdrawn, because the heirs were dissatisfied with prices, which are considered fair by experts. Messrs. Mapes' sale of the Seton lots, also at Westchester Village, on Thursday, was stopped after sixty lots were disposed of at from $300 to $785 each. Two business corners brought $1,600 each, and the average was $450. The sale was well attended, and the lots sold brought fair prices, but the bidding was slow.

Some idea of how little values in the more settled and poorer quarters of the city change may be obtained when the price realized yesterday at foreclosure for No. 67 Montgomery street, viz., $6,200, is compared with what it sold for twenty-one years ago, $5,750.

Gossip of the Week.

SOUTH OF 59TH STREET.

Chas. L. Cammann has sold for the Cammann estate the southeast corner of Broadway and 18th street, 34.3 on Broadway x88.1 on 18th street, with an old building thereon, to H. B. and M. L. Sire. The price has not been disclosed.

Hiram Rinaldo & Bro. have sold for M. S. & I. S. Korn the property, Nos. 118 and 120 Ludlow street, size 50x87.6, to Fay & Stacom, who will improve from plans which they will themselves prepare.

S. Walters & Co. have sold for B. F. Cohen the five-story iron front tenement, No. 525 1st avenue, to E. Brotzman.

NORTH OF 59TH STREET.

Henry F. Cook has purchased the lot, 20x102.2, on 76th street, north side, 205 feet west of Central Park West, from Jos. C. Baldwin, for $20,000. Mr. Cook will improve at once.

C. R. Gregor & Son have sold the two lots, 50x99.11, on 148th street, north side, 150 feet east of the Boulevard, for J. M. Hoston, and the three lots, 75x99.11, on 148th street, north side, 250 feet east of the Boulevard, for Peter Somers, on private terms.

Oppenheimer & Metzger, the building loan operators, have sold a plot of four lots on the northwest corner of Columbus avenue and 83d street, to a builder for improvement.

It is reported that J. B. Smith has bought and resold four lots on the southeast corner of 5th avenue and 81st street.

Mrs. Spiess, of No. 38 East 63d street, has purchased the four-story dwelling, No. 8 East 75th street, from the Equitable Life Assurance Society for about $45,000.

S. Walters & Co. have sold for Mary E. Burrell the house and lot on the north side of Rogers place, about 100 feet east of 165th street, to Fanny K. Schmidt.

Golderman & Briggs have sold the plot, 50x100, on Andrews avenue, east side, 250 north of Hampden (194th) street, for $3,500, to Francis D. Brown, who will improve, as noted elsewhere.

Jos. Bierhoff has sold for his own account, a lot on 139th street, west of Amsterdam avenue, to John Meyer for $4,500.

During the past ten days J. Clarance Davies has sold ten lots (part of the "Daler estate") on Union, Prospect, and Beach avenues, ranging in price from $1,200 to $2,200 each. They will all be improved.

Brown & Sons have sold for R. Fornaris to Thos. O'Rorke, the two-story and basement frame dwelling, No. 833 East 164th street, for $6,000; and a lot, 25x100 feet, on Intervale avenue, near 155th street, for E. Pidoux to W. A. Gibbons for $800.

J. Clarance Davies has sold to Mrs. Neal for Frank McCarthy two lots, 25x100 feet each, with three-story frame dwelling thereon, on the north side of Union avenue, 100 feet south of Westchester avenue, for $8,500.

Wilson & Tichborne have sold the four-story, high stoop, brownstone dwelling, No. 28 West 76th street, the last of their row of six houses.

Robert J. Woods has sold for L. Prankard a plot, 66x150, on the northeast corner of Prospect avenue and Samuel street, for $2,500, to C. McRae.

Brooklyn.

Corwith Bros. have sold two brick houses and lots, with extra lot on rear, Nos. 169 and 171 Meserole avenue, for the Morrell estate to E. J. Sutphin for $5,500; and the two lots on Dobbin street, west side, 120 feet south of Norman avenue, for Randall & Miller to Henry Harrje for $1,300.

Out of Town.

DOBB'S FERRY.—Mills, Whitehouse & Hall have sold for Mrs. Anna K. Hatch to Chas B. Mills the southwest corner of (proposed) Hatch terrace and Broadway, 159.84x155x136x150, for $4,000. Mr. Mills will improve, as noted elsewhere.

Out Among the Builders.

C. Wellesley Smith will design the five-story parish house to be built for The Church of The Redeemer in East 82d street. The building will be 41x95 in size and 75 feet high. It will be arranged and used in part as a rectory, and will have a lecture-room on the first floor to seat 250. The walls will be of brick and stone, and the style of architecture is to be in the English Domestic Gothic. All details of interior finish are to be strictly first-class, and the estimated cost is about $50,000.

Weary & Kramer have plans in preparation for a new stone Methodist Episcopal Church, to be built at Williamsbridge. It will be 70x120 feet, have slate roof, and cost about $50,000.

George F. Pelham is the architect for a five-story and basement public stable, 50x about 150, which Mrs. Florence B. Poole will build at Nos. 151 and 153 West 84th street. It will have a brick and stone front and will cost about $75,000.

J. C. Cady & Co. have finished the plans for the new hospital, 60x100 feet, facing on Hudson, Jay and Staple streets, which is to take the place of the present Chambers Street Hospital. The building will be five stories in height, of steel frame construction, and will be fire-proof. The exterior will be of washed brick and brownstone and of a simple and dignified Renaissance design.

The new club-house for the Democratic Association of the 23d and 24th Wards, for which Kirby & Co. are drawing plans, as noted in THE RECORD AND GUIDE of June 17th, is to cost about $80,000.

C. B. J. Snyder, Superintendent of Public School Buildings, has completed plans for a new five-story primary school, 145x86.9 feet, to be built at the northeast corner of 1st avenue and 9th street. Advertisement for proposals will not appear until the Department has acquired title to the lot No. 154 1st avenue, which will be very soon. Mr. Snyder also has plans under way for a new four-story brick grammar school, 125x96.8 feet, to be built on the plot, 150x102 feet, at the northeast corner of West End avenue and 82d street, and a four-story brick and stone addition to Grammar School No. 87. The addition will be 50x72 feet, built on the plot, 50x102 feet, which adjoins the school on 77th street.

The Church of The Sacred Heart in 51st street, between 9th and 10th avenues, is to be enlarged by an extension at the chancel end, 81x62. Side entrances through to 52d street will also be provided. The interior decorations and finish is to be similar to the old. Joseph H. McGuire is the architect.

Charles Rentz has drawn plans for a six-story and basement brick, stone and terra cotta flat, 25x79.8, of semi-fire-proof construction, arranged for three families on each floor and with basement stores. It will be built at No. 66 St. Mark's place for W. N. Sternkopf and is to cost $26,000. The same architect has plans under way for a five-story and basement brick and stone flat, 50.7x77, to be built for Fay & Stacom at Nos. 118 and 120 Ludlow street, costing $48,000; and will also plan a seven-story and basement

brick, iron and stone workshop building, 25x25, to be built in Jefferson street, 75 feet south of Henry street, for Haft & Katz, at a cost of $10,000.

Kirby & Co., have plans under way for a four-story brick and stone double flat, 25x50, to be built by Jas. Shanley on the south side of Pelham avenue, 75 feet east of Arthur avenue, at a cost of $10,000. They will also draw plans for a two-story attic and basement frame cottage, 20x44 feet, to be built for B. C. Bent at the northwest corner of Gray street and Crane place. It will have shingle roof and a tower on the west side. The first floor will be finished in hardwood and the others in pine. Steam heat will be used. Cost, $5,000.

Mary F. Wilson will build, from plans by J. J. Vreeland, a four-story pressed brick and brownstone tenement, 27x45 feet, on the north side of 169th street, 83 feet west of Intervale avenue. It will have slate mantels, be finished in pine, and cost about $12,000.

James J. F. Gavigan is preparing the plans for the alterations to Nos. 20 and 22 Ferry street. Two stories of the present building are to be taken down, and the building, which will be used for a storehouse, will be raised to five stories with cellar. W. Creighton Lee is the owner, and John A. O'Connor has the contract for the alterations.

J. H. Valentine will be the architect for the apartment house which M. J. Mahoney will build at the northeast corner of Lexington avenue and 73d street. It will be seven stories high. The cost and other particulars have not yet been decided upon.

Palliser, Palliser & Co. have plans under way for a two-story and basement frame dwelling, 22x50 feet, to be built for J. H. Hamill at Bedford Park, in the 24th Ward, at a cost of $3,800.

From plans by Architect C. S. Clark, Francis D. Brown will build a frame dwelling, to cost about $5,000, on the plot, 50x100, on Andrews avenue, east side, 250 north of 184th street.

Henry F. Cook is designing some interior alterations to the Hotel San Remo. A light court is to be roofed at the first floor and some halls and doorways are to be widened, and there is to be a covered passageway constructed.

The following buildings were damaged by fire during the past week and will probably require reconstruction or redecoration: No. 134 53d avenue, owner Ralph Raymond; Fleetwood avenue and 183d street, owner Adolph A. Bromond; 184 Franklin street, a six-story brick double tenement, owner Theodore Meyers; 150 Norfolk street, owner Henry Kramer; 239 Centre street, owner A. Dens; 107 East 93d street, owner L. Bloch; 184 East Broadway, owner Isaac E. Jute; 1230 1st avenue, owner George Cornish; 69 Duane street, owners Muller, Sichanger & Co.

The Park Board have awarded the contract for building the new wing to the American Museum of Natural History to James Baker Smith, for $257,000. This does not include tiling, electric light or steam heat.

The Health Department have ordered repairs to be made on the premises No. 1453 Broadway, owned by Benjamin Sire.

John McIntyre has plans under way for two three-story frame dwellings, 20x45 feet each, to be built on the plot, 50x100 feet, on the east side of Trinity avenue, between 164th and 165th streets. They will have steam heat and cost about $4,500 each. J. G. Borgstede is the owner.

R. R. Davis has plans under way for two five-story brownstone flats, 25 6x85 feet each, to be built for Mrs. Elizabeth Wellwood at Nos. 80 and 82 Charles street. They will be equipped with all modern improvements and cost about $21,000 each.

The contract for building the new five-story brick, stone and terra cotta grammar school at the northeast corner of Avenue A and 81st street, was awarded, Wednesday of this week, to P. J. Walsh for $253,000.

A certain down-town dealer in real estate, claiming to have acquired title to property out of town, commissioned one of our up-town architects to draw up a set of plans. When the plans were about completed the real estate man got possession of them on the plea of submitting them to a third party for approval. This happened some weeks ago and the plans have not yet been returned or the dealer heard of. The architect in question says the dealer isn't worth powder and shot, and it would be useless to follow him up. Nevertheless the architect is out a set of plans. It is understood that this is not the first queer work on the part of the dealer.

Brooklyn.

On the southwest corner of Fulton and Clinton streets there is to be erected a modern hotel building similar in class to the Waldorf and Savoy, of New York. The building will be 170x250 in size, twelve stories above the curb and two below, with main entrance on Clinton street. It is to be of fire-proof construction, with iron and steel beams and tile roof. The first three stories will be of Indiana limestone and marble and above this the walls will be of white brick and terra cotta. The interior trim will be of hardwood, marble and metal work, and all the floors will be mosaic. Four elevators, steam and electric light will be among the appointments which will be up to date in point of luxury and convenience. The kitchen and dining-room will be on the top floor, and the dining-room, 100x150, will open on an arcade 20 feet wide and 170 feet long, overlooking the city and bay. There are to be 350 suites of rooms, composed of parlor, bed and bath-rooms, with fireplaces, and all to be outside rooms. The parlors, reception-rooms and bridal chamber and special suites will be on the second floor. The restaurant, lunch-room and ladies' reception-room will be on the Monroe place side of the first floor, and on the Clinton street side of this floor will be the reading-rooms, cafe and bar. The buildings on the site at present are to be removed early this month, and ultimately those on the opposite corner will be torn away, giving the hotel the advantage of fronting on a plaza. The hotel is to be built for a syndicate, some of the members being Frederick Jansen, Henry Hutchinson and Felix Campbell. Montrose W. Morris is the architect, and the cost is estimated at $800,000.

Joseph Wolff has been appointed architect to superintend the equipment of the Metropolitan Museum of Art. $130,000 will be expended.

The State Military Board have awarded to Joseph Jewkes & Son the contract for building the new National Guard Armory in Jersey City. Cost, $130,000.

Out of Town.

GREENWICH, CONN.—Charles P. H. Gilbert has designed another beautiful residence, to be built on Electric Hill. The house will be a two-story and attic structure, 70x40 in size, with extension 25x35. It is to be of stone and frame construction, with the frame portion finished in open timber, cement and shingle work and a tile roof. The main hall will extend to the roof, and will be lighted by skylight and staircase windows. The attic story will be finished in white and gold, and is to be arranged for dancing assemblies, etc. Steam heat, electric light and hardwood trim are among the details for interior finish, which is to be of the finest description in all respects.

AMITYVILLE, L. I.—Architect Geo. H. Pierce, of New York, has plans under way for a two-story and basement brick and terra cotta schoolhouse, 80x90 feet, to be built here. It will have a bell tower 95 feet high, slate roof, and will be finished in yellow pine. On the first floor there will be six large class rooms, teachers' room and "Board" room; on the second floor an assembly room capable of seating 700 persons, two class rooms and the Superintendent's room. The building will be heated with steam, and cost about $35,000.

ABERDEEN, MD.—J. J. Deery is preparing plans for two three-story brick and frame dwellings to be built for James B. and W. B. Baker. One will be 35x69 in size, and the other 36x65. The roofs and frame portion will be finished in shingles and the interiors trimmed in hardwood. They are to cost $12,000 each.

YONKERS, N. Y.—Paul S. Volger will build at Ludlow, from plans by Palliser, Palliser & Co., of New York, a two-story attic and basement frame dwelling, 36x49 feet, at a cost of $7,500. The house will be in the colonial style, with slate roof and a high tower. The interior finish will be of hard wood and the bath-room floors and fireplaces will be of tile.

NEW HAVEN, CONN.—J. C. Cady & Co. have designed the extension which is to be added to Yale chapel during the summer closing of the college and, if possible, made ready for occupancy by the autumn. This extension is to make room for 300 extra students and is to have special architectural features which will add to the picturesque effect of the building.

PARK RIDGE, N. J.—Palliser, Palliser & Co. will draw plans for a one and a-half story frame dwelling, 26x40 feet, to be built here by Theo. G. Volger at a cost of $2,500.

YORKTOWN HEIGHTS, WESTCHESTER CO.—Dr. Chas. Rich will build here a two-story and attic frame dwelling, 40x55 feet, at a cost of $5,000. It will have shingle roof, all improvements and be heated with hot air. Palliser, Palliser & Co., of New York, are the architects.

ELIZABETH, N. J.—D. B. Provost is at work upon plans for remodeling the Marsh Building. One-story will be built underneath, so as to bring it down to the new grade of Broad street, and another added on top; an entirely new front will be built, and the interior will be rearranged; an elevator, steam heat and electric lights will also be put in.

WHITE PLAINS, N. Y.—Carl Wecke will build a two-and-a-half-story frame store and dwelling, 20x32 feet, at Silver Lake Park. It will have shingle roof and cost $3,000. J. J. Vreeland, of New York, is the architect.

DOBB'S FERRY, N. Y.—Chas. B. Mills will build a two-story attic and cellar Colonial house on the corner of Broadway and (propose) Hatch terrace, to cost, with stable in similar style, about $10,000.

LARCHMONT MANOR, N. Y.—James J. F. Gavigan, New York, is the architect for a two-story and attic house, 27x40 and 12x14 extension, which T. C. Booth will build here, at a cost of $7,500. The first story will be of stone, with shingles above. A tower will be one of the prominent features. Sanitary exposed plumbing will be used.

BAYSWATER, N. Y.—Jas. J. F. Gavigan has the drawings for a two-story and basement house, 25x45, which Felix S. Towle will build here, at a cost of $5,000.

NEW ROCHELLE, N. Y.—Scheim & Flagg are designing a house and stable for Joseph Major, to cost $14 000. The house is to be of stone and wood, 40x68, in the Colonial style. The stable will be 22x28.

C. T. Nutt will build a Colonial house on Columbus avenue, to cost about $3,500.

Peter Fisher will build a house in William street, Queen Anne style, to cost about $4,000.

HIGHLAND PARK, N. J.—The development of this fine residential summer resort, which was illustrated recently in a supplement of THE RECORD AND GUIDE, is proceeding with rapidity. Several cottages have been contracted for, among others for C. W. Luyster, Isaac T. Meyer, E. L. Spellman and Daniel McLeod. Plans are now being drawn for these buildings and work will be commenced shortly.

CRANFORD, N. J.—It is understood that the Central Railroad of New Jersey will shortly commence the erection of a handsome stone station at this place.

CARMEL, N. Y.—Stephenson & Greene are preparing plans for a shingle finished church, 57x60 feet, to cost $10,000, for the Carmel Presbyterian Church.

SOUTH ORANGE.—Stephenson & Greene have prepared plans for a two-and-a-half-story shingled cottage, 33x55 feet, to cost $7,500.

RIDGEWOOD, N. J.—Stephenson & Greene have plans for a two-and-a-half-story shingled cottage, 27x46, to cost $5,000.

PRINCETON, N. J.—Stephenson & Greene have made plans for a two-and-a-half-story Colonial dwelling, 44x55 feet. This building will be frame and finished in hardwood, and cost $14,000.

PITTSFIELD, MASS.—Stephenson & Greene have prepared plans for a two-and-a-half-story shingled cottage, 48x73 feet, hardwood finish on first floor, to cost $20,000.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

BRICKS.—It seemed to be a steady, healthy sort of market, and after a chat with the more prominent operators we found just about the same general story as last week. Arrivals have come along, sometimes more, sometimes less, just as barges may have been handy for shipment, and although consumption was somewhat retarded early in the week, demand proved exhaustive, and took the supply in without much of an effort and at former rates, leaving quotations at the present writing just about where they were one week ago. Pretty much all the stock arriving is smooth and in general good order, which helps its sale somewhat, though in any case there seems to be an outlet that would take stock not fully perfect in appearance if no other was obtainable. It is fortunate that so large a proportion of the big brick consuming structures are to a large extent independent of the financial trouble, and can keep pushing right along. Manufacturers, as already intimated, have continued shipping promptly enough as facilities came within reach, but the immense pressure to sell stock has not materialized as some of the trade had anticipated. In fact since the barges have practically knocked out the sailing vessels, there has not been so much anxiety to sell out cargoes and get back home before the 4th. There has been no interruption of importance to the production, but workmen continue scarce. For Pales the market remains steady and business very good.

GLASS.—For all kinds of window glass there has been an exceedingly dull market. Many buyers have voluntarily curtailed their investments, while others, under a rigid scrutiny of credits, have been compelled to take very small quantities if they obtained any stock at all. a result particularly noticeable at points in the interior. There has been some talk of an advance in foreign glass on account of curtailment of importation, and the same rumor applied to domestic stock, but the latest meeting of the Association made no change. If expressed intentions have been adhered to, the window glass factories throughout the country will have all fires out by the time this is published, and it is also understood that work has ceased at all plate glass plants in order to check a steady tendency toward surplus accumulation.

LATH.—The market has eased off still further, but not to such an extent as might have been expected in view of the liberal arrivals. Receivers appear to have managed affairs pretty well, and sometimes in full cargo and sometimes in small lots have secured custom either local or out of town that provided an exhaust at a comparatively small shading from former figures. The latest figures are $2.35@2.40, the latter possibly somewhat extreme. It is understood the Eastern mills will stop production of lath as well as of lumber.

LIME.—Demand has not improved, and while arrivals can hardly be said to have shown up extensively, they were just a little more than wanted and buyers have gained advantages accordingly. There are reported sales at old figures and also at 2½@5c. per bbl. less, or say 75 and 85 respectively for the two grades, and the modified cost of getting both fresh arrivals and held goods, showing quite an irregular tone. It is understood that the mid-summer shutting down at the kilns will soon become general.

The St. John N. B. *Telegraph* has recently published a series of articles upon the lime industry of that section. A great deal of space is devoted to methods of production, packing, shipment and other matters principally interesting to local readers of the *Telegraph*, but some portions of the report are worthy of reproduction for benefit of the general trade. After some historical reminiscences regarding the discovery of the limestone cliffs by Champlain and other French voyagers, the writer comes down to the practical business basis with the following:

"The growth of the St. John lime business can be read in the figures of the Trade and Navigation Reports of Canada. In 1881 we exported to the United States $1,822 worth of lime, which may be reckoned in barrels by multiplying the number of dollars worth by two. In 1884 we exported $3,402 worth of lime; in 1883 our export rose to $5 244; in 1884 it fell to $3,420. In 1885 the export was $4,925; then came a sudden jump to $38,429 in 1887, which was followed by an immensely larger export in 1888. The rise and decline of the St. John lime export trade can be best read in the following statement of our exports of lime to the United States from 1887 to 1892 inclusive; the years are fiscal years ending June 30:

Year.	Lime exports to U. S.
1887	$38,429
1888	91,840
1889	116,355
1890	143,292
1891	101,844
1892	60,175"

The shrinkage of the export trade is attributed directly and solely to the protective duty imposed by the United States tariff, referring to which we find the following:

"By the McKinley tariff a duty of 6 cents a 100 lbs., including the weight of the barrel, was imposed on lime imported into the United States, and this duty amounts to 18⅝ cents a barrel, or almost 20 per cent on the value of the article delivered in the United States markets. This duty gave the Rockland people such an enormous advantage over us that it looked as if the lime industry might die out altogether, except with respect to the small amount required for local consumption. As a matter of fact the export of lime declined in 1892 to about 42 per cent of what it had been in 1890. The industry had not been destroyed, but it had been most seriously crippled."

After giving to some particulars to substantiate the claim that nearly the entire value of lime is represented in labor, the report says:

"There are about twenty-four or twenty-five draw kilns in St. John, most or all of which were in operation when the McKinley tariff came in as a check to our lime industry. The production of lime was not less than 350,000 barrels a year, and about 300 men were employed in the business. Now there are eight draw kilns in operation, and the product will probably be from 175,000 to 200,000 barrels. This is a serious decline from the figures of 1890, yet it is better than we did in any year prior to 1888, and it is a reason for congratulation that the business still survives, in spite of the efforts of the enemies of Canada to destroy it."

Then after explaining the competition from the Maine product and asserting that it would not exist except for the high tariff, the remarks continue: "The Rockland man has three advantages over the St. John lime burner and two very serious disadvantages. He has first a duty of 18⅝ cents, which is imposed on each barrel of St. John lime. He has a cheaper freight rate to Boston or New York, 13 cents to Boston against 18 from St. John and 18 cents to New York against 25 cents from St. John. Lastly he has the prestige which Rockland lime enjoys, which gives him a better price, sometimes to the extent of five cents, than the St. John man can obtain. * * *

"The disadvantages of the Rockland people are increased cost of raw material and increased cost of wood. The Rockland lime quarries are 2½ miles from their kilns at the water side and the stone has to be brought to the kilns by rail. It has likewise to be mined for to a depth of about 100 feet and brought to the surface by means of steam winches. Here in St. John they dig into the cliff on the level and the limestone is close to the kilns. The cost of Rockland limestone placed in the kiln is 20 cents a barrel, while in St John it is never more than 10 cents, and some of our lime burners can do much better than this. The cost of kiln wood at Rockland is $3 for the small cord, against $2 here. It is estimated that where cordwood is burnt in a kiln here the wood costs 10 cents for each barrel of lime, while in Rockland the cost would be 15 cents. The Rockland people estimate that their lime costs them 72 cents a barrel ready for shipment, so that if they have to pay 13 cents freight to Boston

and sell it for 85 cents then not a cent of profit is left to the manufacturer. But Rockland lime does not always sell for 85 cents, sometimes the price goes as low as 75 cents, and that means a loss to the Rockland manufacturer."

The writer then follows with a series of paragraphs in explanation of the methods employed in quarrying, burning, packing and shipping, for which we cannot afford space, and in conclusion says:

"If the duty should be removed from our lime going into the United States, we may expect an enormous development of the business in the near future. If St. John was shipping 3,000,000 barrels of lime a year, which it could easily do, it would mean not only the expenditure of about $1,000,000 paid here in wages, but of about $600,000 in freights, most of which would go to our own vessels."

LUMBER.—In addition to a continuation of old quieting factors there is at present the usual influence of the wind up of the first half of the year when most operators prefer putting off new engagements temporarily even in the best of times. From some of the yards fair distribution is making and accumulations undergo some shrinkage, carrying out the previous suggestion of a steady shrinkage of stocks, but as yet without leading to any positive increase of demand for bulk parcels. There are a great many dealers who really begin to see the necessity for making some provision for a renewal of supplies, and some who are suffering more or less from delayed delivery of parcels under engagement and through various causes failing to get here on time, and under ordinary circumstances a pretty good demand might be expected, probably will come eventually. The feeling of great caution about entering upon new engagements, however, remains, with possibly some intensification since recent developments regarding the financial condition of members of the local trade, and operators are compelled to content themselves with the hope of what may come after the long period of inaction for all kinds of stock.

Eastern Spruce has been more plenty, and as expected caused some little trouble. The difficulty was not so much in finding custom as in deciding just what kind of custom to select, because in these times receivers feel the necessity for the exercise of greatest care, even though it may occasionally lead to a little hard feeling. Under the circumstances it is not always the buyer making the most liberal bid who gets the quickest attention, and there is an irregularity in naming valuation that is quite noticeable. Taken all in all, however, and considering what the general market has had to undergo this season spruce has done very well, and will probably participate in any improvement that may come this fall. It is said that some random from recent arrivals went down as low as $12.25, but the rates were so unsatisfactory to manufacturers that at latest accounts they were proposing to shut down the mills and entirely suspend shipments. There is not much piling in stock because the arrivals have passed promptly into consumption, but at the moment demand is a little slower, and a stoppage of shipments has been ordered.

Hemlock is generally reported as about steady, especially for boards for which more or less custom can be found, but there is no freedom to trade, nor are sellers particularly anxious to urge matters. There is stock to sell, and fair quantities of it, but the preference is that buyers should do most of the soliciting just now and not be asked to take more than they can provide for.

White Pine retains a fully steady position and all standard grades may be considered as in demand. Existing demand, however, does not mean actual business just now because of the conservative feeling all around, the best class of custom really being the most careful about entering upon any extensive engagements, and sellers preferring to undergo no great risk in accepting contracts. All grades of stock, however, are considered good property under normal conditions of trade and it would appear reasonable to expect that the present deficit in movement will have to be made good before winter sets in.

Yellow Pine is occasionally spoken of hopefully, but the majority of operators assert that it will require a vast amount of hope to produce any really cheerful view of the situation. The wood holds its natural relative position in the movement for consumption, but fails to get a start into the road for positive improvement, largely because the attempt for more determined attitude on part of manufacturers prove unsuccessful. Some little trade is doing.

Carolina Pine is said to be selling quite as freely as could be expected under existing conditions of general trade, and there is an evident disposition to exhibit a cheerful tone respecting the market. Manufacturers are accumulating some stock but find no necessity to force the sale of it, and prices for all grades seem to be well sustained.

Hardwoods are apparently steady all around. The moderation and care shown in the form of demand find a balance in the comparatively light offering, and thus far an evidence that the majority of manufacturers are in no such strait as to feel the necessity for forcing a market. If they can hold out until fall the chances are in their favor because of the universal consumption of stock in the various lines of furniture manufacture and house trim, and reduction that has taken place in the accumulations of many local dealers. Mahogany is holding its own with domestic woods in the present current of trade.

GENERAL LUMBER NOTES.

STATE.

The Albany *Argus* reports as follows:

Pine lumber appears to be arriving a little more freely as a result of the frequent complaints of the dealers here, but otherwise the situation remains unchanged. The Albany firms have tired of waiting for the end of the Tonawanda labor troubles, and as Buffalo and Tonawanda appeared to be getting well stocked, entered vigorous protest against further delay in the forwarding of their receipts. The deliveries appear not to have made much impression on the market here thus far. Doubtless it will take a good while to get a good assortment in stock. There has been a quiet week with no new developments. Freights are still high and unchanged and prices rule firm. Trade is retarded by the scanty supplies of stock. Spruce and hemlock dealers still have some difficulty in getting receipts from the upper Hudson mills and they cannot keep up with their orders. The Champlain canal is not yet in good shape. Prices are strong.

THE WEST.

The Northwestern *Lumberman* reports the cargo market at Chicago as follows:

There is more inquiry on the cargo market this week than last, but the trade is still a long way from being active. Receipts have been very light. Everything that is arriving now goes off without much trouble, though dealers are still hanging off for the bottom prices. Manufacturers will continue to send forward as little as possible until the demand is decidedly better. Yard dealers will soon begin to think of the long winter that is approaching, and when they do commission men expect to get back to $10.50 piece stuff again. No sales of short are reported this week at over $10, but slim jims have brought $11.50, and the feeling all through is firmer. The mill men are finding a market for their output at other points, and say they will not force lumber on the Chicago dealers.

At the yards:

Assortments are now in pretty good shape. Some sizes of piece stuff, notably 2x4, 18 and 20 feet, are still scarce, but the scarcity is not felt to any extent with the present state of demand. Until recently there was a scarcity of 8-inch piece stuff, but late arrivals, principally from the Menominee district, have filled this gap. The time will soon arrive, however, when preparations for the winter must be made. The stock now in pile at the yards will not last long, even with a moderate demand, and increased purchases will probably be necessary within the next thirty to sixty days.

Prices out of the yards have scarcely been affected by the financial depression. Coarse lumber is a little cheaper, and will probably go lower, but on good lumber values are practically the same as they were in the spring and fall. On siding dealers are still quoting $16 for C; $20 for B; $22.50 for A, and $28.50 for clear. No. 1 fencing is held at $16.50, and No. 2 at $14.50 for 16-foot, and $14 for 12 and 14 feet. No. 2 boards are selling at $13; 50 cents under the prevailing price in the spring. Sales are sometimes made at prices below those quoted above, but good grades ought to command those figures.

There is a general feeling among consumers, and wholesale dealers as well, that prices on poplar lumber will decline, but manufacturers scout this idea. It is true that the smaller mills are shading their prices on cash sales, as they need the money badly, but as a rule the larger concerns are holding up firmly to the association list. There are, perhaps, slight indications of weakness in the lower grades, as a result of accumulation at some of the distributing centres, but firsts and seconds dry stock is in as active demand as ever at full prices.

Logs have not come down to the mills as expected, the June run, so far, being very light. A number of the mills are idle, and none of them have any considerable supply of dry lumber on hand. The report of lumber and logs at the mills, now being prepared by the secretary of the Poplar Manufacturers' Association will undoubtedly have the effect of strengthening the market, when it is published, as the data received so far indicate lighter stocks than at any corresponding date for the past three years. A leading manufacturer and member of the association predicts that prices for first and second poplar will be $2 a thousand higher, before they are lower, but this is probably drawing it a little strong. There will be no reason to complain if present prices can be maintained.

The Mississippi Valley *Lumberman* as follows

The weather for several weeks past has been exceptionally good weather for the drying of lumber, and has been taken advantage of, too, in the northern districts where dry-kilns are not used as much, perhaps as they might be to advantage. The main trouble is found in the scarcity of dry lumber, it being sold so close to the saw that stocks are not accumulating as they should.

Never in the history of pine land dealing was there so much inquiry for stumpage and so many heavy transactions reported as this spring, and many more are now being negotiated in northern Minnesota, at figures considerably above the ruling prices during the last ten years. It is far from being in the interest of the State to see large bodies of its remaining pine pass into the hands of active operators, who will proceed to slaughter it in haste, not only to realize on their investment, but to escape the enormous taxation heaped upon this unproductive property by the tax eating squatters of the pine land counties. The next ten years will work out the accessible timber. Several counties like Morrison, Mille, Lac, Pine, Kenabec, Carlton, Aitkin, Crow, Wing, Wadena, Hubbard and Polk are so nearly stripped that they cut no figure in lumber circles. From our knowledge of the situation, we predict an increase in the output of over two hundred million feet, next year.

The driving season on the upper Mississippi and its branches, which started out with so much promise two months ago, cannot be said to be in as prosperous a condition as has been noted thus far. At the outset of the driving season there was too much water in the smaller streams, although it facilitated the driving in the larger ones. Now the water everywhere is falling so rapidly that it is doubtful if a number of drives that were counted on surely to arrive in the boom this season will get into the river at all this year. As it looks now, it seems as if some of the drives will be hung up indefinitely. In the main river the water has fallen so much that the numerous bars are appearing very close to the surface. The Boom company is experiencing a good deal of trouble with its drive on this account, and the rear has not made very much progress since last week. What is needed most is a few days' rain, which would help matters very much at present. Taken as a whole, the driving season will be a most successful one as compared with other years, and the most of the drives will probably get into the boom all right, but the season will not fulfill the promise with which it started out. No definite news has been received from any particular source this week, and the exact condition of things on the streams farthest away cannot be learned. If the river continues to fall in the next week as much as it has in the past week the prospects for the early arrival of many of the drives will be very poor indeed.

THE PROVINCES.

The government of New Brunswick has issued a new set of timber regulations. There will be, hereafter, a charge of 10 cents a thousand on shingles made from cedar cut on crown or government lands. Other new items are brackets, each one cent, and spruce or pine piling one-quarter of a cent per lineal foot. The stumpage charge on hemlock has been reduced from 60 cents to 40 cents a thousand, and white birch logs for spool wood are added to the schedule at 65 cents a thousand. Whereas formerly all sums under $100 had to be paid in cash and larger sums provided for by approved joint notes before the logs left the brow, the time is now extended to August first. Hereafter there will be no exception to the right of the government to increase the mileage on licenses or the stumpage on any class of lumber, after due notice and at the time of renewal of license. It is provided that if an operator cuts a spruce or pine tree when peeling hemlock, he shall be charged with it by the scaler. The surveyor-general is given power to call upon any license to cut annually at least 10,000 feet of lumber for each square mile of land licensed or to pay stumpage on that amount if he prefers not to cut in any year. If he fails to do so the license is forfeited. This is to prevent holding lands for speculative purposes. It is now provided that licenses may be issued for a term of twenty-four years from August 1, 1894, subject to certain easy provisions.

NAILS.—Business moves rather slowly, and in the main upon the simple basis of not very extensive immediate requirements of consumption, though an occasional fair sized export order affords some relief. Stocks of all kinds are plenty enough for current requirements, with prices still unsettled, but generally inclined in buyers' favor. We quote Cut at $1.05@1.25 per keg for car lots and $1.35@1.45 per keg for parcels from store for iron, and add 3c. per keg for steel; Wire, $1.50@1.55 at mills, and $1.80@1.85 from store.

PAINTS, OILS, ETC.—Business has been somewhat irregular, but operators rarely complained of any animation sufficient to trouble them even on hot days. In point of fact the market as a whole has continued dull, and to the quieting influences growing out of the financial situation may be added the end of the first six months of the year, which always brings more or less curtailment of trade. The selections of stock so far as made are almost wholly from staple goods, of which there is an offering equal to all wants, yet probably no great surplus, as both manufacturers and importers have for some

Spirits Turpentine has undergone very little change in value, owing in the main to the small amount of business doing. The primal markets, however, continue firm, and afford a sustaining influence. We quote at 29½@30 ½c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—Business has been fair, with supplies of stock not very plentiful, and although at times some little irregularity developed on values the general inclination was firm for all grades. We quote Tar at $1.70@1.80 in pine or Wilmington bbls., $2.00@2.05 in pork bbls. and $3.70@3.75 in oil bbls., Pitch $1.50@1.70.

BUILDING MATERIAL PRICES.

LUMBER.
Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors and, altogether, it is impossible to give a line of retail quotations thoroughly reliable n character.

THE Stock Market is in a condition of stupid and discouraging placidity. Recent declines have not been great, but the fact alone that declines continue after the fall that has been seen throughout the entire list is not promising. The genuine feeling on the situation among people who can influence matters is more bearish than ever because of the distrust of Congress and of the knowledge that men who are accounted rich find their enterprises hard to carry, not that their business has been overdone, but because they find themselves unable to obtain the reasonable accommodations that they were perfectly justified in relying on. As regards the Silver situation, while it is probable that the outcome is not very uncertain, the relief expected therefrom may be delayed for some time by the tactics of the Silver men in and out of Congress. Meantime the change that has been brought about in the commercial conditions of the Silver States must work to the disadvantage of values in the market for securities. This is evidenced by the passing of the dividend on Denver & Rio Grande preferred and the fall in the prices of bonds issued on Colorado railroads.

ONE of the most noteworthy facts connected with the present financial stringency is the practically complete disappearance of gold from circulation. Particularly since April last gold coin and certificates have rarely been seen in the ordinary channels of business. The fact is, of course, that both of these forms of money have been hoarded up, first of all by the banks, and no doubt to a very great extent by private individuals. How far this hoarding of gold has been carried is revealed by figures which have just been issued in Washington, wherein the circulation on July 1st of this year is compared with that of the same date twelve months ago. These statistics show that in addition to what is known to have gone to Europe, something like $48,000,000 gold certificates, $5,000,000 of gold coin and $18,000,000 of currency certificates have been withdrawn from circulation. This $71,000,000 is now lying practically idle. It is not likely to be seen again in circulation until general confidence is once again restored. The greater part of it undoubtedly is tightly held by banks as a safeguard against emergency. We know one of the largest savings institutions in this city, which is retaining in this way close upon $5,000,000, the greater part of which, of course, in freer times, would be in ready circulation. Indeed, to such an extent have some of our banks eliminated silver currency from their reserve, that they have been forced lately in meeting the larger calls upon them to make payments in gold. A bank in one of the larger Hudson River towns recently paid a demand for $3,000 entirely in gold, which is pretty good evidence of the character of the money it holds.

THERE is another fact in connection with the present money troubles which ought not to go unrecorded, particularly as it has no doubt done much to avert greater evils than those that have so far betided us. We refer to the very general effort which has been made among individuals to promptly discharge their debits. The observation has frequently been made of how "good" collections are considering the remarkable scarcity of money. Usually in times like these a debtor considers that he is rightfully entitled to the utmost leniency and protracts payments which he would otherwise make, arguing that the retention of every dollar he possesses is necessary to protect himself from disaster. This speaks well for the business community. The disposition has been rather one of anxiety to promptly discharge obligations than to defer payments, and if we could get at the facts we believe it would be found that no small part of the demand which has been made upon our banks by individuals whose transactions are beyond speculation, has arisen from this cause.

A NEW development in building operations deserves attention. Hitherto the building trade has been to a slight degree in the hands of private individuals. Corporations in the legal meaning of the word, have been practically unknown, while the millions that have been invested on the West Side and East Side in recent years have represented individual enterprise. There are indications now that this order of things is about to be terminated, and that incorporated companies will play an important part in speculative building. A number of corporations for this purpose have lately sprung into existence and are buying property on the West Side and elsewhere for development. Indeed, they have undertaken some of the most important improvements planned for on the West Side this year. The City Realty Co. has already several noteworthy operations under way. The Mercantile Building Co. has commenced a row of houses on West End avenue and 78th street, and is building elsewhere in that neighborhood. The Metropolitan Improvement Co. was incorporated not long since under the laws of New Jersey. The Hudson Realty Co. is another new concern and so is the New Amsterdam Improvement Co. These corporations have been formed mostly by old operators, who seem to have reached the conclusion that larger capital is now needed in building operations than has hitherto been at the command of single individuals. The increased care which building material concerns have taken in giving credits has probably been not without its influence. Property, too, on the West Side is now expensive, and two or three times as much capital is needed to-day for an extensive operation as was needed eight or ten years ago. No doubt, also, the advantages of a corporate standing has induced operators to combine their forces. The innovation is a promising one which is likely to be developed in directions not yet apparent, and will be watched with interest.

Our School Buildings.

MORE than once THE RECORD AND GUIDE has made complaint about the cheapness and commonplaceness, architecturally speaking, of the public school buildings of New York City. For many years past, indeed the mind of man runneth not to the contrary, our school buildings have been sad examples of municipal incompetency. Our architectural failures in this department have really been more censurable and deplorable than in any other. A great city hall like, for instance, the one in Philadelphia, may be a failure artistically, but, in case of failure, when we consider how much talent is necessary to produce a distinguished success in such an undertaking criticism is inclined to turn aside a little from the utmost severity unless it be apparent that failure is due wholly to gross incompetence. But, with school buildings, conditions are so very different and so much more favorable to the architect that the community has a right to insist upon a very large measure of success. In the first place, here in New York, ample funds are set aside for our school buildings, and, in most cases, an ample site for a good design is provided. The necessary dimensions of the buildings are in practically all cases architecturally tractable. No architect with any good training could fail to easily avoid failure in designing a four-story or at most a five-story building, on a frontage of often 100 feet or more. It is consequently a civic disgrace of the first magnitude that we have to confess that for the last twenty-five years or more New York has been building, year after year, without protest from any one, school-houses which do not exhibit a single quality that one dare call architectural. We do not know of a building, erected between say 1860 and 1890, that possesses the least charm or dignity or architectural value of any sort. All are cheap, tasteless and expressionless. No mill building could be prosier and many factories and warehouses have greater artistic value.

Such a result as this is all the more lamentable when we consider how strong an impression early surroundings have upon the minds of children and what a powerful, artistic example our school buildings might be, not only for the rising generation, but for the community at large. Placed, as so many of them are in the poorer parts of the city, they might have pointed the way to something better than we have in our tenement and apartment houses. More than this, our shortcomings are less excusable when we see, as we may, how much good work has been done in other cities, notably in Boston. Indeed, the lesson given to us in the latter city is enough to make the judicious weep. There we may find school buildings of distinct architectural merit, buildings which declare themselves at a glance to be the work of a well-trained pencil. There is, too, variety of design in place of the dull sameness which we have in New York. If we confine our view only to recent work, what have we here in New York that we dare compare for one moment with the Agassiz Grammar School, Boston, or the Primary School at East 3d street, Boston; the Grammar School in the Emerson District, the Primary School in the Hillsdale District

Mr. Yoran has left for Carlsbad. He will be out of town, touting, all of to-day and to-morrow.

square, Charleston; the building on Wyman street, or piece of work on Harold and Homestad streets, Rocks- the latter, indeed, is worthy of a place in any University. son is odious and saddening.

it forth the foregoing remarks with the hope that they may uch-needed public criticism to our short comings, for the indifference of our people to this subject is one of the is why our school buildings make such a long catalogue of res. It would be unjust, however, to our present Superin- dent of School Buildings if we stopped here without saying that e work that he has been doing in the last year or so is an immense nprovement upon the work of all his predecessors. Public nterest and encouragement will probably be of great service. We bespeak it, for certainly he deserves it. Mr. Snyder has inaug- urated a new order of things, and whether his good work shall bear fruit in the future will depend upon whether the old indiffer- ence on the part of the community continue or not. Some of his recent designs are not only excellent in themselves but promising and encouraging. Grammar School No. 25, at Nos. 117 and 125 East 4th street, is an excellent piece of work. It is Gothic in tone, which befits a school, though many of the details are foreign to the Gothic style. The annex to Grammar School No. 53, on East 80th street, merits similar praise, though the cornice and balcony which crown the structure are rather out of tune with the rest of the building. The 22d Ward school-house on the south side of 46th street, west of 6th avenue, is an effort in the Romanesque, and though we cannot consider it successful from the highest point of view, it is, in comparison with what we have been given, a very pleasant thing. Best of all is the school-house, No. 29, in the 1st Ward, on Washington, Albany and Carlisle streets. This is decidedly good work, the best Mr. Snyder has done so far, and it seems to us it indicates the lines upon which he should work. We speak of these buildings at this moment from perspectives, but by and by, when they are completed, we shall return to them and deal with them in detail. Our present point, however, is the public. New York often complains of the poor service it obtains from its officials. "Politics," of course, are to blame for much, but official- ism of even the highest character is likely to fall far short of the utmost if surrounded by a public indifference concerning its work, such as has been exhibited regarding our school buildings.

THE people of this country, according to their own report, are remarkably ingenious; but if there is any foreign country that displays a more frequent lack of the inventive faculty than we do its condition is to be deplored. Here was a cable railway car going down Broadway last Wednesday, when at Worth street, or in the neighborhood of Worth street, the grip became cranky and refused to let go of the cable. But crowded Broadway, as it is pretty well known, is a poor place for the indulgence of any such antic disposition, and if we were to ask any fairly inventive person what a grip should be compelled to do in such a case we would expect him to reply that it ought to be compelled to let go of the car. The mere withdrawal of a linchpin or the twist of a lever should have been sufficient to let the stubborn implement loose, while the car remained motionless until a new grip could be pro- vided or another car with a more tractable grip came along and pushed it quietly on its way. But there was no provision of the kind, it seems, and so the car went tearing along Broadway, colliding with every vehicle it could overtake and either throwing it from the track or pushing it along in a mimic railway train. It was an exhibition fit to make an inventor tear his hair, and it is pardon- able only on the supposition that no other grip on any of the cable railways in the United States, during all the years that cable roads have been in operation, ever refused to respond to the touch of the gripman. Even in this case, however, it can hardly be said that the accident would be pardonable, for we have heard men suggest the possibility of just such accidents, and a disaster that can be foreseen can be provided against. Fortunately no lives were lost in this case, but that may have been owing to the sweet little cherub that sits up aloft to keep watch over New York tran- sit matters. Another disaster of the kind might be more fatal.

Real Estate Department.

Fourth of July week seldom affords a better schedule of new business in real estate than that which is presented in our "Gossip" column to-day. And when the Fourth of July falls on Tuesday it takes away the second best day of the entire week, and leaves little from which actual results are expected. Generally speaking, it is expected to be the dullest week in the year, in the real estate line. Fireworks and short excursions make things lively enough on the surface, while land lies still. Brokers on the West Side, however, report that they have been visited by a fair number of inquirers for residence property, and while the closed transactions are few something is expected from them in the near future. Bargain-hunters have not met with the success they expected from the financial depression, for, with the exception of a few builders who have been carrying their property on very small margins, owners have made no concessions. They say with one accord that if the prevailing tightness of the money market should continue they would be in better shape to weather it than if they parted with their property for anything but gold, and as there are but few buyers around with gold enough to pay outright they had better remain as they are. In the auction market there were only three sales. The Manhattan Athletic Club House was to have been sold under the first mortgage foreclosure, but the sale was adjourned for two weeks to give the second mortgagees an opportunity to buy or sell and protect their interests. As to loans, the statement was made in two or three quarters that there had been a perceptible easing of the market, and loans which ten days ago were refused had, since President Cleveland's proclamation, been allowed. But too much confidence must not be based on this fact. Things are not expected to permanently improve until Congress has met and done its duty. July and August will doubtless prove to be duller months in real estate than usual.

Gossip of the Week.

SOUTH OF 59TH STREET.

The lot, 24.8x100, on the northeast corner of 6th avenue and 35th street, with an old three-story frame building on the corner, and a two-story brick building in the rear, facing on 35th street, has been sold by Henry McAleenan to Adam Engel, the tenant in possession, for $139,000. Harrigan's Theatre adjoins the property on the east, a fact which plays an important part in giving this value to the property. Mr. McAleenan bought the property at auction in May, 1889, for $86,400. H. Rawak was the broker. Leases which will not expire until May 1, 1896, prevent the purchaser from improving at once.

Hoffman Bros. have sold a six-story business property, lot 25x87, in Harrison, near Hudson street, for $60,000. The property is rented for $4,500 per annum.

Smith & Allen have negotiated the sale of No. 38 West 4th street, at about $30,000. The buyer, Louis M. Jones, owns the corner, which now measures 60 on 4th street and 76 feet on Greene street.

Geo. R. Read has sold for Henri Chegnay to Fredk. S. Parker the two three-story brick dwellings, 19x80 each, Nos. 3 and 9 Beach street.

Blakely & Dodd have sold the three-story brownstone dwelling property, 20x50x100, No. 148 West 54th street, to Nathan Woolf, for $30,000.

NORTH OF 59TH STREET.

Raubitschek & Co. have sold the five-story apartment house on the corner of Park avenue and 94th street, 50x80, for about $75,000.

The northwest corner of West End avenue and 77th street, one of a block of six buildings in course of construction by the Mercantile Building Company, has been sold to Frank Work, Esq. It is a five-story English basement dwelling, built of drab colored, mottled brick and light stone and nearly covers the lot, which is 55 on the avenue x25 on the street x30x12 x20x5x25. The house is nearly inclosed.

Henry D. Winans & May report the sale of No. 45 West 76th street, the 23-foot dining-room extension house built by A. G. Nason, to Arthur Talcott at $53,000.

C. R. Gregor & Son have sold for B. L. Strasburger the three lots, 75x99.11, on 149th street, north side, commencing 300 feet east of the Boulevard, on private terms.

Mrs. S. M. Blakely has purchased the four story brownstone front, box stoop, residence property, No 251 West 76th street, size, 21x60, with dining-room extension and foyer hall lot 102, for $36,500.

Sam'l H. Baker has sold to C. R. Bullwinkle for A. Bohm the five-story stone front store and flat, 25x100 feet, at the southwest corner of Columbus avenue and 124th street.

Builder Theo. A. Squier has sold a dwelling on West End avenue, next to the southeast corner of 93d street. The buyer is Dr. Thomas W. Bickerton.

Henry H. Dreyer has sold the four-story limestone tenement, 25x73x100, No. 857 11th avenue, for A. Dreyer to Chas. Schlichtmann for $18,000.

Watkins Bros. have sold to P. H. Schmidt the dwelling property No. 416 West 154th street, near St. Nicholas avenue, a three-story brownstone house, 18.9x55, with bathroom extension, lot 100, for $24,250.

Max Simon has sold for Mrs. Catharine Reynolds to I. Monheimer the five story double flat house, 25x65x75.11, No. 103 West 98th street, for $19,500.

Solomon & Schulze report the following sales at private contract: For N. J. O'Connell to Frank Reynolds the five-story, four-family apartment house, 25x88x100, No. 717 East 146th street; and for Frank Reynolds to N. J. O'Connell, thirty-two lots in the town of New Utrecht, Long Island.

Wm. Broadbelt has traded his house and grounds at New Rochelle for a flat on West 65th street, near Central Park.

Eliz. J. wife of John H. Wellwood has sold two five-story brick and stone flats, Nos. 702 and 704 East 137th street, for about $23,000 each. Broker, James Benson.

Wm. Rankin has sold one lot on the south side of 65th street, 175 feet east of Columbus avenue, to Wm. Miller for $16,000, with a loan, for improvement.

Mandelbaum & Lewine have purchased from H. Burr the three-story and basement brick dwelling No. 147 West 46th street, size 18.9x50x100.5, leased to May 1, 1894, at $1,300 per annum, for about $15,000.

Brooklyn.

Corwith Bros. have sold the three three-story frame houses, 16.8x36, on lots 16.8x100, Nos. 529, 529½ and 531 Leonard street, for the estate of H. F. Dougherty to J. Schoenborn and K. Schweiskhardt for $6,650; and the three-story frame double tenement, 25x65, on lot 25x100, No. 15 Oakland street, for George Hasenfratz to Alexander McKenzie for $7,300.

Out Among the Builders.

Neville & Bagge will draw the plans for nine three-story and basement private dwellings which Jas. A. Frame & Son will build on the south side of 120th street, 175 feet east of Lenox avenue, and not Thom & Wilson, as reported in THE RECORD AND GUIDE of June 24th. Four of the houses will be 20 feet front and five 19 feet front. They will each be 55 feet deep with three-story extension. The fronts will be of Indiana limestone and Nova Scotia freestone. They will be finished throughout with hardwood cabinet trim and mantels, have all improvements and conveniences and cost about $150,000.

Thom & Wilson are preparing plans for extensive improvements and alterations to the Quarantine Station, at Hoffman Island. They include a frame building, 60x300 feet, three stories in height, capable of accommodating from 1,500 to 1,800 patients. The old buildings, together with the new one, will be equipped with new plumbing and heating fixtures. The drainage will also be improved. The amount to be expended is about $150,000.

J. D. Butler, owner of the "Lincoln" and "McIntyre" buildings, reports that he will build a twelve-story apartment hotel, 50x204 feet, on the north side of 72d street, extending through to 73d street, near Central Park West, adjoining the premises of the "Dakota." The classic style will be used. The details have not been decided upon, but bluestone will probably be used. R. H. Robertson is the architect. The cost has not yet been determined.

From plans by A. Webster, Robert J. Blake will build a fire-proof storage warehouse, 50x90, on the two lots on 101st street, north side, 150 east of Amsterdam avenue.

Richard Deeves & Son have been awarded the contract for building the new five-story brick and stone residence, 30x90.5 feet, which J. W. Alexander is to build at No. 6 East 64th street. Deeves & Son have all the work, the cabinet work alone excepted. The plans were drawn by R. H. Robertson. The building will cost about $60,000.

S. Chas. Welsh will build from plans by M. V. B. Ferdon a seven-story brick warehouse, 18.9x74 feet, with a story and basement extension, 18.9x6 feet, on the plot 18.9x80 feet, at No. 472 Greenwich street. The building will have a Bailey fire-proof shaft. The cost could not be ascertained.

R. R. Davis has plans for two five-story flats which John H. Wellwood will erect on the southeast corner of Perry and 4th streets. The corner house will be 35x72, and arranged for three families per floor, and the inside house, 25x63, arranged for two families per floor. Owner, Elizabeth J. Wellwood.

Wm. Miller will erect a five-story flat on the south side of 65th street, 175 feet east of Columbus avenue, from plans by James W. Cole.

Andrew Spence is at work upon plans for a two story frame dwelling, 20x28 feet, for James Downs, to be built on the west side of Decatur avenue, in the 24th Ward. The first floor will be finished in hardwood, and the house will be heated by hot water and have slate roof. Cost about $3,500.

Wm. Metzroth will build a two-and-a-half-story frame cottage, in the Queen Anne style, on 184th street, near Ryer avenue, in the 24th Ward. J. S. O'Meara is the architect. The building will cost $4,500.

The following buildings were damaged by fire during the past week and will probably require reconstruction or redecoration: 131 East 79th street, owner Isidore Hynes; 46 and 48 Downing street; 26 and 28 Park place and 21 and 23 Barclay street; 328 Grand street, owner Harry D. Haber; 402 East 10th street; 227 West 34th street, owner Mary Perkins; 328 East 73d street, owner Mary Ennis; 1575 1st avenue, owner Bernard Farrell; 14 West 14th street, owner Henry Siede; 88th street and Park avenue, owners Koch & Kueble; 832 9th avenue, owners Dimont & Max; 301 West 29th street, owner Gilbert O'Brien; 412 Grand street, owner Kurnisky Levy; 152 West 17th street, owner Leopold Bohm; 212 Centre street, owner L. Block; 130 Pearl street, owner Thomas Delaney; 272 Canal street, owner B. Silverstein.

Brooklyn.

P. F. Lauritzen has prepared plans for a five-story brick store and loft building, 50x80, which Anton Vigelius will build on the south side of Myrtle avenue, just west of Broadway. It will be equipped with passenger and freight elevators, steam heat and electric light.

J. Graham Glover has prepared plans for a three-story brick building, 62x90, which is to be built by the Husted estate, at Nos. 621 to 627 Myrtle avenue. A clothing store will occupy the ground floor, with work-rooms in the basement; and the two upper floors will be divided into four apartments each.

Out of Town.

ELIZABETH, N. J.—The City Council has adopted the plans submitted by D. P. Provost for a new fire engine house and police station to be erected on the north side of Elizabeth avenue, between 1st and 2d streets. The building will be of brick, with a slate roof, and will accommodate Engine Company No. 4, Hook and Ladder Company No. 2, and the police of the Second Precinct. Bids will probably be advertised for next week.

IRVINGTON, N. J.—Schweitzer & Diemer have plans on the boards for a $20,000 factory, to be built for The Universal Press Co.—Alexander Milne, president. It is to be a one-story brick structure, 60x200, with slate roof and engine and boiler room extension, 35x35.

FAR ROCKAWAY, L. I.—J. S. O'Meara, of New York, has plans in preparation for a two-and-a-half-story frame cottage and two story stable and coach-house to be built on Mott avenue for J. J. Healy. The house will be 45x65 feet, heated with hot air. The roof will be shingle. The style will be "Old Colonial;" total cost about $9,000.

GREAT NECK, L. I.—The School Board have appropriated $28,000 to build a two-story brick school-house of eight class rooms and an assembly room. Several New York architects have submitted plans, and the award will be made very soon.

SARATOGA, N. Y.—Miss R. Richmond, of No. 150 West 34th street, New York, will build a summer residence on Broadway, from plans by M. V. B. Ferdon, of New York. The house will be two and a-half stories in height, 40x65 feet, and have shingle roof. The first floor will be finished in hardwood, with slate mantels, and the floors above in natural woods. Hot air will be used in heating. The house will be in the old Colonial style and cost about $18,000.

PATERSON, N. J.—Mrs. John Campbell has engaged Charles T. Mott to prepare plans for a two-story and attic frame dwelling, 38x50 feet, with a one-story kitchen extension, to cost $10,000.

JERSEY CITY.—G. W. Labaw is preparing plans for two five-story brick and stone trimmed flats, 25x56 feet, to be erected on the southwest corner of 12th and Erie streets, for John F. Kelley, to cost $25,000, and for J. J. O'Crowley for extension to the front and rear and for remodeling the dwelling, No. 45 Hudson street, to cost $3,000.

R. W. Sailer is preparing plans for the following: Two five-story double brick flats, to be erected on the northwest corner of 1st and Grove streets, one, the corner, 25x60, the other, adjoining, 28x57 feet, for Henry L. Rugge, to cost $26,000; on Communipaw, near Pacific street, for a three-story frame flat, first story 25x35, second and third 25x40 feet, for the Communipaw Building Loan Association, to cost $5,500, and for the alteration and remodeling of the dwelling on the east side of Bergen avenue, near Kensington street, for Joseph Warren. This house will have another story added and general overhauling; cost not estimated.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

BRICKS.—While buyers have gained no positive advantages in matter of cost, the general position is not so favorable to receivers as it was one week ago. All hands agree that arrivals have been somewhat smaller, yet it is found that nearly every day a few barge loads remained on hand instead of selling up as close as heretofore, which would seem to indicate a lessened general demand. Still there has been no special worry over the conditions of trade, and some receivers think that possibly the extra stock bought before the 4th and some difficulty in getting men back to work immediately after the holiday, has made simply a temporary lull in demand that will soon be overcome. The general run of quality has continued very good and only strictly fancy goods have any special advantage. For Pale brick there seems to be a pretty good demand and the moderate offerings are easily disposed of at full former rates. Some operators suggest, however, that demand appears good only because supplies are scant, and that a larger quantity available would at once alter the tone. At primal points the production of bricks has not been curtailed so far as known, and taking all things into consideration manufacturers have no reason to complain of the season thus far.

LATH.—There has been a great deal of irregularity in tenor of reports during the week, but the finale is comparatively firm and inclined to favor the seller. Certain arrivals of very undesirable stuff, the shipment of which hither is unaccountable, sold at slaughter rates, but the lowest we learn of on regular stuff is $2.30 and 5@10c. more is asked at the close. Just now most lines of custom, local or out of town, has a supply, but is also distributing fairly into consumption, and with the moderate offerings to arrive receivers are looking for a steady market at least, and possibly some gain should there be any competition for the next offerings.

LIME.—The market has continued quite unsettled, mainly because there was a sort of clearing-up attempt on the part of receivers. The idea was to get rid of the miscellaneous assortment of held lots, and in doing so it became necessary to make cuts on price pretty deep ones in some instances, but just how far the shading has gone is not clearly shown. At 70c. and 80c. State stock has sold, and fresh arrivals also; but at the close there is some talk of making a stand for a much higher figure with a hope that 85c. and 95c. respectively for the two grades may finally be settled upon. It is not there yet, however, and valuation at the moment is really only nominal.

LUMBER.—The general conditions of our local lumber market undergo no change worthy of note. The week has been broken by the National Holiday, but in any case it is extremely doubtful if much business could have been accomplished in the present temper of buyers. Deliveries for consumption include a great deal of stock on previously arranged contract and all new demand is confined almost exclusively to positive necessities. Dealers are in turn following the same course, many of them voluntarily and many of them because they do not receive the kind of attention that ordinarily leads to negotiations, and the wholesale trade may still be considered as on the waiting list. We notice in some instances a disposition to become a little discouraged over the extended period of unsatisfactory trade, but that feeling is not without a fair balance in the hopeful views of those who contend that good trading must develop during the fall and early winter if nothing more is called for than the quantities and assortments necessary to place the yards in stock to go over into next year.

The foreign call for lumber at this port since January 1st has been shrinking, and the following shows the export movement for the first six months for the past two years:

	1892. Feet.	1893. Feet.
January	9,465,000	7,815,000
February	7,052,000	6,898,000
March	6,088,000	6,596,000
April	8,351,000	7,860,000
May	5,524,000	6,547,000
June	8,551,000	5,641,000
Total feet	45,029,000	40,757,000

Spruce remains dull, so far as any natural demand may be depended upon to contribute to business. Scarcely any Northern stock is offered, and such lots as may come forward from the Eastward have been adroitly handled to prevent buyers putting absolutely their own terms upon specification. Receivers, however, appear to have an idea that mill men are much more in earnest than usual in the threat of shutting down and curtailing shipments, and hope to escape the heavy arrivals that are a frequent incident of midsummer. There is said to be only a moderate quantity of logs to take care of just now, and the pulp mills helping consume considerable stock. Piling finds no special demand at the moment from consumers, and dealers are not ready to commence accumulation of stock for fall and winter use.

Correspondents of the *Northwestern Lumberman* write as follows: Bangor, Maine.—The spruce market is as dull as it was ever known to be. The failures in Boston have had a serious effect in our log and timber market.

Not one of the large Penobscot saw mills has had a full stock of spruce logs to saw and will not for a month. Such logs are not rafted out of the boom fast enough to supply the mills. St. Johns, N. B.—The sale of timber licenses for the greater part of the crown timber lands of the province will be held at the crown land office on August 29. The former ten-year leases expire on August 1, and under the new law leases renewable for twenty-five years may be granted, subject to conditions. The amount of land to be leased is 4,400 square miles. The upset price will be $8 a square mile, and, if the conditions are complied with, the licenses may be renewed each year on payment of a mileage rate of $1 a square mile in addition to the stumpage dues.

The St. John mills have been running very irregularly this season thus far, on account of a scarcity of logs. Rafts are now coming in more freely.

The saw mills on St. Croix are all at work, and though the American market is not as satisfactory as was expected, the shipments are pretty well up to the average for June.

Hemlock meets with only moderate demand against which the offering is ample and former rates asked, but the actual selling basis is frequently quite decidedly in buyers' favor, especially on joist, some of which were placed at very low figures during the past month. Information at hand leads to the impression that considerable dependent custom is working on narrow supplies of stock but not receiving many invitations to replenish at the moment.

White Pine is influenced by financial conditions quite as much as any other class of wood, but aside from that has a very good position and will probably be sensitive to the first touch of returning improvement. The entire trade seem to have faith in it as having reached a point where little set back in value can take place, and there is even now a large amount of custom that would readily enter into contracts if sellers had a little confidence to accept negotiations on the usual basis. Supplies have come to tide water unusually slow this season and there are a great many assortments to be filled out. Export trade is doubtful, but hardly promises more than an average movement.

Yellow Pine does not for the time being show anything in the way of positive improvement, but there is evidently quite a determination to feel hopeful over the situation and operators expect to be right in line with any gain that may come to the general market. There is apparently nothing in the way of quite as full a line of consumption as usual, and there seems to be a growing notion that manufacturers are really getting to a point where slaughtering prices for the mere sake of selling stuff is likely to be abandoned.

Carolina Pine meets with a fairish sort of demand, mostly box, and at steady rates, but it is not a quick market by any means. Indeed, agents are frank enough to admit of considerable difficulty experienced in securing general negotiation at the moment, and latest advices report that manufacturers are gradually commencing to accumulate stock at the mills.

Hardwoods are quiet and nominally unchanged. There is, however, a probability that in various ways buyers have of late secured many little favors and all kinds of stock, especially where they could give anything in the way of a prompt settlement, not exactly because holders were compelled to force business, but when odd lots came along the most judicious course appeared to be to dispose of them as promptly as possible. From many primal points the information comes in such form as to suggest that there is no over-abundance of logs, and that many of the mills have orders to keep them busy for some

time to come. The poplar manufacturers' association adheres to price list, and predicts an excellent market for poplar when general trade gets back into normal condition.

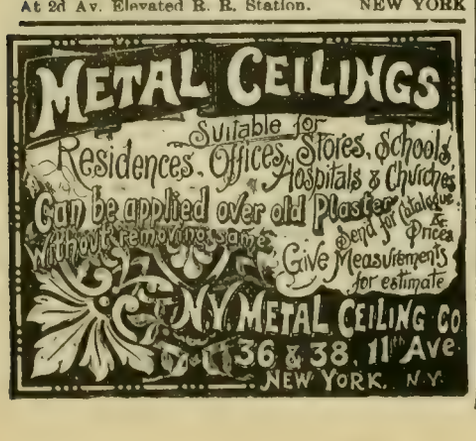
GENERAL LUMBER NOTES.

STATE.

The Albany *Argus* as follows:

All lumber that arrives moves off readily enough, but the story of the week is again a tale of restricted shipments from Tonawanda. However, there is somewhat of an increased stock on hand and certain houses in the pine trade express the belief that they have pretty good all around assortments. The delay occasioned at Tonawanda is hitting the men hardest who had no regular line of boats plying the canal. One dealer, who should have had a large load of lumber transferred from Tonawanda to his yard in twenty days, reports that it took sixty-five days to get the lumber here. Under the influence of low stocks prices are as firm as ever and are reported to be held at an advance over quoted rates on shippers. Trade during the week has been quiet. To-day the yards are generally closed, and horses and lumber shovers alike are joining in the celebration of Independence Day. Dealers in spruce and hemlock continue to have their hands full with the excellent inquiry prevailing. A new source of supply, so far as the present season is concerned, is about to be opened via the Black River canal. The work on the lock at Booneville, so long delayed, has been completed, and Albany dealers have been advised that the canal will open to-morrow and that their agents will hurry shipments as rapidly as boats can be procured. Hardwoods are unchanged and shingles are doing fairly. Lath continue scarce.

METALS.—COPPER—Ingot has continued to find slow, uncertain demand and the market as a whole displayed rather a weak tone. There is plenty of stock available now, and apparently some anxiety to sell, though danger of serious over-production is thought to be remote. A local trade report says: "According to advices by cable from Europe, the international agreement of producers to restrict production, that has been in force during the past six months, will be continued during the balance of the year. In this agreement all but a few groups of mines are directly interested, and the belief is that, unless consumption falls considerably short of the most modest estimates, the agreement will operate to prevent serious depreciation in values." Since our last report, prices have settled off a fraction and close somewhat irregularly. On the average range of valuation we quote at 10½@10⅝c. for Lake and 10@10⅜c for casting brands. Manufactured copper has been handled in quantities to suit the immediate necessities of the moment, but beyond that buyers would not move, and rates continue irregular. We quote as follows: Sheet, not above 30x72 in., 16 oz. and over, 22c.; do, 14 to 16 oz., 23c.; do. 12 to 14 oz., 24c.; do, 10 to 12 oz., 25c.; do, 8 to 10 oz., 28c.; do under 8 oz, 30c. Sheets longer than 72 inches add 1c. for 12@14 oz., 2c. for 10@12 oz, and 3c. for 8@10 oz. Sheets, not above 36x96 in., 16 oz and over, 22c.; do, 14 to 16 oz, 24c.; do, 12 to 14 oz, 26c.; do, 10 to 12 oz, 30c.; do, 8 to 10 oz, 33c. Sheets longer than 96 inches 22c. for over 32 oz, and add 1c. for 16 to 32 oz.; 1c. 14 to 16 oz.; 1c. 12 to 14 oz, 1c. for 10 to 12 oz., and 12c. for 8 to 10 oz. Sheets, not above 48x96 32 to 64 oz, 22c.; do, 16 to 32 oz, 24c.; do, 14 to 16 oz, 26c. do, 12 to 14 oz, 28c.; do, 10 to 12 oz. 32c. Sheets wider than 48x96 and longer, 22@25c. for 32 to 64 oz.; 25@28c. for 16 to 32 oz, 27@29c. for 14 to 16 oz. and 29@34c. for 12 to 14 oz. All bath tub sheets, per lb., 16 oz. 24c.; 14 oz, 26c.; 12 oz, 27c.; and 10 oz, 29c. Bolt copper, ⅜ inch diameter and over, 22c. Circles, segments and pattern sheets, 60 diameter and less, 3c. above price of sheets of same thickness; circles, 60 to 96 do do, 4c. do: circles, 96 do and over, 5c. do. Cold or hard rolled copper, 1@2c. per lb. above the foregoing prices. Copper bottoms, 26@32c. per lb. IRON—American Pig has retained a quiet market for both foundry and mill grades and there appears nothing new in the situation. About former rates are named, but quiet allowances understood to be more or less frequent. We quote at $14.50@15.00 per ton for No. 1 X foundry; $13.50@14.00 for No. 2 X do. and $13.00@13.50 for Gray Forge. Old material moves in slow and unimportant volume and with more or less minor fluctuation in value, though on the general range about former figures are suggested. We quote at $16.00@16.50 for old iron rails; $15.00@16.50 for No. 1 wrought scrap; $11.50@12.50 for cast scrap, 13.50@14 for old car wheels, and $6.50@10.00 for borings, stove plate, etc. Manufactured iron has met with moderately active demand for structural varieties, but there was good competition for the orders and prices ranged mainly in favor of the buyer. We quote Common Merchant Bar, ordinary size, at 1.80@1.90c. from store, and refined at 1.90@2.20c; Rods round and square, 2.10@2.20c.; Bands, 2.20@2.30c.; Norway Nail Rods, 3¾@4c., and domestic sheet on the basis of 3.00@—c. for common Nos. 10@16. Other descriptions at corresponding prices, with 1.10c. less on large lots from car. Steel rails met with no attention except as small lots may have been wanted for repairs and the mills were all quite prepared to undertake any larger orders coming along. In some cases few contracts have been made for small sizes. We quote standard sections $29 per ton at mill, with usual advances for delivery at tide water. Pig lead has found a somewhat slow and unsatisfactory market. Natural consuming wants are small and the speculative element appears to find no attraction at the moment. The reduced output of Western mines, however, is considered a fairly sustaining factor. We quote at 3.45@3.55c. per lb. The manufactures of lead are quoted at 6¼c. for Pipe, 7c. for Sheet, 15c. for Tin-lined Pipe, and 87½c. for Block Tin Pipe. Pig tin has had had a very unsettled and feverish market, especially toward the close of last month. That was due to the fact that under the provisions of the tariff an import duty of 4c per lb. went into effect on July 1st. A very large percentage of the deal, however, was speculative, the demand for actual consuming purposes proving exceedingly small, and the rush to get supplies forward in anticipation of the duty leading to a large accumulation of stock. It is estimated that the supply now here approximates 10,000 tons without taking into account the quantity in second hands. Valuations remain very largely nominal at the moment. We quote at about 19@19.15c. for round lots, and 19½@19⅝c. for jobbing parcels. Tin plates have found only a sort of jobbing attention, with the position largely nominal, though full invoices could only be moved at a concession. We quote as follows: I. C. Charcoal, ½ cross assortment Melyn grade, $6.45@6.50, each additional X add $1.50; I. C. Charcoal, ½ cross assortment, Allaway grade, $5.62½@5.65, each additional X add $1; Charcoal terne, M. F. grade, 14x20, $7.25@7.30; M. F. grade, 20x28, $14.50@14.55; Worcester, 14x20, $5.70@5.75; Worcester, 20x28, $11.25@11.30; Dean grade, 14x20, $5.35@5.37½; Dean grade, 20x28, $10.50@10.70; D. R. D. grade, 14x20, $5.15@5.20; D. R. D. grade, 20x28, $10.30@10.35; I. C. Coke, Penlan grade, nominal; J. B. grade, 14x20, 5.40@5.45; I. C. Bessemer steel, squares, $5.60@—— basis; I. C. Siemens steel, squares, $5.70@—— basis. Spelter has found only a spiritless sort of demand, with moderate fluctuation on value, but no indication of immediate positive change. We quote 4.15@4¼c. for Common Western, according to brand.



NAILS.—Buyers are not plenty, and those who do appear upon the market seem to be satisfied with a small quantity and an average assortment of stock. They find what they want without difficulty and upon about as easy terms as for some time past, if not even a lower basis, although there is an indisposition to admit any shading of value. We quote Cut at $1.05@1.25 per keg for car lots and $1.35@1.45 per keg for parcels from store for iron, and add 3c. per keg for steel; Wire, $1.50@1.55 at mills, and $1.80@1.85 from store.

PAINTS, OILS, ETC.—A certain amount of business must, in the natural order of things, be transacted from week to week, but of late the movement seems to have been curtailed to even smaller proportions than usual, and in a great many divisions of the market matters were exceedingly dull. According to expressed views of some of the ordinarily well-posted operators, there is not much chance for improvement right away, as it is expected that all classes of buyers will keep down the run of orders until well along in the fall, when the necessity for getting assortments against winter wants is likely to be felt. The general production at the moment is moderate, and, taking the cue from the action of buyers, manufacturers turn out no more goods than the immediate requirements of the moment would seem to suggest. When it comes to prices, there is a great deal of uncertainty. Generally the former figures are named, but there is chance that buyers get some quiet favors even on the standard makes of white lead. Corroders' rates stand as follows: Lead in oil in kegs and dry lead in kegs in lots of less than 500 lbs., 7¼c. net; in lots of 500 lbs. to 5 tons at one purchase, 6¾c.; 5 tons to 12 tons, one purchase, 6⅝c.; 12 tons and over, one purchase, 6½c.; kegs. Lead in oil in 12½ lb. tin pails, add 1c.; in 25 and 50 lb. tin pails, add ½c.; and in 1 to 5 lb. tin cans, assorted (100 lbs. in case) add 2½c. per lb. to keg price. Terms on lots on 500 lbs. and over, note or acceptance at sixty days, or 2½ per cent. discount will be allowed for cash paid within fifteen days of invoice date. To make either of the above required quantities any assortment of packages of white lead, red lead and litharge may be counted. The above quotations are free on board cars or boat at corroding point. Linseed Oil does not show any important change, the orders running about to the average for the season, and former rates ruling on all grades. We quote on general range at 48@49c. for Western, 50@51c. for City from domestic seed, and 62@63c. for do. from Calcutta seed. Spirits Turpentine continues moderately active, and without change of decided character. Small and apparently well controlled supplies act as a good support to values, though it would be difficult to place large lots except at concession. We quote at 29@30c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—Offerings have, as a rule, continued moderate enough to keep only about sufficient available for the current outlet, and that made a pretty good support for prices. Sellers, however, have been willing to accept all full bids and keep stock moving. We quote Tar at $1.90@1.95 in pine or Wilmington bbls., $2.00@2.05 in pork bbls. and $3.70@3.75 in oil bbls., Pitch $1.50@1.70.

of the Metropolis, with many novel maps,

Everyone interested in Real Estate should possess a copy of the COLUMBUS HISTORICAL GUIDE OF NEW YORK CITY. It forms a handy, compact book of nearly one hundred pages, with a number of novel copyright maps, with rapid handy indexes showing the location of every street, the direction in which it runs, where it begins and where it ends, with a scale to show the time necessary for covering any distance by horse-car, elevated road, or ferry. The streets and avenues of the annexed district are similarly treated. In addition, the book contains a short chronological history of the city, statistics, general information, the location of all piers, all elevated stations and the street numbers nearest to them, as well as the routes of all horse-car lines, their branches and connections, the distance they travel, and the time they occupy. A list of all post-offices, district messenger and telegraph offices, hotels, steamship lines, railroad depots, ferries, markets, theatres, express offices, dispensaries, hospitals, churches, libraries and clubs are given, with a great deal of other information. Indeed, there is scarcely a question that can be asked concerning the topography and buildings of the city that this book does not answer at a glance.

THE week has brought no real improvement in the financial situation, although at its close prices on the stock market appear to be strong and money is somewhat easier. As a matter of fact the rally is not commensurate with the decline if comparisons are made with prices of last week, and the easier rates for money are explained by the heavy liquidation that has been seen for some days as well as by the movement of currency toward this centre. It is very noticeable that investment issues do not share in the reaction, and in fact the rapid rise in quotations of yesterday was confined almost entirely to a small list of very active and speculative stocks that had suffered much by liquidation, and as a consequence had been closely followed by professional short selling, the covering for which made most of the rise. In the stock market, business has practically to be done on a cash basis, and that is a condition that precludes the possibility of a radical change and makes certain a renewed decline whenever long selling comes again in more than ordinary proportions.

THERE has been a great deal of speculation as to the intentions underlying the closing of the India mint to free coinage of silver. Even now some people and newspapers are at a loss to account fully for this action of the Indian government, and which they suppose has only a limited sanction from the Home government in London. All this conjecture and misconception would have been quite unnecessary had the London correspondents of our newspapers forwarded the facts by cable, as they now appear in the English journals received by mail. From these it appears that the Viceroy of India telegraphed to the Secretary of State asking approval of the proposal to suspend the free coinage of silver at the Indian mints June 15th, and received reply June 30th: "Her Majesty's government have decided to approve the proposals of your government to close the mints to free coinage, and to make arrangements for the adoption of a gold standard subject to the modifications recommended by Lord Herschell's Committee, which your government have accepted. You are therefore empowered forthwith to take the necessary steps." This is conclusive evidence of the intentions of the English and Indian governments, and the initiatory step has been taken to put India on a gold basis. This is, too, a complete answer to those who have been claiming ever since the news of the closing of the Indian mint to free coinage was received here that this act made possible a new and successful Brussels Convention. If the hope of a new international silver convention was based on any expectation of the English government being brought to consider the larger monetary use of silver as a result of the commercial condition of India the terms in which the Home government approves the proposal of the Indian Council should at once dissipate it. The tendency of the discussion of the means to remedy the evils attending the decline in the value of the rupee has always been toward removing the inequalities in the currencies of the two countries. Two years ago Sir David Barbour suggested that the only remedy for the troubles then existing was the adoption of a gold basis for India, but he failed to show how such a basis could be attained. It seems, however, that the deliberations of the Herschell Committee have been directed to this suggestion, resulting in the recommendation for closing the mints to free coinage as part of the means of attaining the end had in view by Sir David, and on which, as their correspondence shows, the Indian and the Home governments are now united. This policy has been adopted after long and protracted discussion, and while it is being enforced with extreme caution and there are many obstacles to its success, it is in every sense probable that silver will in due time be restricted to subsidiary uses in the currency of India as it is now in that of England.

THE lunatics are never at rest. Mr. Swan, the operator holding the string of the 72d street North River bridge kite, has caused to be published in the *Herald*, a paper which is demonstrating that lunacy may be either contagious or profitable, a telegraphic dispatch, dated from Washington, in which favorable action by Congress on the proposed bridge franchise is confidently predicted. But why date the dispatch from Washington? It could just as well have been prepared in New York; and many shrewd people, considering the matter of economy, will believe that it was prepared in New York. Congress is not in session. The members are scattered all over the country; and much more can be learned of the probable fate of all bridge schemes in New York, where the capital for their construction must be raised, than can possibly be learned in Washington when the city is given over to department clerks and the various sorts of colored and colorless people who help to make Washington the dullest place on earth in the summer time. We think it very probable, however, that Congress will give its consent to the bridge. More than two years ago it not only gave its consent for a North River bridge but actually chartered a company for its construction, gave it authority, that is to say, to enter the city and State of New York and condemn lands which it could not itself obtain without the consent of the Legislature! But we have not yet seen the bridge floating in air. We have not even seen it searching for the foundation for its piers. It may be an easy matter to gain consent for the construction of a bridge from a body of legislators composed chiefly of men brought together from what might be termed the representative antipodes; but it will be likely to prove very difficult to obtain the capital for its construction among a people already run over and mangled almost beyond personal recognition by their juggernaut of trucks, and who see in a North River bridge scheme only a conspiracy to make Manhattan Island uninhabitable for all except truckmen and coal heavers. We are not greatly excited over the imminency of North River bridges, though it will be well enough to keep them in mind.

IT is never pleasant to hear of a wholesale discharge of workmen for any cause, and when we are told that 12,000 iron miners have been laid off in northern Michigan the total seems quite startling. The number would be equal to the working population of a large city. The material interests of many considerable villages must be affected by this blow at the chief industry of that great peninsula; but when we come to learn the cause of the industrial upheaval we are compelled to confess that the seemingly black cloud has a silver lining. The men were discharged not because the times are panicky and the iron market dull, though this is said to have had its influence in precipitating the event, but because, just back of Duluth, on the other side of Lake Superior, a new iron range has been opened where the iron is so abundant and easily mined that it can be loaded into a car, all expenses included, at a cost of only fifty cents per ton or even less. This is little more than one-eighth the present price of Bessemer iron of the quality produced in the new mines; and as the quantity is said to be enormous it seems to signify a prodigious upheaval in the iron industry for other latitudes as well as northern Michigan. The operatives simply clear away the surface of the earth from the Mesaba mines, as the new mineral deposits are called, and a steam shovel does the rest. But the mine owners and people of northern Michigan, though they may have occasion and good cause to feel temporarily blue, have no reason to be permanently discouraged. Their mines will never be opened again, is the melancholy prophecy of the croakers. But we would be willing to bet and bet high that the mines will not only be opened again, but that they will prove profitable. The men who have invested in the Mesaba mines, if all the claims put forth in their behalf are well-founded, have simply discovered the greatest bonanza ever known. The world has only reached the threshold of the iron age. Iron has not only invaded the builders preserves in a form that must make its conquests continually expanding and permanent, but we are only at the beginning of railway building and not near its end, as some men stupidly imagine. The child is born who will see an electric railway on every highway. The improved road craze, fostered by bicycle manufacturers, will not last forever, and the farmer will soon discover that he, too, is a capitalist after all. Then he will cease to be a follower of political hayseeds, and set himself at work in improving his transportation facilities. It would be fortunate, in the good time coming, if iron had been discovered in sufficient quantities to cause a permanent reduction in price; but we look for no such happy event. The iron miners of northern Michigan are simply suffering from two kinds of a panic, one,

purely the product of the imagination and the other only a temporary cause for disturbance.

The Cause of the Depression.

THE present financial crisis is the most inexplicable in our history. The cause or causes of it are not readily discernible. That we do not know exactly what it is that has struck us is shown by the confusion of theories and notions current at present. Most people, it is true, have fastened their eyes upon the Sherman law as the efficient cause of our tribulation; but no one, we believe, feels quite certain in pronouncing our silver policy as solely responsible for all that has happened. There is one fact at any rate which ought to make people cautious in fixing the Sherman law as the centre of our difficulties. It is this: all predictions which have hitherto been made upon the theory that silver is to blame have not been verified. For instance, we were confidentially assured that nothing more was needed to restore confidence and bring back better times than the repeal of the Sherman law, and it was asservated further that as a call for the convening of Congress would be considered by the country as an assurance of coming action the financial situation would at least brighten. Now, President Cleveland *has* called for an extra session of Congress, and a repeal of the Sherman act is almost as certain as the meeting of Congress itself. Yet, none of these pleasant prophecies has come to pass. The financial stringency continues in extremer force than ever, and though failures are not more numerous than they were, certainly they are as numerous as ever. To come to the point, it is our opinion that the effect of the Sherman act in producing the present crisis has been greatly overestimated, and that to some other cause or causes our difficulties are really attributable.

We don't mean to be understood to say that our silver policy has not been a source of weakness. It has been a source of weakness, but it has been nothing more than that. Our reason for thinking so is that in England and in France and in Germany, where the pernicious influence of the Silverites has not penetrated, the commercial world is in no better condition than we are. The trouble has been that we have not had our eyes open. Long ago we might have seen what was coming. We have not been fully cognizant of what has been going on abroad for the last few years. The beginning of bad times dates even before the Baring trouble. That disaster was merely the first emphatic announcement that the era of speculation which had been in progress for some time was about to be closed. Millions and millions of capital had been foolishly invested, not only in Argentina, in Panama, in Australia (as has been disclosed to us lately), but in a multitude of other less conspicuous directions. The reckless spirit that produced the Panama Canal scandal had been at work, not in that one colossal example only, but in thousands of smaller enterprises of similar character. The public can see only the bigger transactions, but we may be certain that the Copper syndicate, the over-capitalization of English breweries, and other industrial concerns indicate generally what has been going on in pretty nearly all lines of business. This country to a certain extent shared in this speculative movement, as the history of our "industrials" shows, but we carried affairs to nothing like the extreme they did in Europe.

Since prior to the Baring failure, but particularly since that event, England especially and the commercial world in general have been experiencing a period of contraction and liquidation. Dull times have prevailed everywhere in nearly all lines of business. Mills and factories have been closing down and the several great lockouts which we have heard of from time to time (for instance, the recent one in the Lancashire cotton trade) were no doubt due as much to the dullness of trade as to anything else. But bad times abroad have not been confined only to the large industries. Tradespeople generally have suffered, and the complaints of poor business have been unceasing in London for years past.

Now, if this country had had its eyes open, we would have foreseen that the disasters which had visited South America and Europe, and later still Australia, must sooner or later reach us. It is impossible for this country to enjoy brisk prosperity in the face of universal depression and, in our judgment, our present troubles are mainly due, not to our silver laws, but to conditions that are almost as widespread as commerce itself. We know that expansion and contraction follow one another with more or less regularity. It is not easy to account for the oscillation; but its existence is not to be denied. The present is a time of contraction, and the repeal of the Sherman law, however much it may improve the situation, will not of itself bring back prosperity. For that, we must wait for the movement of greater causes. Trade conditions throughout the world must improve first. Re-adjustment and liquidation, now in progress, must terminate. Economy must produce accumulation until investment and speculation on a large scale is possible again.

How long we may have to wait for the revival it is impossible to say. If we wisely get our monetary system into good shape, put it again upon a sound basis, there is little doubt that the United States will be the very first to receive the benefits of restored confidence and better times. We must not forget that our present troubles are fortunately not due, as was the case in 1873, to over-speculation. Our affairs to-day are really in exceptionally good condition. We have not been over-producing. Prices are comparatively low, and of really unproductive enterprises we have few. Had it not been for this we should have suffered very much more severely than we have.

One thing that will speak well for us with foreign investors when better times come for them is the lesson they have learned of late as to the stability and value of American securities. Ours have been the only securities upon which the foreigner has been able to realize readily and without great loss. Much of the gold drawn abroad of late left us on this very account. Not fright but necessity compelled the foreign holder to sell, and that he was able to sell speaks well for us and no doubt will recommend American securities in the future. Had it not been for the Sherman law the foreigner might have found it more difficult to realize than he did. But for the injection of so much silver (or its equivalent in paper) into our currency month after month we should have felt the withdrawal of gold sooner than we did. Our eyes would have been opened to the situation sooner and the present stringency would have set in earlier. Realization then would not have been so easy. In this way the Sherman law has benefited the foreigner at our expense. Of course it has also intensified the depression. It has created fear and uncertainty, locked up capital at home and been the direct cause of the withdrawal of capital from our enterprises by investors abroad. Until certainty and confidence in this direction be restored better times are not to be looked for. But, as we said in the beginning, it is foolish to say, as all the newspapers are saying, that unwise financial legislation is wholly, or even chiefly, responsible for the present depression, or that all that has to be done to bring about a prompt return of activity is to repeal the Sherman act. Repeal the measure by all means, because undoubtedly it stands in the way of better times.

THE recent action of the Trunk lines makes it certain that people will be able to visit the World's Fair at a very much smaller cost, relatively, than they could our last Centennial. This is a curious reversal of early anticipations (which undoubtedly did the Fair a great deal of injury) that Chicago had made preparations to outvie in exhortation the fashionable summer hotel and all other instrumentalities for robbing in a genteel way. Chicago tradesmen and others undoubtedly intended to make a good thing out of the Fair, and it will probably not be their fault if the world is able to see, with small outlay, what is certainly the greatest exposition of the age. The vastness of the Chicagoans anticipations led to the defeat of their intention. The world was coming in such multitudes to the Western capital that everybody there thought they saw golden opportunities ahead for them. Accommodations of all kinds were provided on too great a scale. So far, visitors to the Fair have been comparatively so few that the Chicagoan now finds that extreme measures must be taken to save himself from utter financial ruin. Prices consequently have been put down to the ordinary level and even below it, and now that the Trunk lines have lowered their rates, the Fair may be visited for what, considering the value received, is almost a nominal cost. Under these circumstances, it would not be surprising to see an enormous tide of travel set in to Chicago. All accounts agree that artistically and otherwise the Fair is an undoubted success, but, so far, in the East it has been decidedly undervalued.

Look to Your Tax Receipts.

GRAVE DISCREPANCIES ARE SAID TO EXIST BETWEEN THE DESCRIPTIONS OF PROPERTIES AS CONVEYED AND AS THEY APPEAR IN THE TAX BOOKS—A MATTER CALLING FOR THE INDIVIDUAL VIGILANCE OF EVERY OWNER.

An occasional visitor at the real estate auction rooms during the last season, especially when large sales of down-town property were on the bills, was Deputy Tax Commissioner Henry G. Autenrieth. After a service of over eleven years in the Department of Taxes, during which he was assigned to duty in the 12th Ward, Mr. Autenreith was last fall transferred to the tax assessment district in which the lower six wards are embraced.

To a RECORD AND GUIDE reporter, whose curiosity was excited by meeting Mr. Autenrieth in such a place, he explained that he was there for the purpose of gathering the sort of information that was essential to the proper performance of his official duties. It was not only the knock-down price that he considered in coming to a determination regarding the value of property for purposes of taxation, but also the character and manner of the bidding and the buyers, and the floating observations and comparisons made by others at the sale.

One of the results of the canvass he was making at the time, he said, would probably be that the valuations in some districts would be increased, and this has since happened. The increased assessments for purposes of taxation are much greater in the lower six wards than they have previously been for many years.

But Mr. Autenrieth especially wished THE RECORD AND GUIDE to call the attention of owners of property, not only in his bailiwick but in all parts of the city, to a class of errors which fell frequently under his

observation, and which were surcharged with danger to real estate titles. They consisted of discrepancies between the descriptions of parcels and lots as conveyed and as they appeared on the city maps for purposes of taxation. In one instance he noted a difference between the property as it appeared on an auctioneer's diagram map and as it appeared on the city tax map, and when he attended the sale, to see if the property was actually sold as it was advertised, he found that it was so sold and the owner had for years been paying taxes on a larger piece of property than he actually owned—in other words had been paying part of his neighbor's taxes.

"During my eleven years' experience in assessing the 12th Ward," said Mr. Autenrieth, "errors of that sort were frequently detected. Nearly every day persons came in to have the books corrected. You see, when once the tax books are made up they continue the descriptions of property and names of owners from year to year without alteration, unless the attention of the tax officers is specially directed to the need of a change for purposes of accuracy. When the average man buys a piece of property he is careful enough to see that the taxes are paid up to the time of purchase, but he takes no pains to see how the property is entered for assessment for tax purposes. When he calls for his tax bill he gives the general description, say No. 432 Chambers street. Well, he gets a bill for the taxes on the lot answering to that number, a lot say 27.9x100.11x27.10x100.9, and he pays the bill, whereas the property he bought and owns may measure only 27.4x100.11x27.5x100.9, making a strip 4 inches wide and 100.9 long of his neighbor's land, on which he has needlessly paid the tax.

"Of course, the matter is not no serious a one in that aspect, but suppose you reverse the case; suppose you have purchased 27.6x100 and your tax bill is for the taxes on a lot 26.9x100. Your neighbor may be paying the tax for you on the strip 9x100, but suppose that he lets the taxes on his property run behind and it is sold for taxes along with your 9-inch strip. Cases of that kind have happened. Discrepancies of the kind I have mentioned are far more numerous than is generally surmised. I have found at least twenty-five of them in the short time I have been in this district. When the Continental Life Insurance Co. bought its new building site on Cedar street it found one of them and had it attended to. Out of the last hundred sales made in this salesroom it is safe to say that there are at least twenty-five properties which do not conform to the tax map. Owners ought to critically compare the descriptions in their deeds with the descriptions in the tax map and have all these errors rectified."

Investments.—Good and Bad.

One of the unfortunate peculiarities of the present financial trouble is that no demand has sprung up for good investment securities, notwithstanding the great drop there has been in prices, in many cases extending beyond the figures to which they were forced as a result of the Baring failure in 1890. Usually at this time of the year there is an inquiry for good investments and prices respond by advancing, in anticipation of the reinvestment of the large amounts that are paid out for interest July 1. Owing to the depression that exists everywhere this year, there is more desire to liquidate old investments than to make new ones. This brings about a condition of things by which the few who are able to buy bonds and have the courage to do so may put out their money to good advantage. It is not surprising when there is demand for money to carry out the ordinary routine of business that speculative bond issues should be discredited and show heavy declines in their quotations, but it is another thing when really good ones are below panic prices and shows how very severe have been the times through which we have passed, and ought to indicate some turn for the better, although, as has been said already, there is no such sign, the bond market being extraordinarily dull and sales only made at a sacrifice. Below are some of the bonds that are selling below or near the panic prices of 1890, selected from a long list which was one record, if not quite so severe as the selection here given, of loss of value to the very best of securities:

The prices mentioned above as current may have to be taken in individual cases as all that a holder has been able to obtain rather than as the figure at which a buyer can now purchase, but taken generally they are a correct indication of the kind and rate of investments in the good classes that the market now affords. In some cases, too, the prices of bonds have been lowered through the loss of credit of the Company responsible for them or through some peculiar condition attached to the property on which they are based, but taken in the main they are a direct and natural result of the time. The exceptions would include the Atchison 4s, which have sold down lately as a result of the Atchison Company's need for funds to meet the floating debts growing up on owned roads, the St. Louis & San Francisco and Colorado Midland, with which it will doubtless show itself to be perfectly able to cope. Erie's struggle against the want of ready cash may also have something to do with its first extended 7s selling on a basis of 5¼ per cent as well as the fact that the bonds mature in three or four years, and the New York & New England 7s also doubtless feel the many tribulations to which the property lien and its business has been subjected in the past year. Taking other bonds to which no such objections can be raised it will be seen that the financial necessities of holders have compelled many sacrifices. Among such will be found a Chicago & Alton bond selling 2 per cent below the worst price obtained in the Baring panic, 3 per cent below the highest of 1891 and 5 per cent below the maximum price of last year; a St. Paul and a Northwest, a New York Central, a Fort Wayne and other bonds of great properties now selling at the lowest and to produce a larger return for the period embraced by the table. There are none quoted at the highest for the same time and very few higher than for the fall of 1890, when the panic occurred. At the same time there is not in this list a bond that could be called a bad one; some may be and are better than others, but none are bad. The Louisville, New Albany and Chicago first 6s and the Colorado Midland first 6s have about them some features that exclude them from the best classes of investment bonds, and yet, when the whole case against them is examined, it would be difficult to say that even in a reorganization they would be worthless than one hundred cents on the dollar. Two of the three Vanderbilt bonds mentioned have been quite weak lately, the Michigan Central 1st consol 7s having dropped 2¾ per cent, and New York Central 1st consol 7s 1¾ in about a week. In looking for causes for the low prices, we are always brought back to the condition of the times and the disturbance of investments as a result of the commercial troubles that have been experienced, both at home and abroad. It is not a matter directly of currency payments either, because it will be found that the decline in gold bonds has been as great as that in currency issues of the better class. Had there been a desire for gold bonds of companies which were strong enough to be trusted, even in the contingency of a premium on gold, it could have been gratified, but the necessity to liquidate for the protection of bread and butter business has been so great that gold investments have suffered in common with currency ones.

Real Estate Valuations for 1893.

AN INCREASE OF $57,677,790 IN THE TAXABLE VALUES OF NEW YORK CITY REAL ESTATE OVER 1892.—AN UNPARALLELED INCREASE OF $47,576,464 IN PERSONAL PROPERTY ASSESSMENTS.

On Monday week the Commissioners of Taxes and Assessments made their annual report to the Board of Aldermen, as required by law, of the assessed valuations of real and personal property in New York City, for purposes of general taxation. The total assessment amount to $1,933,518,528.90, against $1,828,264,275 for 1892, an increase of $105,254,253.90. It is made up as follows:

Real estate	$1,562,582,393
Resident personal	257,983,766
Non-resident personal	24,472,646
Shareholders of banks	88,479,724

Of this increase of $105,254,253.90, real estate bears $57,677,790, which is about the normal increase, while personal property bears $47,576,463.90 This figure is the substantial result achieved through a general effort to "reach" and properly assess the personal estates of the many and well-known estates and individuals whose wealth is chiefly represented by that class of property—a sample instance being that of the Jay Gould estate, which in his lifetime was assessed at $500,000 and now is assessed at $10,000,000.

The valuations of real estate by wards, compared with the valuation for 1892, are given in the following table:

Wards.	Assessed Valuation, 1893. Real Estate.	Assessed Valuation, 1892. Real Estate.	Increase. Real Estate.
First	$91,205,235	$89,661,612	$1,543,623

Twenty-third	57,595,506	34,523,331	3,072,175
Twenty-fourth	21,016,762	19,365,786	1,650,976
Total real estate	$1,562,582,393	$1,504,904,603	$57,677,790

The assessment rolls were referred to the Finance Committee and the Board adjourned until Aug. 22, when it will reassemble and hear the report of the committee and fix the tax rate. It was said by a prominent city official, a few weeks ago, that the administration was going to find it difficult to avoid as low a tax rate as $1.75 per $100 valuation. Why the administration desired to avoid so low a tax rate not seeming apparent to the simple-minded inquirer, the explanation was offered, that it would be bad politics to reduce the rate so much in an "off" year, when there was no municipal battle to wage at the polls. The big reduction should come in another year. Evidently the administration has succeeded in avoiding the low rate; $1.83 is given out now as the probable figure.

Who Wants to Learn a Trade?

Free opportunity is afforded to young men to learn any of the following trades: Bricklaying, carpentry, plumbing, plastering, house-painting, fresco-painting, stone cutting, blacksmithing or printing, by the General Society of Mechanics and Tradesmen. The society maintains a number of scholarships for the purpose in the New York Trades Schools. The session

for 1893-94 begins in October next. Applications, which are chiefly desired from boys of limited income, may be filed now, but must be filed before September 1st with the Trades School Committee, No. 18 East 16th street. The committee is composed of the following persons: Stephen M. Wright, John H. McCullagh, Erskine Van Houton, William D. Lent, Thomas J. Byrne, Guy Culgin, *ex-officio*.

The Movement on Riverside Drive.

MORE SALES OF REAL ESTATE ON THIS MAGNIFICENT AVENUE IN THE LAST SIX MONTHS THAN IN ANY SIMILAR PERIOD FOR YEARS PAST—THE LOW PRICES PREVAILING FOR VACANT PROPERTY—OPPORTUNITIES FOR THE ERECTION OF SUPERB MANSIONS SLIPPING BY AND BUILDERS STEPPING IN WHERE RICH MEN SHOULD LOCATE.

Riverside Drive, the most attractive avenue for residence sites in New York City, is at last beginning to receive a little of the attention which it deserves. A search of the records for the past six months, as compared with the six months previous, shows that the transactions in real estate on that avenue were several times as numerous in the former period as they were in the latter. In other words, there were five deeds recorded in Volume L. of THE RECORD AND GUIDE, while there were twenty-three recorded in Volume LI., which takes in the first six months of this year. The total sum of the latter amounted to $735,983. An analysis of the transfers shows that of this sum $324,100 was of properties sold at auction, including one partition and one foreclosure sale. There was also a transfer recorded of $50,000, dating back to 1886. This cannot be included in the transactions of the six months here dealt with, and is only given in the table to show the list of transfers recorded during that period. Subtracting the two latter sums, amounting to $374,100, it leaves $361,883 as the amount of the transfers at private sale. But a further analysis shows that from this figure $89,383 may reasonably be deducted on account of conveyances that were clearly of a formal character. We have thus a net sum of $272,500, as representing the private sales during the six months. In all these calculations, however, we have excluded the conveyances at nominal considerations. Of these there were six, but only four of them may be said to be actual sales, and they represent an amount which may be estimated at about $275,000. This would give us a sum of $547,500 as the total amount of bona fide transactions at private sale during the six months.

In addition to the sale of $324,100 worth of property at auction of which the conveyances were recorded, there were several parcels sold at the Callaghan & Smith auction sales that were not recorded up to our issue of July 1st. They amount to $192,750 We thus have a total amount of transactions at auction, recorded and unrecorded, of $516,850, and of transfers at private sale of $547,500, an aggregate of $1,064,350.

In the last six months of 1892 there were no plans filed for new buildings on the Drive. In the first six months of this year we find filings for five residences at an estimated cost of $215,000.

The tables of records and buildings projected are given below:

*Auction Sales.

The most extraordinary fact in relation to the sales shown in the first table is the low price at which some of the lots sold. Take for instance the three lots purchased by Mr. Bracher for $16,000, an average of $5,333 each. Of course, these lots were bought at an auction sale and there are circumstances about the property that affected their value somewhat. But notwithstanding all this it is extraordinary that in the neighborhood of the Grant Monument, a structure to cost $250,000, and in a section which is destined to be a very attractive part of the Drive, lots should go for such a low figure. The same holds good with vacant land sold in the seventies and eighties, where lots sold for in the neighborhood of about $15,000. In other words, lots on Riverside Drive to-day are selling at about the same prices as those on West End avenue and at less than the price of lots on Madison avenue, the same distance north of the City Hall.

It has often been said that, in any other city in the world, Riverside Drive would be covered with magnificent residences. New Yorkers have a tendency to segregate and this is why the high-class residence movement has been along upper 5th avenue instead of Riverside.

It has been said that the neglect of Riverside by the wealthiest of our citizens has been due in the past to the absence of rapid transit. That is a faulty impression. If Elbridge T. Gerry and John Jacob Astor had erected their new homes on Riverside instead of on upper 5th avenue there is little doubt that others would have followed. Indeed, the Cuttings purchased a large plot at Riverside some years ago in anticipation of a possible movement of the "swell" residence centre up that way. So did one of the Astors and Goelets.

In the future, however, now that it is settled that the wealthiest of our citizens have chosen 5th avenue as their home centre, Riverside will be given over to the speculative builder, with an occasional residence built by some rich purchaser. Still, there are some very handsome places on the Drive, such as the Clark, Matthews, Bayne, Foster and other places. And such houses as the speculative builder will erect will be of a character that is not likely to prove detrimental to the Drive. Builders should, however, bear in mind that there are still buyers of 25-foot houses in the market, and that the class of people who wish to reside on Riverside will not be particularly attracted by a 20-foot house. The little speculative building already done on the Drive has borne out this statement. There are probably only one or two builders in New York who would risk building four 40-foot double houses on a block front on the Drive. This would allow a space of 40 vacant feet between the houses, an average of 10 feet to each house. And there is no doubt that there are many rich men in New York to-day who would be glad to pay a good figure for such houses. At to-day's prices in certain parts of Riverside Drive such 40-foot houses, say three stories high, with 10 feet of extra ground, could be profitably sold for about $90,000 each. A four-story house, 26.5x84, on a lot, 26.5x100, as far north as between 104th and 105th streets, sold for about $70,000 a few months ago.

The point noted, however, in this article, is that a movement has at last begun on Riverside Drive and those who wish to profit by it should take the hint.

Contractors' Notes.

The Board of Aldermen has adjourned until August 22d.

Commissioner Louis F. Haffen, of Street Improvements, will receive bids at his office, No. 2622 3d avenue, until 3 P. M., Tuesday, July 18th, for regulating, grading, curbing, flagging and laying crosswalks in Freeman street, from Union avenue to Southern Boulevard; for regulating, grading, curbing, flagging and laying crosswalks in Grove street, from 3d to Brook avenue; and for constructing a sewer and appurtenances in Vanderbilt avenue East, from the line of the 23d and 24th Wards to Wendover avenue.

The Board of Street Opening and Improvement has officially closed and discontinued Hall place, between 6th and 7th streets. It is to be included in the Sixty-ninth Regiment Armory site.

Correspondence.

To the Editor of THE RECORD AND GUIDE:

SIR—The communication from "Subscriber," published in to day's issue of THE RECORD AND GUIDE, under the heading of "Not Entitled to Compensation," is worthy of a further consideration than an answer based on the accuracy of its statements, for the reason that it is to be doubted if the majority of your readers can believe the statement to be as full and clear as it might be.

It is incredible that a client would be satisfied with any three houses which his architect might plan at a given price. Therefore it follows that there must have been other conditions and instructions relating to size, style, finish, etc., as well as the cost limit, and it would seem that the importance of these must have been impressed upon the architect with as much force as the limit of cost.

It is also well understood that in this style of house an architect's duties compel him to simply place on paper, in technical manner, the particular ideas of his client.

"Subscriber," however, prudently avoids any reference to these points, and in asking whether his architect is entitled to commissions, etc., he, seemingly, avoids a candid statement which would mitigate the glaring wickedness complained of, viz.: the architect's claim for commission, and throws a halo of justice and equity about himself by the statement immediately following.

Now, to be fair to the architect, let us consider whether in striving to give a client as good a house as possible at a price the architect is to be thrown down because his judgment, exercised in behalf of his client and coincident with the client's best interests, is at fault because the estimate ran $2,000 or over beyond the limit.

In a recent instance a contractor was both the highest and lowest bidder on two adjoining jobs which he desired to secure. In view of this not unusual occurrence why, it may be asked, should an architect be hide-bound by a rule of practice jeopardizing his commission for services faithfully performed? No architect can tell when the estimating builders are likely to bid high or low, or when they will all bid high or low, and although "Subscriber's" houses came at too high a figure for him to build them, yet it would appear that a spirit of fairness and equity would lead to such a modification of the plans as would come within the limit of cost rather than to a discrediting of the original architect and a refusal of payment for services rendered.

Because of the lack of fullness in the statement of "Subscriber" and because of the far-reaching consequences of the answer made by THE RECORD AND GUIDE, if allowed to go without protest, this communication, made in the interest of architects, should not be without point, and it is to be hoped that the question raised will not be allowed to pass without further comment.

Will you kindly give this space, and oblige an ARCHITECT.

Special Notices.

IMPORTANT BUILDING CONTRACT.

Hugh Getty, the well-known builder, has secured the contract for erecting the seven-story and basement brick and stone warehouses which City Chamberlain O'Donohue will build at the northwest corner of Staple and Harrison streets at a cost of $120,000. Mr. Getty also has the contract for building a store adjoining on Harrison street, No. 11, for M. Clarkson, to cost $25,000, and contracts for a large factory on 11th avenue for I. T. Williams; an extension for Mr. Williams' son, and extensive alterations to 816 5th avenue for B. Stern. Mr. Getty takes contracts for the erection and entire completion of buildings of every description, besides doing mason work of every kind and repairs and alterations. His factory at Nos. 274–280 9th avenue is splendidly equipped, and embraces a plant for turning out architectural and general wood work.

THE SEXTON CUT-OFF TRAP.

The favor with which this trap has been received by plumbers and the great success attained, as witnessed by constantly increasing sales, speaks volumes for the good qualities, which experts say it possesses. Intended to take the place of the ordinary house-drain trap, it is especially designed to enable plumbers to apply a pressure test to house drains without leaving any part of the same unconnected for that purpose. It has been used in the King Model Houses, Macy's new store, Gov. Flower's house and in innumerable other buildings of the best kind. Readers of THE RECORD AND GUIDE who have not used the trap should send to the manufacturer, Michael Sexton, the well-known plumber, at 1112 3d avenue, for a catalogue descriptive of the Sexton Cut-off Trap, which possesses many advantages, and is for sale by all dealers in plumbers' supplies.

CARE AND MANAGEMENT OF PROPERTY SOLICITED.

Robert J. Woods is one of the most careful and painstaking of the younger men engaged in the real estate business on the East Side of town. He makes a specialty of managing property and collecting rents, and we take pleasure in calling attention to his card on page viii., and advising interested persons to call and see Mr. Woods at 971 3d avenue, corner of 58th street.

ESTABLISHED 1867.

The firm of Raubitschek & Co., composed of M. H. Raubitschek and Joseph Toch, are easily among the leaders of the up-town brokers. Steady effort, intelligently applied, has led to their completing numerous sales. They still have very many desirable properties for sale and exchange, including some of the best paying apartment houses on the West Side below 59th street. Messrs. Raubitschek & Co.'s office is centrally located at No. 957 3d avenue, near 57th street.

HIGH-CLASS PLUMBERS' WOODWORK.

A prime essential to first-class construction of dwellings, hotels, office and business buildings, in these days, is substantial, neat-appearing woodwork in the bath and toilet-rooms and laundries. Superiority in the details of this class of work often determines a purchaser in favor of the building. C. H. Pettit, of No. 262 West 35th street, makes a specialty of this kind of work and is excelled in it by nobody. His patrons are among the foremost builders and owners of real estate in the city. Among the many important contracts which he has executed, some of the more recent are those for the New Netherlands and Waldorf hotels, and in dwellings for Montgomery & Patterson, at 18th street and 8th avenue, closet seats, tub rims, tanks, etc; in forty-two houses for John G. Prague, architect, and J. B. Smith & Son, plumbers; and in houses for C. Fraser & Co., Chas. Graham & Son and R. B. Douglas & Co.

Real Estate Department.

Notwithstanding that but little in the way of real estate sales is expected at this time of the year, the record of consummated transactions this week is a comparatively large one and includes some significant items. The sale of the carriage factory in West 43d street, at over $125,000, and its leasing immediately thereafter for twenty-one years to a carriage manufacturing firm, means the revival of an important industry at that point, which will give employment to hundreds of operatives. The signs of activity in residence property are what the real estate world has been led to expect at this season of the year, and from the reports of brokers in the up-town sections, on both the West and East Sides, and in Harlem, this activity will be expected to increase very substantially in the near future. One broker alone reported eight new inquiries on Thursday for houses to buy. Besides the business consummated, brokers report a number of large transactions where agreements have been reached, and the trades are hanging fire only over details which require the presence in town of parties to them, in order to bring them to a conclusion. With regard to the fall market, brokers without exception express the most hopeful and confident feeling. From the number of active inquiries which they have received and the expressed dispositions of builders and investors, they are disposed to resent the gloomy forebodings of the daily press, and are preparing for a fall season of satisfactory activity. If preliminary thereto, there shall be little to engage their attention until the middle of August, they will take advantage of the fact to obtain needed rest and recreation in the country.

THE ENGLISH BROKERS' METHOD.

In his morning's mail, the other day, a well-known broker and auctioneer found a letter with some interesting inclosures. The letter read as

follows: "I thought this way of doing it in England would interest you. Read, and kindly return it to me."

The inclosures consisted of a newspaper advertisement of an estate of about 366 acres, situate in Berks, 1½ miles from Maidenhead station, the same from the Thames and 6 miles from Windsor, for sale. The "celebrated ancient manor-house" is described as "undoubtedly one of the best specimens of mediæval architecture extant, its quaint gables, elaborately worked barge boards, and oak paneling throughout being of the finest description. It was built in 1465 and has been visited by Queen Elizabeth, James I. and George IV., and is reported to have been used as a royal residence, etc."

The permit to "Bearer" to view the property, has these printed reminders appended: "The holder of this card is respectfully requested to negotiate with (the agents), but in the event of a treaty being concluded with the owner, an early intimation will oblige."

"Should the property inspected not be suitable the intending purchaser or tenant is invited to leave at Messrs. Blanks' offices a memorandum of what is required, an entry of which will at once be made in a register kept for that purpose, and particulars of properties answering the description forwarded free of charge."

As an indication of the range of values of manorial estates in England, the prices quoted for the Berks property may be of interest. They are:

For the house and 318 acres	£23,000
Timber at	2,810
Thirty-seven acres	4,000
Timber at	190
Three cottages and ten acres	1,300
Timber at	60

Rumor has it that a well-known former General in the volunteer army and wealthy retired citizen of this city is negotiating for the purchase of this estate.

Gossip of the Week.

SOUTH OF 59TH STREET.

Trenholm & Simmons have sold, for James McCoy to Julius Slade, the factory building and grounds, 125x100, Nos. 311–319 West 43d street, at a price which was an advance upon the price at which the property was sold at auction in the first week in June, which was $124,635. The property has since been leased to J. B. Brewster & Co., as noted elsewhere, for twenty-one years, at $9,000 per year. Trenholm & Simmons, it will be remembered, were the brokers in the sale of 100–104 Broadway for the Continental Insurance Co. to the American Surety Co., at $1,050,000.

Williams & Greene are reported to have sold the dwelling property, 18x57x75, No. 566 5th avenue, for a Mr. Lent for $70,000.

Fitzsimons & Smith have sold for Patrick Collins to Letitia Howard the five-story, four family tenement with two-stores, 24.8x80x100, No. 453 9th avenue, adjoining the corner of 35th street, for $37,000.

Hammond & Gruet have sold for H. B. Palmer the three-story brick dwelling No. 366 West 11th street, 22x100.3, to Theo. W. Stemmler for $13,250; and for Thos. G. Brickell the adjoining dwelling, No. 368, for $13,250 to the same buyer.

Richard A. Brown & Company have sold for David Cohen to J. S. Bryce the property No. 6 St. Mark's place, on private terms.

Fairchild & Yoran were associated with Geo. R. Read in the sale of Nos. 8 and 9 Beach street, reported sold last week.

D. Kempner & Son have sold the five-story flat, 20x60x100, No. 330 West 47th street, to Mrs. Lehman for $21,000.

Emil Bachmann has purchased from Wm. Williams the four-story dwelling No. 141 West 15th street.

NORTH OF 59TH STREET.

J. E. Briggs has sold for Samuel Steinreich to John J. Swartz the five-story brick double flat with stores, No. 711 Amsterdam avenue, size 25x82, on private terms; also the northeast corner of Columbus avenue and 101st street, a five-story brick apartment house with store, on plot 25.11x80, for Wm. Ahlborn to John McGuire for $50,000; also for Henrietta V. Reid to Augustus E. Vom the five-story brownstone apartment house, No. 8 West 105th street, on plot 30x100.11, for $42,000.

Frank L. Fisher has sold the dwelling property, No. 48 West 84th street, for Vincent Travers for $19,000.

Increase L. Grenell has sold the residence property, No. 805 West End avenue, to G. W. Cummings, for $30,000.

Lynch & Donnelly have sold the four-story tenement, with stores, 24.9x75x100.11, No. 227 East 111th street, for a Mrs. Rosenstock, and a farm at Olive, Ulster County, for a Mrs. Cayo.

Frank Wise has sold the three-story and basement brownstone dwelling, 16x52 feet, No. 234 West 101st street, to Henry W. Van Deventer. Terms private.

Hunt & Wendell have sold for John H. Odell the last of his three new houses on West 88th street (No. 328), a three-story attic and basement, box stoop, structure, 18x55 and extension x102.2, to Richard S. Farley on private terms.

John P. Kirwan has sold for the Lynch estate the plot, 50.5x100, on the southeast corner of 68th street and Amsterdam avenue, on private terms.

John P. Windolph has sold for Elizabeth Kane to Charles F. Becker the five-story flat No. 104 East 118th street.

Mangam & Welling have sold for Mrs. Pohalski the lot, 35x100, on the south side of 119th street, 200 feet west of 5th avenue, to a Mr. Kerl, for improvement.

Welcker & Fisher have sold to John W. Goff, the three-story stone front dwelling, No. 319 West 104th street.

Frank Winant has sold the four-story brownstone dwelling, No. 62 East 67th street, southwest corner Park avenue, to Henry Dale.

William M. Purdy has purchased the four-story brownstone dwelling, 20x60 and extension x100.5, No. 32 East 63d street, for $34,500.

LEASES.

Chas. A. Seymour & Co. have leased the factory property, 125x100, Nos. 311 to 319 West 43d street, for Julius Slade to J. B. Brewster & Co., for twenty-one years, at $9,000 per year. The lessees will use the factory for carriage manufacturing purposes. When this property was sold at auction early in June, it was supposed it had fallen into the hands of a cigarette maker, and would be used for cigarette manufacturing purposes.

Smith & Allen have leased for Frank McCoy the four-story and basement brick building, No. 149 Bleecker street, for seven years, at $2,500 per year for five years, and $3,000 per year for two years. The lessee, D. Catarsi, will use the premises for hotel purposes.

Brooklyn.

Corwith Bros. have sold the three-story frame double tenement, 25x52, on lot 25x100, No. 39 Newell street, for F. T. Aspern to David Bachman for $5,000; and the three-story frame dwelling, 22x36, on lot 25x100, No. 236 Calyer street, for B. Brenner to Edward H. Keenan for $2,500.

William Walsh, of New York, has sold the ten lots, 200x100, on 58th street, south side, 100 feet east of 4th avenue, to Wm. Best, for $8,125.

Building News.

A TEMPORARY BRIDGE TO BE BUILT IN KINGSBRIDGE ROAD.

On Tuesday, the Commissioner of Public Works opened bids for the construction of a temporary bridge across the Harlem Ship Canal cut, just east of Kingsbridge road, where the freshet in May washed out the existing bridge and cofferdams and flooded the cut. Ever since the freshet, communication with that part of Manhattan Island above the ship canal, including Marble Hill, has been cut off, except by way of Kingsbridge, to the north. As soon as the damage was done, the Department of Public Works set about to repair it, but notwithstanding the urgency of the work, all the forms of municipal contract work had to be observed, and such delays as have resulted are attributable to this fact. The specifications call for a timber bridge, on a pile foundation, with approaches connecting with the road on both sides of the canal. The bridge is to be 25 feet wide in the roadway, and the approaches are to be at least 20 feet wide. P. Sanford Ross was the lowest bidder, at $8,875. If he is awarded the contract, as seems probable, he will be required to complete the contract in fifty days.

* * * *

Perez M. Stewart has eight four-story houses inclosed on the north side of 75th street, east of Riverside Drive. Four have fronts of limestone and four of brownstone and Tiffany brick. Five are 22, two 20 and one 25 feet wide. This will be one of the handsomest blocks on the West Side when the houses now under construction are finished. East of the Stewart houses Chas. G. Judson is finishing a row of five first-class houses, with fronts of limestone. Opposite these, several large houses are being built to order. West of the Stewart houses, Messrs. Woolley & Brinkerhoff have the foundations down for four costly dwellings which will be built of limestone. Dr. Woolley has heretofore always built on the East Side or in the Mt. Morris section.

FOR THE MACDOUGAL STREET POLICE STATION.

John H. and Richard H. Deeves were the lowest bidders for the construction of the new police station, at No. 26 Macdougal street, at the opening of sealed bids on Wednesday. Their bid was $61,337; they will probably be awarded the contract.

THE HARLEM MARKET DISTRICT.

An East Side district which is attracting considerable attention from investors just now is that which lies between 98th and 105th streets and 2d avenue and the East River. Something over a year ago a syndicate of business men bought the block between 102d and 103d streets and 1st avenue and the river, and began the erection of small one and two-story brick buildings upon it, that are especially adapted to the wholesale marketing of garden produce and fruits. From this beginning has grown the new Harlem Market, with nearly forty stores now fully occupied. And surrounding this block on the land sides an even greater number of similar structures have sprung into existence, some of which are occupied

and used for other lines of business. One of them, at Nos. 3, 5, 7 and 9 East 101st street, is occupied by Murphy Bros., the well-known carpenters and builders. They have for their near neighbors several of the largest bluestone dealers in the city, and lumber yards, stone yards and other establishments in the building material line. The establishment of these new and varied industries has attracted a large force of operatives, employes, agents, etc., to the vicinity, and a building movement has begun, to supply them with residence quarters. The block front on 2d avenue, east side, between 100th and 101st streets, is being improved by the erection of eight five-story 25-foot brick and brownstone flats with stores. John Brandt is the architect and W. & J. Forbes are the builders. The buildings are up to the third story. Owners of lots in the vicinity have been generally loath to sell their property, but have willingly leased for long periods with long renewal privileges. Murphy Bros, who wanted to buy two lots and found it difficult to secure what they desired, were satisfied with this arrangement and took four lots, on which they built their shops. J. P. & E. J. Murray, the real estate brokers in 3d avenue, made several leases of this character during the last year for periods of twenty-one years, at fixed rentals, with privileges of renewals for a similar period at 6 per cent of the then appraised valuation. Nearly the entire district was vacant when this building movement began. Now the future character of the district seems fixed. It will be a centre for building materials and for greengroceries. The College Point Ferry, from the foot of 99th street, affords a good means of access to the market for the Long Island truck farmers, and an improved system of docks, now in process of construction by the Dock Department, is proving the attraction for the dealers in stone, brick, lime, cement, lumber and other building materials.

* * * *

The effect of an elevated road station being placed at Columbus avenue and 66th street is seen in the enhanced value of every lot in the vicinity, and in the building movement which has followed. It has been about the most active section, within so small a boundary, on the west side, for the last year. Private houses and flats have been put up on the streets nearby and the avenues are being improved with flats and stores, one of the buildings being an eight-story storage warehouse, erecting by F. de Peyster Foster. One of the largest improvements near the new station is the seven-story flat being built by W. C. Flanagan, on the northwest corner of the Boulevard and 66th street. It is of light brick and stone, with stores on the Boulevard side, and is now up to the sixth story. It will be ready for occupancy in the fall. Adjoining this building, James O'Brien, the plumber, is excavating for four flats which he is about to build, and which are to be reproductions of the handsome buildings he erected on 65th street, near Central Park West. When these buildings are finished they will, with the corner flat, improve this locality considerably.

* * * *

Right adjoining the new station an apartment house, with stores, is being built by W. S. Marsh, executor, on the northeast corner of Columbus avenue and 65th street. It is nearing completion. On 65th street, south side, near Central Park West, four flats are being built by the McDowell Bros., which are also nearly finished.

* * * *

One of the busiest centres of house building activity on the West Side is the block on 70th street, between Amsterdam and West End avenues and near the Boulevard. The eighteen three-story houses, built by Dr. C. F. Hoffman for investment, are very nearly ready for occupancy. They are an attractive improvement, different in exterior to the ordinary three-story house. The fronts are of light brick and stone. Opposite, on the north side of the street, Jas. R. Breen & Son are building nine three-story houses, most of which are nearing completion. The condition of the street is pretty bad at present, owing to the building operations there. Of course this will be remedied when the houses are all completed, and it would greatly improve the street if asphalt is used when the time for paving arrives.

* * * *

L. Kahn's flat, on the southeast corner of Columbus avenue and 76th street, of brick and brownstone, is up to the sixth story. It makes a good appearance outwardly. On the same street, near Central Park West, C. W. Luyster's handsome houses are now being plastered, in preparation for sale in the fall market.

* * * *

Six five-story brownstone front flats are nearing completion on the south side of 84th street, 150 feet west of Amsterdam avenue. They have been built by T. Maloney.

* * * *

In the neighborhood of West End avenue and 91st street, a number of fine improvements are under way. Foremost among these is the Fourth Presbyterian Church on the southwest corner of West End avenue and 91st street. This is to be a handsome stone front structure, and is from plans by Heins & La Farge, the architects of the Protestant Cathedral. Efforts are being made to have the church ready for dedication about Christmas time. Adjoining the church to the west, on 91st street, Walker & Lawson are building five three-story houses which are about ready for the plastering, and adjoining these houses to the west is the 39-foot front residence of C. de H. Brower, just completed.

Out Among the Builders.

Geo. F. Pelham is the architect of eight five-story flat houses which Wm. H. Donington will build on the plot, 200x100.11, on 121st street, north side, 225 feet west of 7th avenue. The houses are to be of first-class construction, 25x87.6 each, to have the first story and basement fronts of brownstone and the upper four stories of mottled brick and brownstone trimmings. They are to be hardwood trimmed, to have first-class sanitary plumbing, steam heating system and tin roofs. They will be constructed with interior light shafts and will require a good deal of fireproofing and iron work. They are estimated to cost about $240,000.

James McClenahan will build a six-story brick fireproof building for manufacturing purposes, on the lot 25x107.6 feet, at No. 128 West 33d street. It will be 25x92 feet, with a one-story extension, 25x8 feet. The front will be of light colored brick and Indiana limestone. It will have a "Star" roof and be equipped with a freight elevator. Cost, about $40,000. Jardine, Kent & Jardine are the architects.

Charles E Miller will draw plans for the alterations and improvements to be made in St. Thomas' Chapel, in East 60th street. A new front will be built, the chancel enlarged, and the interior decorated at a cost of $18,000.

Chas. S. Clark is the architect for four dwellings and a depot building which the Lincoln Park Syndicate will build at Lincoln Park, on the New York & Northern Railroad. They are to be frame structures, in the classic style, and will cost about $3,500 each.

It is rumored that W. E. D. Stokes has acquired the remaining minor heirs' interests in two lots on the Boulevard, west side, between 73d and 74th streets, which gives him the whole block front, and that he is about to build a first-class twelve-story fire-proof hotel on the site. Effort was made to see Mr. Stokes to obtain the particulars of this story, if it is true, but without avail.

The following buildings were damaged by fire during the past week, and will probably require reconstruction or redecoration: No. 143 6th avenue, owner Carrie Fiser; No. 421 East 22d street, owner Samuel Smith; 166 Rivington street, owner Frances Metz; 153 Rivington street, owner H. Rosenberg; 179 8th avenue, owner M. Wuerz; 127th street and 2d avenue, owner Second Avenue Railroad Company; 535 East 19th street, owner John Brauer; 34 Church street, owner Henry Lyons; 30 Market street, owner Isaac Kantowitz; 14 West 17th street, owner Mrs. Kirchner, 184 Stanton street, owner Julius Knopp; 324 East 74th street, owner Joseph Koraer; 545 West 50th street, owner R. McDonald; 601 Greenwich street, owner Patrick Hoey.

Brooklyn.

T. Englehardt has planned the new building which W. B. A. Jurgens will erect on the southwest corner of Flushing avenue and Ryerson street, on the site of the one which was destroyed by fire last December. It is to be brick, with stone trimmings, 100x110, five stories high, and will be very similar to the building which it is to replace. Steam heat and three hydraulic elevators are to be put in.

Charles Lyons will remodel the present ground floor and build a one-story and basement brick extension, 25x50, on the rear of his building on the northerly corner of Broadway and Yates place. New show windows will be constructed, the entrance being set back in order to make them deeper than at present, the ground floor will be finished in hardwood throughout, and will be provided with two skylights.

Out of Town.

BETHAYRES, PA.—Carrere & Hastings, architects, New York, have made plans for a frame dwelling, to be erected in conjunction with the building of the University of the New Church. Structure will be three stories high, porches front and rear, interior in hard woods and all modern conveniences. Drawings on boards for estimates by contractors.

HARRISBURG, PA.—John T. Windrim, architect, Philadelphia, has been selected by the Pennsylvania State Commission upon the new Library building at Harrisburg to prepare the plans. The Commission have not as yet settled upon details, but the buildings will be of stone, likely from some local point in the State, and furnished upon the interior in handsome style with every convenience.

UNION HILL, N.J.—French, Dixon & De Saldern have completed plans for a two-and-a-half-story frame cottage, 27x50 feet, to be built here for Wm. Bermes. The house will have shingle roof, will be finished in white wood (natural finish), with hardwood mantels and staircase. The hot water system of heating will be used. The cost will be $8,000.

PELHAM MANOR, WESTCHESTER CO., N. Y.—Frank T. Cornell, of New York, has plans in preparation for a two-story and attic frame cottage, 35x36 feet, which A. W. Francis will build. The house will be built in the Colonial style, with shingle roof and sides. It will have exposed plumbing, will be heated with hot air, and have gas and electric light. The first floor will be finished in hardwood. The cost will be $5,000.

WHITE PLAINS, N. Y.—August G. Beyer has broken ground for two two-story frame stores and dwellings on the Boulevard; Carl Wache has prepared to build a two-story frame store and dwelling on the same street; Lewis Terry has begun work on a three-story dwelling on Silver Lake avenue; and Fred. Keene will build a two-story dwelling on Grant street, all in Silver Lake Park.

MOUNT VERNON, N. Y.—Charles S. Clark, architect, of New York, is about to build two frame dwellings, 26x33 each, at 7th street and 8th avenue. They are to be in the Colonial style, and will cost about $4,000 each.

NEWARK, N. J.—E. A. Wurth has plans under way for the following buildings: A three-story frame dwelling, 22x50 feet, to be built on Huntington street for August Schmidt, cost $4,500; a three-story frame dwelling, 22x50 feet, to be built for Wm. Tretmann on Camden street, cost $4,500; a two-and-a-half-story frame dwelling, 22½x45 feet, to be built for Jos. Oschwald at No. 132 Ridgewood avenue, cost $4,000; a two-and-a-half-story frame dwelling, 25x72 feet, to be built with all improvements for Louis Becker on Quitman street, cost $5,100; a three-story frame flat, 24x54 feet, to be built for J. H. Peal at No. 125 Prospect street, cost $5,500; a three-story frame double flat, 27x60 feet, to be built on 6th street for C. W. Heilman, cost $6,000; a two-and-a-half-story frame cottage, with hardwood finish and all improvements, to be built at Clinton place for Fred'k Tegen, Jr., cost $8,500; a two-and-a-half-story frame cottage, to be built on the northeast corner of 13th avenue and 6th street for A. F. Masselbach, cost $4,800; three three-story frame stores and tenements, to be built on the corner of Sherman avenue and Emmett street for Julius Lebkuecher, cost $18,000. Mr. Wurth will also draw plans for a five-story brk extension, 24x30 feet, to Schlosstein & Kiefer's factory at No. 61 Arlington street, cost $5,000.

UNION HILL, N. J.—Wm. Gulden will build a new furniture warehouse here. It will be four stories in height, the first story being of stone, with brick, stone and terra cotta above. The building will be 40x90 feet, with 16-foot ceilings. There will be a gallery 7 feet wide around all four sides of each story. There will also be a light shaft through the centre of the building. A hydraulic elevator will be used. French, Dixon & Desaldern, of New York, are the architects.

NEWARK, N. J.—Brown & Schlessinger have sold for the estate of Francis C. Butler, late of Butler & Ward, to August Buerman the large mansion located on Johnson avenue, adjoining the residence of ex-Judge Teese. The property has a frontage of 80 feet on Johnson avenue, 114 feet on Milford avenue, and is 276 feet in depth. The consideration was $25,000. The same firm has sold the property at 42 Newton street to P. Rooney for $4,400, and has closed sales on a number of vacant lots for improvement, located on Fairmount avenue and South 7th street.

GREAT NECK, L. I.—The design submitted in competition for the proposed high school by C. Powell Karr, of the firm of Karr, Carlin & Coxhead, New York, were adopted on Monday last. The competition was restricted to New York architects. The following being the firms interested: W. B. Tubby; Renwick, Aspinwall & Renwick; Ellingwood & Parrish, G. H. Pierce and S. Edson Gage. The working drawing for the accepted plans will be ready for estimates in ten days. The building is to be of brick, stone and terra cotta, and the appointments contemplated will make it one of the finest school buildings on Long Island. The estimated cost is $30,000.

SING SING, N. Y.—Scheim & Flagg are the architects of a private hospital to be built here at a cost of $10,000. It will be of frame construction, 48x72, with right and left wings, 11x28.

NEW ROCHELLE, N. Y.—Architects Scheim & Flagg are getting out plans for a stable for C. H. Roosevelt at Pelham Manor, to cost $1,000.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at foot of this list.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

BRICKS.—There is not much real news on the market for Common Hards, but, all things considered, it makes a pretty good general showing this week. The arrivals were not only quite liberal, but are believed to have been larger than for any corresponding period this season. Yet day after day custom has come along and taken the offering so freely that at the present writing there remains scarcely anything of importance unsold. The stock, too, has passed directly into the hands of consumers, and while in a few instances where facilities permitted there has been a little accumulation at the jobs, the supply will not last long if the weather continues good for the pushing forward of work. There does not seem to be any complaint over quality of an important character. Now and then some stock is a little "off," but in most cases the brick run smooth and satisfactory and command about former rates. Taking the general run of, say good, useful to fine goods, the cost is $5.37½ up to $5.75 the latter; full top and poor Hudson River stock has touched as low as $5@5.12½, with Keyports at $4.75. Pales

continue to meet with a good demand that exhausts the supply and steadily supports value upon a basis of $2.50@2.75 per M for the best goods. There has been some pretty good weather for moulding, and manufacturers are understood to have generally pushed forward work, but as the arrivals have indicated they had no idea of holding stock and continued the shipments as rapidly as facilities would admit.

GLASS.—Present demand for window glass has not much force or volume but shows a slight increase since the first of the month for both the home make and imported goods. The latter are now sold in the main upon the limit of quantity immediately required as importers very generally have refused to renew contracts. The accumulation seems to be well in hand and values for it well preserved. Domestic production ceased on the 1st according to programme and it is said left on hand a smaller quantity of stock than at the preceding date last year, though in some quarters that statement is contradicted. All agree, however, there is quite enough for the moderate outlet, and there seems to be a fear that from one or two sources there may be a little pressure to realize. Plate glass is quite steady in tone and is said to have of late secured rather more attention.

At the close the following significant dispatch comes from Pittsburgh:

For the first time in the history of the trade every plate glass factory in the United States is closed, and that indefinitely. Fully 10,000 men are idle as a result. The depression is attributed to three elements —overproduction, a tight money market and the arbitrary methods of the Plate Glass Trust.

LATH —There has been too little change to warrant any extensive comment, but the developments since our last are on the whole favorable. A portion of the fresh stock at hand had been provided with a place before arrival, and the unsold lots were not particularly difficult to dispose of, with rates getting just a peg higher than last week, the lowest sale now reported being at $2.35, and some business at $2.40 per M, with both local and outside custom. At the present writing there is apparently no stock here afloat, and amounts coming forward or about to be shipped are to be kept down to the narrow limit for some time prevailing.

LIME.—The anticipations of a better and firmer market have been fully realized, and, indeed, the rates now named at 90c. and $1.00 per bbl, respectively, for the two qualities of Rockland are a fraction higher than some operators had hoped for. It seems to have been just the thing, to take the bull by the horns, slap down the price on held stock, and get rid of it, making a general clean up, and as such action is now supplemented by moderate arrivals, with a little more force to the demand from some quarters, it looks as though the market might be kept in good form without much difficulty. Reduced production and moderate shipments are an additional aid to the position.

LUMBER.—In all divisions of the lumber trade there is to be found much the one story. A certain amount of business is taking place naturally, but at the distributive end it is principally on contract, the new orders being only for some specially pressing requirement, and the call for bulk parcels is kept within as close boundaries as circumstances will admit. All really desirable custom in fact prefers to adhere to the safe policy of confining obligations to immediate necessities of the moment, and sellers do not greatly object. It felt that the financial situation remains too uncertain to warrant any risks as yet, and sellers are still fortunate in being free from the burden of an excessive supply coming upon them seeking a quick market. Whether these conditions can be maintained is not as yet very clear, but some operators commence to think that recent information from many of the principal primal markets indicate a state of feeling among manufacturers that is likely to gradually induce them to offer better terms for the purpose of turning their production into funds. Probably prompt cash would accomplish something in that line even now

Spruce is quoted firmer because the supply has been small, and the chances are that a few desirable cargoes could be placed without much difficulty. Receivers report that from the Eastward the shipping of supplies is keeping down to limited compass, and seem to be pleased with the information, because the chances for placing other than a limited amount, as already suggested, are extremely slim, and under larger offerings and the natural search for buyers there is, in these times, danger of accepting some custom that might not turn out fully desirable. State spruce has moderate sale, but as a noteworthy feature of the market at the moment we note continued occasional dealing in Oregon spruce, of which quite a little quantity is now on the way, including a bunch of clear bevel siding on an export order. Piling is dull.

Hemlock has no regular demand, but occasional custom appears and secures prompt attention, as manufacturers and agents have discovered that the time is at hand to give attention to every desirable buyer who may need stock, and show him favors in the way of price.

White Pine remains as steady as any steadiness can be expected under present general conditions of trade, and there is a place for considerable stock in the way of box and shippers. Buyers, however, are not anxious to purchase more than natural early wants would seem to require, as they entertain hopes that by fall they will find it possible to secure better terms. Signs of weakness are thought to have developed of late at some of the primal markets.

Yellow Pine is without change, the inquiry for it showing about natural relative proportion to that developing on other woods, but every call promptly met and thus far buyers retaining about the bulk of advantage. There is the usual talk about greater firmness to be shown, but as usual it remains talk only.

Carolina Pine boxing meets with a fair general measure of attention, but the average call for supplies is not very full at the moment, and, in comparison with what is ordinarily found on this section of the market, trade is dull. About old rates are quoted in most cases but upon a nominal basis in the main.

Hardwoods sell slowly and all demand remains in abeyance until some pressing need sends buyers into the market. It is the all-pervading tendency to operate from hand to mouth and hope for better terms later in the season. For the time being full rates are "quoted," but when it comes to business there are many quiet cuts in buyers' favor. One of the strongest efforts this season has been to maintain the price of poplar, and association rates were steadily named on valuation, but actual dealing has constantly taken place at a more or less liberal shading. Notwithstanding the expressions of firmness, too, among manufacturers, there are some doubts expressed about their ability to hold up the line of prices because of the necessity for handling poplar quickly between the stump and the consumer. In the log there is apt to be much loss on account of cracking and splitting deep, and after leaving the saw the lumber has to be handled with great care in order to preserve its condition. Dull times and slow sales are serious adverse factors to an effort at bracing up. Some export trade is doing, principally in walnut and oak.

GENERAL LUMBER NOTES.

STATE.

The Albany *Argus* as follows:

Trade runs along about the same. The week of the 4th of July holiday is always the dullest of the year, and so it has proved this year. Pine lumber has moved in more freely, but it does not accumulate, although the demand for it is not very brisk. Mr. Fassett, of Fassett & Bellinger, Tonawanda agents for a number of the large Albany houses, was in the district to-day, and he says it is dull at Tonawanda. The fight with the union lumber shovers is still on, but the troops have been withdrawn. A number of buyers have been here to-day also. It is conceded that the money stringency restricts trade, and the largest dealers are cautious and prefer to pile the stock on their yards, unless they are sure to get their money promptly. They think prices will be higher with an improvement in financial conditions. The new cut will begin to come along in about ten days. The dealers are obliged to pay high prices for it in the west, where lumber is scarce, and it will be difficult work here to get an adequate return for their investments. Norway pine is practically out of market here, and quotations are dropped. In spruce and hemlock trade is only fair, and it is mostly a through business. Hardwoods are quiet, and there is nothing new in shingles and laths.

THE WEST.

The Northwestern *Lumberman* as follows:

We might as well look squarely at the situation and confess that this is to be an off year in the lumber business, and make calculations accordingly. On every hand the minds of manufacturers and dealers are being brought to this conclusion. Those who have carried too much sail are reefing their canvas. Dealers are purchasing cautiously, making such collections as they can, and manufacturers are urging no sales where they doubt the financial reliability of purchasers. Thus business has been slowed down as if obstructions had been sighted on the track ahead, or the white foam of breakers had been seen on a reef in the vessel's course. Under the circumstances this is well, for it would be folly to dash forward with a reckless disregard to possible ruin.

Such caution must necessarily result in a greatly reduced volume of trade, but the end will be a restoration of healthful conditions and a vigorous start forward in business when the monetary stringency shall have passed.

At Chicago the receipts continue light. No more lumber is being consigned to the market than the demand will justify, and when a load or two arrives the consignee makes sure that the lumber is disposed of before he advises the consignee to forward more. The market is being fed a mouthful at a time as it were, and any suggestion of stuffing is avoided. Sales are made carefully, and to those only who are believed to have ability to meet payments therefor. The demand is slim, because the yard dealers are going forward as carefully as the cargo sellers. Distrust of conditions renders both sides conservative and cautious. Such a temper precludes an active market. This state of affairs is likely to continue until the bankers stop holding on to their money so tightly and are more liberal with their discounts.

Since the monetary disturbance arose prices have been uncertain and scarcely quotable except in respect to dimension. This week our quotations on inch lumber have been scaled down to late readjustments of value. There is still a variance of considerable breadth in prices realized from actual sales, and some lots may possibly be sold above our quotations. But the figures are believed to nearly represent current values.

Piece stuff is selling at $10 a thousand, for short green and slimjims at $11 to $11.50. There is little trading in long wide joists, since the demand in the yards is very weak.

At the yards there is some diversity of view in respect to prices. The concensus of opinion is that some of the shippers are cutting, especially on piece stuff, and that the local operators are doing the same when that is induced by competition to secure the sale of bills. Between yards, prices are still fairly firm at concessions of 50 cents to $1 a thousand from last winter's and spring's prices. Evidently such cutting as is going on is being kept in the background as much as possible. Piece stuff is being sold by the cargo at a $1.50 to $2 a thousand cheaper than at the opening of navigation, which is an inducement for yard dealers to make some concession in sales. Yet there is no surplus of piece stuff visible, which is evident from the frequent inquiry for sorts between yards.

In regard to Poplar, while prices are weaker at some of the smaller mills, as a result of financial depression and cash buyers are given a decided preference, the larger mills are holding firmly up to the association list. Dry stock is scarce and there is no reason for cutting prices, other than the necessity for realizing ready money at once. There is less poplar in pile at manufacturing points than there was six months ago, and the supply of available logs is also light. A full report of lumber and logs on hand will be submitted at the meeting of the Poplar Manufacturers' Association, at Louisville, next Tuesday.

The Mississippi Valley *Lumberman* as follows:

A general survey of the lumber trade in the northwest convinces one that the cut of this season will not be as large as it was last year. Some of the railroad mills in Wisconsin are disposed to curtail their product, and even shut down if necessary rather than

continue operations and necessitate cutting of prices to raise money and thus weaken the market. It is pleasing to note that while trade in some sections has been dull prices have been held up firmly. In the Duluth district some of the larger mills have laid off their night crews, on the ground that the demand is not sufficient to necessitate running night and day. Local trade there is rather quiet, but shipments east under contract are good. Throughout the Wisconsin valley little change is noted in trade conditions Old prices are being fairly well maintained and there is no danger of an over supply of lumber.

ENGLAND.

The *Timber Trades' Journal* says:

In the pitch pine trade there is a decidedly better tone prevailing The recent arrivals to London have been fairly moderate; the last cargo already reported is the Union, from Mobile, but there was very little pitch pine in her, the cargo being mostly satin walnut, oak, and other hardwoods already sold on contracts. Shippers abroad, it is stated, will not attempt to make sales on the coast at prices now offering, owing to the smart advance in freights as already noted in our columns. The last fixture has been at 97s. 6d., Pensacola, sawn timber and deals, for small-sized sailing ship, and 100s. 1,800 register steamer to Liverpool direct, all sawn timber. We are rather surprised at the latter, as the great Mersey port is already overdone with this description of wood, and may be taken as about the worst market for pitch pine just now in the whole of the United Kingdom.

NAILS.—Only about an ordinary trade demand has been secured until within a day or two, when orders from a few localities seemed to be expanding somewhat. The call was promptly and readily met, however, and at former rates, with plenty of stock still available, although manufacturers are doing what they can to curtail production. We quote cut at $1.05 @1.25per keg for car lots and $1.35@1.45 per keg for parcels from store for iron, and add 3c. per keg for steel; Wire, $1.50@1.55 at mills, and $1.80@1.85 from store.

PAINTS, OILS, ETC.—Trading has been light. Immediately after the "Fourth" there was some little picking up in the run of orders, but only such as might be expected on the turn into second half of year, and business is now once more settling into the hand-to-mouth condition again. Even the class of buyers who have heretofore been quite willing to place a fuller line of orders on credit seem to have subsided under the influence of the constant rebuffs to which they were subjected, and business is conducted upon terms that throw most of the advantage in favor of the seller, though to secure the terms it is frequently necessary to make some modification on cost. Of all staple articles the offering continues prompt and ample, as holders have no desire to carry stock, even where they can do so without difficulty. Prices are quite uncertain and the irregularity on White Lead is becoming more marked, though there is no admitted deviation from the regular card figures. Corroders' rates stand as follows: Lead in oil in kegs and dry lead in kegs in lots of less than 500 lbs., 7¼c. net; in lots of 500 lbs. to 5 tons at one purchase, 6¾c.; 5 tons to 12 tons, one purchase, 6⅝c.; 12 tons and over, one purchase, 6½c.; kegs. Lead in oil in 12½ lb. tin pails, add 1c.; in 25 and 50 lb. tin pails, add ½c.; and in 1 to 5 lb. tin cans assorted (100 lbs. in case) add 2½c. per lb. to keg price Terms on lots on 500 lbs. and over, note or acceptance at sixty days, or 2½ per cent. discount will be allowed for cash paid within fifteen days of invoice date. To make either of the above required quantities any assortment of packages of white lead, red lead and litharge may be counted. The above quotations are free on board cars or boat at corroding point. Linseed Oil has a fair average demand; indeed, is keeping the record up to about what may ordinarily be expected at this time of the year and former rates are adhered to. The market is strengthened by reports from the West regarding a scarcity and high cost on cheese. We quote on general range at 48@49c. for Western, 50@51c. for City from domestic seed, and 62@63c. for do. from Calcutta seed Spirits Turpentine has not found much attention, and with weaker primal markets, supplemented by some increased pressure to realize, prices are lower, closing unsettled. We quote at 28@29c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—Most demand is based upon special and immediate necessity, but now and then it shows quite a fair volume and with general supplies not abundant prices rule steady all around. We quote Tar at $1.90@1.95 in pine or Wilmington bbls., $2.00@2.05 in pork bbls., and $3.70@3.75 in oil bbls., Pitch $1.50@1.70.

BUILDING MATERIAL PRICES.

LUMBER.
Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors and, altogether, it is impossible to give a line of retail quotations thoroughly reliable n character.

"Entered at the Post-office at New York, N. Y., as second-class matter."

VOL. LII. JULY 22, 1898. No. 1,323

AN old stock exchange operator was asked the other day what the trouble was with the market. He replied, "Well, it has just now a fit of hysterics, and as this is a disease which is catching, it is now going the rounds of the whole country. We shall get over it after a little, and the chances are that within sixty days we shall be laughing just as loudly as we are now crying." "Look at it," he continued, "don't you remember the silly, hysterical panic we had last fall when the cholera appeared in the bay, and the whole nation went wild with fear, when country bankers drew down their balances with New York banks, and every one, rich or poor, was ready to drop with fright at the mention of cholera. It is the same now, only the bugbear is changed, and if you want a bit of fun with the average Bank President just cry silver and you give him a cold shiver at once. Point out the fact that after all the country has been doing very well in a business way, and that the future has not been brighter for many years; that good crops are very promising, with a good demand—all this will be brushed away with the single word silver. We hear now of large cotton goods manufacturers closing down for weeks or months, and yet only a little while ago we were constantly told that never in their history have they had a better or a more profitable business. It all reminds me of a riddle which my little youngster asked me the other day. Said he, 'Papa, what makes more noise than a pig under a gate?' 'Why, two pigs to be sure,' he answered."

HOW are we to extricate ourselves from the condition of chronic financial depression into which we seem to have fallen? We appear to have no more wild panics of the sort that afflicted the country in 1837, 1857 and 1873, because the banks, formerly the principal contributors to panic, have learned that they can protect themselves by pooling their credit. The discovery has not been universally made. In Chicago, and other parts of the great west, the banks, which would long since have gone down like houses of cards had not the banks of New York, Boston, Philadelphia, Baltimore and Buffalo determined that they would have no panic, are trying to give us an illustration of the feat which will be sufficiently well recalled when we repeat the ejaculation: "How we apples swim"! But, generally, in the financial centres of the country, the banks are standing together, and preventing such manifestations of financial delirium as we used to have periodically. In the place of wild panic, however, we have prolonged depression, which, with brief seasons of temporary relief, has been undermining the financial constitution of the community for more than a half decade, and it has become of critical importance to know how we are to extricate ourselves from its clutches. There are two ways. The cost of production has outrun the price of commodities, and now we must either reduce the cost of labor or raise the price of goods. Men may talk ever so much learned nonsense about the causes of our difficulties, but the horns of our dilemma are right here, and we must be prepared to take hold of either the one or the other. The price of labor should be regarded much as we regard interest—a fixed quantity on which the cost of production must be regulated. There is only this difference: Interest is a continually falling quantity, while labor is a continually rising quantity; but the downward and upward movement of both is so slow that the changes are inappreciable from year to year. The present crisis will make a temporary reduction of wages inevitable; but we should only regard it as an expedient at best. An appeal to this expedient, after causing great financial and social demoralization, leading probably to bloodshed, can only lead downward to a lower standard of charges which would yet be very far from the bottom, and leave plenty of room for subsequent disastrous falls. Instead of seeking to reduce the price of labor we must try to raise the price of goods. But how is this to be done? Aye, there's the rub! We were on the right track two or three years ago when the system of trusts and regulated production was receiving the attention of business men; but the wisdom of "statesmanship" came forward for the protection of society and we were thrown back into the ditch. "Statesmen" will send us all to the dickens yet if they are not themselves packed off to that destination in advance.

HOW little the world is directed by well-defined opinions and how much by experiment. This is seen in the constant vacillation between extremes, and in the urgency with which any specific measure may be pursued until it has been adopted, and then in the still greater urgency with which it will be surrendered as soon as it is seen or fancied that it is proving detrimental to the interests that were to be promoted. Only a few weeks ago the directors of the World's Fair and the Federal Government, or some of its representatives, were at loggerheads about the opening of the exposition buildings on Sunday. It is a pity, quoth the directors, to deprive the poor man of his only opportunity to see the treasures of art that have been brought together from the four quarters of the globe. It shall never be done with our approbation and consent. And so Sunday opening was strenuously fought for and achieved, and it is to be presumed that every man in Chicago who was too poor to take a day off on the unholy days has been plodding around industriously on Sundays and feasting his eyes on machinery, agricultural and manufactured products, and pictures until he is almost surfeited with structural knowledge and æsthetic refinement. But the poor did not prove to be so numerous as the directors thought, and now those same gentlemen are beginning to think it a still greater pity that guards and attendants should be compelled to work seven days in the week. "What shall it profit a man if he gain the whole world and lose his own soul." Take again the Sherman silver law as another example. A few years ago we were all to get rich by buying a certain amount of silver bullion, afterwards to be made into dollars. But now Congress has been called together in two kinds of a panic, a political panic and a financial panic, for the express purpose of repealing this law; and it is announced that repeal is the most urgent duty of the hour. We presume that the law will be repealed. The repeal is likely to do as much good as the enactment, and we would not be true to our idiosyncrasies were we to fail of getting it out of the way and giving place for some new fad. The more crass and undeveloped the idea in this country the more certain it seems to be of finding adherents. Less than a year ago we decided, finally and forever, to abolish a tariff for protection; but already we seem to have difficulty in finding the man who is willing to take the responsibility of knocking the protective chip off the shoulders of a people who have been oppressed with its burden, in greater or less degree, for a hundred years. And so we go. But our adaptability for new crotchets adds nothing to our reputation for solid training or common sense.

THE municipal authorities, as we are informed, will ask the next Legislature to so amend the Consolidation Act as to authorize them to collect the general tax levy at the beginning of the fiscal year. The practice at present prevailing is to run the city government on credit for about eight months of every year. To do this revenue bonds are issued upon which interest has to be paid, the amount running well up into the hundreds of thousands every year and constituting quite a substantial addition to the cost of the city government. Of course the taxpayers have to foot the bill in the end. In a city so wealthy as New York is to-day this practice is indefensible—it is needless extravagance. By collecting the taxes in anticipation of their disbursement, as the amendment proposes, all this expense will be saved. The intended change is therefore in the direction of a wise economy. The marvel is that it should have been so long delayed.

BUT while they are at work upon the provisions of this bill, why should not the municipal authorities go a step farther in tax reform and provide for payments of taxes in installments—semi-annual, tri-monthly, or quarterly? The reasons for such a reform are self-evident. The city does not need the money all at once, but in nearly equal monthly installments throughout the year; the levy is a large one, annually exceeding $35,000,000, and the withdrawal of even a moiety of this sum of money from the channels of trade at any one time cannot fail to prove injurious, and in times like the present would be disastrous. Many there may be who would not care to avail themselves of the privilege of paying in installments, but among the small tradesmen and owners there are many, as we have found through direct appeals to this paper, who would greatly appreciate such a privilege. The present system of discounts for early payments could be so equitably adjusted to a system of, say, quarterly payments, that there would result, as we are fully persuaded, a more complete collection of the annual levy and a smaller proportion of arrearages

than the city has ever known. We present this suggestion to the consideration of Comptroller Myers, who is said to have the proposed amendments in special charge.

A Greater New York.

THE *Herald* in one of its lucid intervals, with no picture of a North River bridge disturbing its equilibrium, discusses the question of a Greater New York, and succeeds in grappling with the subject from the trans-Harlem point of view. The Greater New York, according to the opinion of our contemporary, will be reached by developing New York, and not by developing the outlying districts adjacent to New York controlled by different municipal and township authorities.

This is undoubtedly the sensible view. The vanity which leads men to advocate the neglect and practical abandonment for fifty years to come of a district which is municipally joined to New York, for the purpose of building up by annexation a huge city of not very easily assimilated material, should have no place in a community that has already reached a population of nearly or quite 2,000,000, and will have only itself to blame if it fails of doubling on the number during the next two or three decades. It is our duty at present to look after the interests of the people living beyond the Harlem, and to stimulate the growth of that section of the city. But this will be a task which we shall hardly accomplish by extending ourselves promiscuously over all the adjacent territory, and surrendering the advantages derived from our great wealth and venerable years into the hands of the municipal parvenues by which we are surrounded. We disparage no community. We even regard Brooklyn as a possible rival in the not distant future, provided always that its clapboarded domiciles do not get burned to the ground some day; but we cannot shut our eyes to the fact that the term Greater New York, as it is commonly interpreted, means the promotion of the interests of Kings County at the expense of the district beyond the Harlem. And to what end? Merely that we may surpass Paris in population and keep ahead of Chicago. We should be no better governed after the change, no better educated, no more tasteful or refined, and we should get rich not nearly so fast.

Yes, the *Herald* has accidentally got it quite right this time; and the term Greater New York should be interpreted to mean the development of the district beyond the Harlem. But how is it to be developed? Not, of course, by keeping it as a mere dependency on the south end of the city. Its advancement will depend on the promotion of its local interests. No section of the harbor is more favorably situated for commerce. It has an admirable water front, a deep and direct channel to the sea, and it will soon be easy of access from the Hudson River. But its commercial advantages are not its only recommendation. Its facilities for commerce, indeed, should be only a factor in promoting its industrial activity, and the cheap transportation of coal, iron, and lumber will give the necessary facilities for manufacturing. The North End should soon be full of factories as well as commercial warehouses, and, following upon these improvements, should come population by the hundreds of thousands. It concerns us chiefly to know now what can be done for the territory in our possession not yet half filled but dependent on our exertions for its development, and not what we should do for the gratification of our vanity.

But the everlasting ghost of Banquo rises here, and it is a pity that the *Herald*, in common with all except a few of the more intelligent and independent journals of New York, whether engineering or political, has no visual organs sharp enough to see the spectre. Were the North End as free as Brooklyn, we should have looked to see, even in anticipation of the early completion of the Harlem River improvement, a heavy movement for the construction of water front warehouses at Port Morris. We should have looked, also, to see factories rising in the same neighborhood, for, superficially considered, there is no place that offers fairer opportunities for profit. But the shadow of the dock department, which is frightening everything that looks like shipping from the lower half of the city, hangs also over the upper half, and it paralyzes every hand that would be raised for the improvement of riparian property. Hence we see at Port Morris what we see everywhere else along the water front of New York, only a desert or a ruin; and if any man has dreamed of any commercial improvement in the neighborhood he has not had time to get up and announce his dream at the breakfast table. The neighborhood of Port Morris is thought to be an excellent place for the location of hospitals for the cure of contagious diseases; but it seems never to have been considered for anything much better. There may be a little movement in the neighborhood now; but it is a great deal like the movement of a man with the fingers of a garotter clutching at his throat. It is somewhat spasmodic.

It is to be hoped that the health of the *Herald* is becoming permanently better. For certain of its aberrations it may be beyond the reach of relief; but now that it has become clear on the subject of the Greater New York, it is possible that it may study the subject to the end and learn that before New York becomes truly great a number of important changes are to be made. The city is constitutionally weak and wants amendments.

GOOD-BY to the New York Hotel There is an Italian above on the walls handling baskets of bricks, with his exasperating "yep!" as he lets the loads go rattling downward to the arms of the cartman waiting on the sidewalk below. Soon we shall see nothing but a huge excavation in the ground over which once rose the great hostelry dear to the heart of every Virginian who had escaped for a few days from his plantation, and sought an opportunity to ouck some northern tiger less dangerously equipped than the tiger of his native jungles. The disappearance of this hotel marks an era in the history of New York, though it may not be precisely the kind of an era that the present owners of the site seem to be anticipating. The sudden invasion of the neighborhood by factories has seemed to threaten the district with what a Frenchman might call a *bouleversement*. It is presumed that it is not long to remain the nucleus of the cometary or sky bespangling four hundred, and that the wayfarer will soon turn his back upon it, and find in the more splendid hostelries further up town a more congenial abiding place. But it is not quite clear that the crisis has not been a little misconceived. It is as certain as any other human event that the Hudson River tunnel will be completed. The few hundred feet under the river remaining to be constructed must soon be put through either by the hands already in control or by new hands that will come into possession through proceedings in bankruptcy that will permit the work to go on under a greatly reduced capitalization; and when it is completed the passenger station will not be far away from the ground long covered by the New York Hotel. It is not clear, therefore, that a hostelry so widely known and respectable as this house can afford to disappear before the entertainment parvenues further up town. Indeed, it is a question if the new proprietors of the site could not find their best profit in co-operating with the tunnel company, and after reconstructing the hotel as a hotel provide waiting-rooms in the basement for the railway trains. There would be millions in it. About the best thing in New York could be made of that block.

Six Months of Real Estate.

THE statistics of the real estate market for the last six months, which we present to our readers herewith, are in many respects remarkable, for they show, in spite of the financial depression which undoubtedly has been gradually tightening around us, that thevolume of business transacted is in all respects larger than it was twelve months ago. There is not a single feature which does not show an improvement when compared with 1892.

In the first place, 8,071 conveyances were recorded in the first six months of this year, against 8,070 in the corresponding period twelve months ago, and the amount involved stands $150,300,925 instead of $135,477,515. The number of nominal conveyances increased from 2,471, in 1892, to 2,845 this year, and though in the 23d and 24th Wards transactions were slightly fewer than last year, the amount of money involved increased by some $400,000. Indeed, the recorded conveyances show that realty has been more active this year than even in 1891.

It would naturally be supposed that with tight money, the greater number of conveyances would be accompanied by a much greater number of mortgages; but this, it will be seen, is not the case. The mortgages are slightly fewer than they were a year ago and the amount only a trifle larger. Practically, in this respect, this year's figures are the same as last year's figures, with this important difference, a greater number and proportion of the transactions were made at rates lower than 5 per cent. Apparently, mortgagors are in a better position than they were a year ago.

With buildings projected a similarly satisfactory state of affairs has to be recorded. Fewer plans have been filed, it is true, but the estimated cost of the buildings is considerably greater than in 1892. This fact is the more noteworthy when we remember that the Building Law was in the process of amendment in 1892, and in consequence a number of plans were filed as paper-projects for the purpose of obtaining the easier conditions of the old law. One thousand five hundred and fifty-two buildings have been planned for so far this year against 1,814 last year, but the outlay entailed this year amounts to $43,700,813, instead of only $39,252,583. It is true the figures this year include $5,000,000 for the new cathedral of Saint John the Divine, a large part of which is a mere anticipation of what is to come, still if we eliminate this from this year's figures and then from last year's figures the number of paper plans filed at the Building Department, we may safely say that enterprises involving quite as much if not more have been undertaken in the first six months of 1893 than in the similar period of 1892. It is to be noted particularly that costly buildings have been more numerous this year, and that much of the greater outlay is to be credited to the district south of 14th street, and to that between

59th and 125th streets west of 8th avenue. More costly improvements were also undertaken north of 125th street.

The figures then show that there has been little cause for complaint in the real estate market generally. The sale of $150,000,000 of property can scarcely be regarded as an indubitable evidence of dull times, neither can we so view the expenditure of $43,000,000 in new buildings. Real estate, however, is not a touch-and-go commodity, sold off-hand like so much dry-goods, and it may be that the satisfactory exhibit is in a measure due to transactions practically undertaken some time before the present business depression set in with pronounced force.

The Silver Question.

The present treatise is the continuation of a series of articles published at intervals during the last fifteen years both in Europe and this country.

In Europe these publications aimed at an international arrangement in favor of silver; in this country the standpoint was taken that unless such international agreement were possible and performed, the government and legislature should not give unlimited protection to silver producers.

In an article published by me in THE REAL ESTATE RECORD AND GUIDE, in February of last year, the consequences of this country's silver legislation were foreshadowed, only the writer did not expect the catastrophe so soon.

An unusually poor export trade against heavier importations, in spite of the McKinley bill, helped greatly the developments to the present state of things, and in face of all the misfortunes and losses this country had to sustain it may still be considered as a good deal of American luck that we have the crisis now instead of later on.

Had Europe had poorer crops last year the agitation against the silver legislation would perhaps have been delayed, the country might have been lulled in darkness of apparent prosperity and not have found the banks in such strong and conservative position later on as they were this year.

It is useless to repeat all the arguments against free coinage and the present silver purchases by the government.

We can scarcely doubt to-day of their fate.

Let, however, at the present development, two facts be repeated, which will, in the future, as they were in the past, be the guide and the foundation of the earlier or later solution of the Silver question.

One of these facts is the true principle declared over and over again by the most authorized writers on the subject: that gold and silver were chosen for general media of circulation, because they were so distributed as to accommodate themselves to the world's commerce, which would take place if no such metals existed and the trade between countries were purely a trade of barter.

In other words, gold and silver ought not, either by scarcity or too great abundance, influence prices.

The second fact is expressed by the first words in John Stuart Mill's "Principles of Political Economy:"

"Practice long precedes science."

Is not the whole course of recent events abundant proof of the correctness of these utterances?

The only reserve to be made is this: Science outlined perfectly well the steps which ought to be taken, but, unfortunately, very few people study these plain, elementary principles, and a great many publications on money seemed to establish new views, while the subject had so clearly and definitely been treated a great many years before.

These studies of new economists contributed a good deal to the confu-

sion of opinions, and the same truth has often been disguised by too long, too circumstantial arguments, so that it could not reach the common sense of wider circles. So practice had again to precede science, because the latter was not understood, not appreciated by the great majority of people.

Yes, practice had to teach the whole world which way to go. Practice, that is, all the experience made, brought us to the present crisis, and if more careful consideration of our great writers will not be observed in future, practice again must correct all mistakes.

Practice has shown that gold or silver are no more so distributed in the world's commerce that the latter can take place as if it were a trade of barter.

Silver had become too abundant and gold too scarce to furnish in the desirable proportion the necessary media of exchange.

In an article published some seven years ago I pointed to the development of South America, which has since been checked to a great extent by lack of gold, and to the advisability for this part of the world to take silver as a part of its currency.

Practice and experience have brought us at last nearer to the solution of the problem, and we hope that in future it will be more generally accompanied, both here and in Europe, by such good principles as have been established by former experiences, avoiding this crisis like the present one.

And combining now practice and science let me point out the course which, in my modest judgment, the further development of the silver question will have to take.

After the repeal of the Sherman act let two years be considered sufficient to ascertain on which new ratio gold and silver can safely carry on the world's commerce.

Let then, again, a Brussels conference meet, of a still more universal composition, inviting all commercial countries. There will then be a serious chance for an international agreement.

If then an understanding cannot be arrived at, all countries overburdened with silver will at least find convenience to make arrangements, and in either case we can safely expect that in a not too distant future the present loss on the existing silver will, through a period of happier times, be made good; that silver will ultimately come through a broader channel into industrial use, to which it is more destined than any other precious metal.

To arrive to that end it will appear necessary some day to give an increasing trade more currency in this country.

This task can easily be performed in different ways independently of the silver question.

Obituary.

ASCHER WEINSTEIN.

The news of the death, by drowning, at sea, of Mr. Ascher Weinstein was received with great sorrow in real estate circles He left New York July 8th on the Umbria and was lost overboard last Saturday morning the 15th inst. His destination was Carlsbad, where he intended to remain and take treatment until Sept. 1st, as announced in our issue of the 8th. Mr. Weinstein was the best-known real estate operator of the day and was esteemed alike for his honesty, truthfulness, fair dealing and promptness. He began to speculate in 1885 in a very modest way, having previously been engaged selling dry-goods. His first purchase was No. 361 Madison street, which he bought in May, 1885, at $14,050, subject to mortgages of $10,000, and sold five months later for $15,500. In July, 1885, he purchased Nos. 121 and 123 Norfolk street at $25,000, subject to mortgages of $22,000, and resold the following February for $27,500. He continued to speculate in the 7th and 10th Wards for some time. His sales numbered seven in 1886, nine in 1887, five in 1888, nineteen in 1889, and thirty-nine in 1890, until finally he became well-known to all the real estate brokers south of 59th street because of his frequent calls in search of bargains. Possessed of great pluck and excellent judgment he proved very successful and soon had several competitors, that is, speculators following the same lines, hunting up cheap properties, buying quickly and selling at small advances. He was fond of handling leaseholds and did much to popularize dealings in that kind of property.

Mr. Weinstein very seldom purchased any property north of 59th street, and avoided vacant lots and steam heated flats. Many old buildings were renovated and rebuilt by him, good tenants secured and quick sales followed In the first years of his operations L. L. Richman, Harris Mandelbaum and others were frequently interested in his purchases, and later on Mr. Mandelbaum, together with Mr. Fisher, Lewine, became regular partners, under the firm name of A. Weinstein & Co., with offices in the Real Estate Exchange Building Some idea of the volume of their holdings may be had when we state that in September, 1892, their list embraced thirty-three parcels, which were scheduled at $706,000. The firm was dissolved last December, and for a few months thereafter Mr. Weinstein, going it alone became a regular plunger, so much so that his February list embraced sixty pieces. His largest purchases were the Zabriskie estate houses, flats and lots on Rivington, Allen and Orchard streets, for which $347,500 was paid in January, and the Star Brewery in East 58th street, for which $169,675 was paid at auction, also in January. Both of these transactions were made with Mr. Jarmulowsky as partner, and a few months later, when Mr. Weinstein began to unload, both parcels were transferred to Mr. Jarmulowsky.

Mr. Weinstein sold two valuable corners to Superintendent of Police Byrnes, one a few years ago, the northwest corner of 7th avenue and 14th street, and the second several months ago, the southeast corner of 5th avenue and 46th street, on both of which he realized handsome profits. He also sold a parcel on West 20th street, No. 13, to Inspector of Police McLaughlin, for $55,000.

Mr. Weinstein's operations latterly was so extensive that he contracted for his title searching in bulk by the Title Guarantee and Trust Co. Operating on so extensive a scale, he had special facilities for securing loans, very many of which were obtained by him through Platt & Bowers' office. He usually borrowed about 60 per cent of what he paid for the property at 5 per cent interest.

Mr. Weinstein stopped buying in March, and the rapidity with which he disposed of his holdings (without sacrifice) is shown on comparison of the February list containing sixty parcels, scheduled at $2,397,500, with the June list containing eleven parcels, scheduled at $288,500 the latter being mostly low priced properties. No better proof could be furnished of his good judgment as a buyer than his ability to sell so quickly, and subsequent events show how good his discernment was, for he knew when to sell. His last deal was with Builder Wm. Rankin, to whom he sold the church, corner of Perry and 4th streets, taking in trade a tenement on Madison street, No. 282, so that curiously enough his last and last purchases were of Madison street houses.

Careful and frequent personal examinations of property from cellar to garret, and of all the surroundings having a bearing on values, covering a period of several years, coupled with good judgment and a wonderful memory, made Mr. Weinstein one of the very best judges of values, and to this must be added a stock of pluck such as few operators possess. He was an untiring worker, and dispatched an astonishingly large business at all times, and especially during the early months of the present year. He would spend the day until 5, 5.30 or 6 o'clock visiting different brokers' and lawyers' offices, and afterward devote two, three or four hours answering and writing letters with the aid of an amanuensis. The latter, although fond of his employer, could not stand such hard work and resigned. Subsequently Mr. Blakeslee Barnes was engaged, and he insisted on shorter hours, but the damage had been done. Mr. Weinstein's health was broken, and his physician ordered him to go abroad, but this he put off until he reduced his holdings to about a dozen parcels, which are estimated at $327,900 and mortgaged for about $200,000, showing an equity of about $100,000 after allowing 10 per cent off schedule rates.

No operator in the market was better known or more highly esteemed, and many sincere regrets at his untimely taking off were expressed by the leading realty brokers during the week. It should be added, however, that Mr. Weinstein was always highly esteemed and well spoken of, so that the expressions of the past week are but repetitions of what THE RECORD AND GUIDE has always heard concerning him.

Mr. Weinstein left his affairs in excellent order, having made a will before going abroad, making the Title Guarantee and Trust Co., together with his widow and brother, executors, and leaving a power of attorney with his brother. On Tuesday two deeds were recorded by which Mr. Weinstein transferred to his wife the premises No. 224 West 41st street (scheduled at $19,000 and mortgaged for $15,000), and No. 808 Lexington avenue (cost $18,250 in 1891, mortgaged for $12,000), the latter his late place of residence. He also transferred to her leaseholds on 19th, 45th and 46th streets. Mr. Weinstein was born in Jerusalem and came to America in 1877. He was thirty-six years of age and leaves a widow and five children, ranging from four to thirteen years of age. Good judges state that Mr. Weinstein leaves about $200,000, of which $100,000 is equities and the rest cash, mortgages and insurances

A characteristic story of Mr. Weinstein is told by Mr. S. Williams, of Williams & Greene: "I negotiated the purchase for Mr. Weinstein of the property on the southeast corner of 5th avenue and 46th street from Archdeacon Alexander Mackay-Smith. Mr. Weinstein felt that I had obtained him a good bargain—the price was $160,000—and he was so well pleased with it that he said to me, 'when I sell that property—broker or no broker—I am going to give you half commission on what I get for it.' He subsequently sold the property himself, without the intervention of a broker, at a stated price of $180,000, but because there was no broker he allowed the purchaser a discount, so to speak, of $1,800, which is what the broker's fees would have been. And sure enough, when the transfer was consummated, he brought me a check for $900."

COL. RICHARD T. AUCHMUTY.

The building trades of this city unite with all the friends of Col. Richard T. Auchmuty in sincere sympathy with those who mourn the sundering of more intimate ties. Col. Auchmuty died at his summer home at Lenox, Mass., on Monday, the 17th inst. Col. Auchmuty was known to the building trades only through the excellent Trade Schools which he founded and for many years conducted, and which remain an enduring monument to his patriotism and philanthropy. In the years before the war he was a practicing architect, associated with Mr. James Renwick, but this association was broken when Mr. Auchmuty entered the army, and after the war was over he did not again go into business. He was of the highest type of the American gentleman, modest and unassuming in his bearing, and considerate to a fault of the feelings and weaknesses of his fellow-man, a sincere christian and faithful friend.

The New York Trade Schools were founded by Col. Auchmuty in 1881, at 1st avenue and 67th street. They were designed to teach thoroughly how work should be done, leaving the quickness which is required of a first-class mechanic to be acquired later. To accomplish this a system of trade instruction was arranged by which not only could skill be acquired, but the science on which the trade is based was made plain. The system was a new one and has produced remarkable results. It has attracted much attention, both in this country and in Europe.

For each of the trades there is a course of instruction. The branches taught are bricklaying, plastering, plumbing, carpentry, house and sign painting, fresco painting, stonecutting, blacksmith work and tailoring. There are day and evening classes. The evening classes are held three evenings each week from the latter part of October to the first week in April, and the day classes during the three winter months. The fees vary according to the trade, being from $12 to $18 for the evening classes and from $35 to $40 for the day classes.

Col. Auchmuty did not seek support for these schools from the building

industries, but bore the burden of their support alone, or with the assistance of his honored wife. Curiously enough, there is not even now anyone identified with the building trades in the directory of the schools, now that they have been incorporated. But the principle upon which they are founded is thoroughly understood and indorsed by the building trades of this city, and the future of the schools will be watched by them with lively interest. The support of such men as J. Pierpont Morgan, who gave $500,000 to endow them, insures their maintenance through the growing period and until they shall reach a self-sustaining position. The average yearly attendance is about 525.

Personal.

Architect R. E. Rogers left this week for a three weeks' visit to the World's Fair at Chicago.

Broker J. B. Ketcham, of 125th street, is sojourning in the country for three or four weeks. He protects himself from annoyance by leaving no address at his office.

W. B. May, of the firm of Henry D. Winans & May, is doing a four weeks' fishing trip in the Province of Ontario, Canada.

S. A. Horowitz is summering at the Hotel Savoy, Asbury Park, N. J., coming to town once or twice a week.

John E. Pye and family are summering at Point Pleasant, N. J.

Walter B. Kempe, of the firm of H. D. Potter & Co., has just returned from a trip to Bermuda in which business was combined with pleasure.

Mr. J. C. Hendrickson, agent for Burns, Russell & Co., the Baltimore brick, terra cotta and tile makers, sustained a severe injury to his left knee from a fall while in Baltimore recently and is temporarily laid up at his home in Queens. He writes that all business communications addressed as usual to his office, 237 Broadway, will receive prompt attention and reply.

Mayer Kahn is occupying the Sonneborn cottage, on Ocean avenue, Long Branch, for the summer, coming to town occasionally.

F. F. Georger, of Brooke & Georger, is away on a fishing trip to Waramong Lake, New Preston, Conn. Mr. Brooke will take a vacation in August.

S. F. Jayne is summering at Martha's Vineyard, where he has a cottage. He will return to town next week. Mr. A. M. Cudner, Mr. Jayne's partner, spends Saturday and Sunday with his family at Ocean Grove. Mr. Cudner will take his vacation next month, going to the World's Fair.

Thomas P. Payne and family are spending the summer at the Bay View House, Keyport, N. J. Mr. Payne comes into town very frequently.

Jas. Murtaugh and family have a cottage at Long Branch, Mr. Murtaugh coming to town daily.

F. Zittel is occupying a pretty cottage at Seabright, but is at his office each day.

C. W. Luyster is spending the summer at Long Branch.

J. Romaine Brown takes weekly trips to Shinnecock Hills, where he owns a cottage and several acres. His partner, Alex. P. W. Kinnan, is at Greenwich, coming in town daily.

David Tim has returned from a trip to Monticello, Sullivan Co.

Y. J. Muir is living at Nyack during the summer, coming to town frequently.

Benj. Prince is summering at Irvington-on-the-Hudson.

Chas. A. Cowen's family are at Delaware Water Gap for the summer. Mr. Cowen spends his Sundays with them, business keeping him in town the rest of the week.

Hiram Rinaldo has returned from a visit to the World's Fair. He will go to Haines Falls in the Catskills next week for a month.

Mrs. S. M. Blakely, of Blakely & Dodd, will go to Newport for two weeks early in August.

William M. Newman and family leave to-night for Chicago, where they will "do" the World's Fair.

Mr. Geo. R. Read and family are at their country residence at Rye, Westchester County, for the summer. Mr. Read has reversed the usua order and maintians his residence—his family seat and habitat—in the country, coming to the city for the winter. He is in his office for business nearly every day.

Special Notices.

ELECTRICAL SUPPLIES.

The old-established contractors for electric work, Messrs. Einbigler & Adler, of 430 and 432 7th avenue, have been very busy this year equipping some of the leading theatres with goods and fixtures in their line. They have done work on forty-three theatres, some of them as far away as San Francisco. They supplied all the metal work, bronze and brass railings on private boxes, lamps, incandescent electroilers, etc., at the new Empire Theatre; the metal work on the interior of stage and bells, tubes, etc., at the American, and are doing all work in their line at the Grand Opera House, the whole interior of which is being altered at a cost of about $100,000. The new entrance railing at the Madison Square Garden is also the work of Einbigler & Adler. There is now no danger to life and limb by crowding at the Garden, and such gates should be in general use at similar places. It should be added that the fire alarm system at the Grand Hotel, put in some time ago by Einbigler & Adler, has been pronounced most perfect by Fire Department Chief Bonner.

Fine Printing of All Kinds.

There has recently been added to THE RECORD AND GUIDE newspaper plant a complete Book and Job outfit, and we are now prepared to estimate for and execute all orders. Commercial, Real Estate and Architectural Printing of a high order, promptly delivered, will be a feature of this department. A postal card addressed to THE RECORD AND GUIDE Press, No. 14 Barclay street, or Nos. 14 to 16 Vesey street, will insure the attendance of a competent representative to give estimates, etc. Orders by mail will receive the same attention as if given personally.

Real Estate Department.

Nothing has occurred this week to relieve the market from the inertia of complete summer dullness. Brokers have fairly ceased to pretend to make any sales and are spending as much time as they can take from office routine in recuperating for the fall season. What little selling has taken place is significant only of the low level of activity to which the market has dropped—a few residences, such as may always be expected in the interval between the last of the spring and the beginning of the fall trade. The leasing of three of the residence properties on the north side of 42d street, between 6th avenue and Broadway for business purposes, probably marks the beginning of the inevitable transformation of that block. Similar beginning had already been made on the south side of the street. Acker, Merrall & Condit would have preferred to remain on the corner of 42d street and Broadway where they now are, but Mr. Astor would not renew the lease except for the entire property and for a long term and for improvement. It is not likely that there will be much if any change from the present state of the market until well into August, when house-hunters will begin to put in an appearance. From the records of six months' building operations, which we publish to-day, it will be seen that there has been a significant falling-off in the number of residences planned for construction for the fall market, from which it may reasonably be inferred that house-hunters will not find the market quite so liberally supplied with houses this fall as they have in former years, and that the first comers will stand the best chance of getting just what they want.

The loan market is said by many brokers to be somewhat easier than it was during the last five or six weeks. Most mortgagors are encountering no serious difficulties in the way of renewals and extensions of their loans, but new borrowers find that lenders are not granting more than 60 per cent, or at the very outside 65 per cent of the appraised value of the property, and even then they are scanning the appraisements very closely. But within these limits there is said to be plenty of money to lend.

Gossip of the Week.

SOUTH OF 59TH STREET.

Wm. M. Newman has negotiated the sale of the Manhattan Opera House property in West 34th street, near Broadway, running through to 35th street, for Oscar Hammerstein, to Koster, Bial & Co (incorporated) The price is not stated, but Mr. Hammerstein is to take a mortgage back of $300,000, and is interested as a large stockholder in the new corporation. Koster, Bial & Co. will reconstruct the interior with a view to making the place the most imposing home for vaudeville in the world Mr. Newman it was who conceived the idea and suggested it to the parties who have thus begun to carry it out.

Henry D. Winans & May have sold the four story remodeled brownstone house, No. 107 East 34th street, for $40,000. The buyer's name is not made public.

Thomas P. Payne, in connection with Wilson & Bonwell, have sold the five-story fancy brick apartment house, 25x89x98.9, No. 323 West 27th street, for Joseph J. Zimmermann, for $41,000.

T. Scott & Son have sold to John Eiler for L. Wiel the four-story and basement brownstone flat, No. 224 East 49th street. The house is 21x75 feet, on a lot 101.2 feet deep. The price was $22,000

George C. Edgar's Sons have sold another of their three-story brownstone houses. This one, No. 17 West 95th street, 18x54 feet, was sold for $27,500. The buyer's name is withheld for the present.

The purchaser of No. 566 5th avenue, sold last week by Williams & Greene, was Mr. Minturn Post Collins, and the seller Wm. M. Lent. Mr. Collins is in the market for further investments. He was last week elected secretary and treasurer of the reorganized Lowerre Land Co.

NORTH OF 59TH STREET.

Henry D. Winans & May have sold to Wm. Poillion for Mrs. Fannie Harris the four-story brownstone private dwelling, 20x55 feet, No. 111 East 71st street, for $21,000; and to Mr. Einstein for Wm. Hoyt the four-story, high stoop, brownstone residence, 20x60 feet, No. 63 East 66th street, for $32,500.

C. Haaren & Co. have sold the residence property, No. 309 West 128th street, for Julia Huerstel, for $30,000; and the house and lot, No. 223 East 102d street, for Clara Kern for $26,000.

Mangam & Welling have sold for Joseph M. Deveau, No. 37 West 127th street, a three-story brownstone house, size 18x50x100, to Mr. Lloyd, upon private terms.

Thomas P. Payne has sold for Isaac G. Van Tassel the three-story frame house and grounds, 75x100, No. 720 East 169th street, to Susan Austin, for $12,000.

Henry Meier has sold for Charles Cramer the five-story, 30-foot brownstone flat, No. 227 East 70th street, to Elizabeth Urbach.

E. H. Peck & Co. have sold No. 1084 Stebbens avenue, 25x171, with front and rear frame buildings, for $4,300.

LEASES.

Fitzsimmons & Smith have leased the three four-story and basement brownstone dwelling properties, 60x100, Nos. 135, 137 and 139 West 42d street, for De Jonge & Herzog to the Acker, Merrall & Condit Co., for twenty-one years, at $15,000 per annum for the first fifteen, and $16,500 per annum for the remaining six years. The owners will alter the present houses into stores and extend them to the full depth of the lots, and have them ready for occupancy on February 1st next. After that the Acker, Merrall & Condit Co. will move from the northeast corner of 42d street and Broadway into these new quarters. The rental is significant of the high prices at which property in 42d street is now held. The rental is at the rate of 5 per cent net on a valuation of $100,000 per lot.

Brooklyn.

Corwith Bros. have sold the three-story and basement frame dwelling, 25x47, on lot 25x100, No. 46 Broome street, for the estate of Geo. Klippel to Thomas Murphy for $6,000; and the four lots, 100x100, on the northwest corner of Star avenue and Howard street, Long Island City, for the Borden estate to McElroy & O'Connor for $1,800.

E. H. Bishop, the builder, has sold the new three-story and basement limestone dwelling, 20x45x95 feet, No. 259 Stuyvesant avenue, to Peter Bertch, for $14,500.

James F. Abrams & Son have sold a plot, 50.2x85 feet, on the southwest corner of 4th avenue and 55th street, for E. Lape to Henry Kittelholdt, for $3,250; and the two-story swelled front frame dwelling, 20x40 feet, on 44th street, south side, 260 feet west of 5th avenue, for Steven Martin to Margaret A. Davenport, for $4,350.

George H. Doe has sold the two-story frame dwelling, on lot 25x100, No. 288 13th street, for Bridget Smith to Mary E. Webster, for $3,150.

Thomas P. Payne has sold for Joseph Hassell the five-story brick apartment house, 25x65x96, No. 69 Poplar street, for $22,000.

ASTORIA, L. I.—Title has been taken within the last ten days to thirty lots on Blackwell, Kouwenhoven and Pomeroy streets and Vandeventer avenue, part of the Purdy property, which Geo. Palliser, Thos. Kavanagh and Jos. McGuire bought a year or two ago and sold at auction on Decoration day.

NEWARK, N. J.—Brown & Schlessinger have sold for Mrs. E. B. Hesse to L. Harris, of Brooklyn, the house and lots, 156 and 158 Sherman avenue, for $3,500, and for William A. Ure the vacant lot on west side of Fairmount avenue, near South Orange avenue, for $2,000, to Fred'k Speckman, who will improve the same by erecting a handsome residence. The same firm have also sold for G. M. Titus, lots 182 and 184 South 7th street, to John C. Orben, and for T. E. Warman and A. I. Sire, of New York, a plot of land on Bergen street, to John C. Eisele.

NEWPORT, R. I.—DeBlois, Hunter & Eldridge, of Newport, and No. 9 West 27th street, New York, have just consummated an important sale to Mr. Oliver H. P. Belmont, embracing a tract of land on Coggeshall and Ocean avenues and near Bailey's Beach, comprising 277,408 square feet. This is one of the series of purchases made by Mr. Belmont, comprising two lots from Mr. J. N. A. Griswold of about $60,000 square feet each, on Bellevue avenue and Ledge road respectively, and two from the Bailey and Smith estate, on Ledge road and Coggeshall avenue, of 61,000 and 74,000 square feet respectively. This makes Mr. Belmont one of the largest real estate holders of the younger set. It is not known what use he will make of his last purchase; presumably he will hold it to protect the view from his stable and dwelling combined, which will be the finest structure of the kind in America.

MARINERS' HARBOR, S. I.—Thomas P. Payne has sold a house and grounds, 41x136, on Harbor road, to George Pitts, for $2,250.

ORADELL VILLAGE, N. J.—Thomas P. Payne has sold for Mrs. Susan Austin, 100 lots, 25x100 each, to Isaac G. Van Tassel, for $6,000.

Building News.

THE MUNICIPAL BUILDING COMMISSION.

The Municipal Building Commission held a meeting at the Mayor's office, on Tuesday, and prepared formal answers to a long list of questions asked of them by architects, who have taken a hand in the plan competition. The answers are as follows:

No answer is deemed necessary as to the limit to the term "more or less," page 8, "Instructions to Architects."

No part of the building proper is to be outside the limiting lines given in the diagram. Steps, terraces, approaches and areaways may be outside of that line, but not arcades, pavilions, porticos and such structures. The building may be as far inside of the limiting line as the competitor may fix.

No information will be furnished as to details of County Court-house, or other adjacent buildings.

The question "will there ever be wings connecting with the County Court-house" is not answered.

Questions as to duties of different offices, and their relation to each other are answered in the *City Record* of June 17, 1893.

All drawings are to be rendered in India ink, and elevations and prospectives, as per samples, accompanying the "Instructions."

The term "Attic" is intended to mean the upper story of the building. Competitors must treat it according to their judgment.

No additions or changes have been made in the limiting lines.

The utmost care will be taken that the letters addressed to the Mayor and the drawings shall be properly numbered, so as to refer to each other; but no guaranty will be given by the City.

The question as to who will be the judges is fully answered by reference to page 5, third paragraph of the "Instructions."

Alternate arrangement of parts of building "by flaps of tracing linen or paper" will not be considered. If alternate plans be submitted, each set must be complete in itself.

There is no limitation in regard to the height of building, but only as to basement. The limitation of five stories will not be changed. The side walk is to be graded to suit the building.

No plans are called for of Mezzanine stories.

Statuary or other sculptural decorations are optional with the competitors.

Accommodations for Board of Aldermen are provided for in the "Instructions," page 9, "Common Council."

The diagram drawn to scale is deemed sufficient for the purpose of competitors' plans, both as to lines and angles.

The sizes prescribed for drawings will not be changed. "Antiquarian" Whitman paper is 31 inches x 53 inches.

County Clerk Purroy, who is a member of the Commission, at its first meeting held since his return from Europe, vigorously attacked the general plan because it does not provide for the removal of the Tweed Court House along with the other buildings. He said:

"I think it is a mistake to try to crowd the new building in between the Post Office and the Court House. All the City Hall Park should be available in treating the new building. We should not go ahead too rapidly in this matter. It would be better to wait and get authority from the Legislature to remove the Court House. I know from experience that the building is unhealthful and unfit for its present uses. The city is about to expend millions of dollars for this improvement, and the money should be spent to the best advantage. If we build the new City Hall now and let the Court House remain it will not be long before we will be called upon for a new Court House. Besides, the best architectural effects can be obtained by building them together. I make this statement because my convictions upon this subject are very strong. At the same time I have no desire to pose as an obstructionist, but I feel that it is due to myself to take this stand."

In this position Mr. Purroy is sustained by the almost unanimous sentiment of the architects of this city and by all of its most enterprising citizens. The scheme as at present laid out is only another demonstration of the lack of foresight and of civic pride, which has characterized all the architectural work done for this municipality in the past. Half-way measures are adopted, only to meet universal condemnation in after years. As Mr. Purroy has remarked, it is not too late yet to correct this mistake.

EXTENSIVE DOCK IMPROVEMENTS IN PROSPECT.

A public meeting of the Sinking Fund Commission will be held at the Mayor's Office on September 18th, at which plans for extensive improvements of the water front will be discussed. They contemplate a number of piers 80 feet wide and dock slips 225 feet wide, from 11th to 23d street on the North River, and for improvements between 72d and 100th streets on the North River, and from 138th street to 7th avenue on the Harlem River. They involve the purchase by the city of about 450 city lots, estimated to cost $2,700,000. Commissioner Cram explains that the construction of the new piers is made necessary by the increased size of the ocean steamers.

PHILADELPHIA'S BUILDING FOR SIX MONTHS.

The Philadelphia *Record and Guide* of last week published a summary of the real estate sales and building operations in that city for the first six months of the current year, from which it appears that the transfers were, in number and amount, as follows: January, 951, $5,115,986; February, 865, $4,676,135; March, 1,058, $6,633,559; April, 1,425, $7,990,393; May, 1,297, $7,679,181; June, 1,386, $8,368,940; total, 6,982, $40,393,194. This record shows an increase of 118 in the number of transfers, but a decrease of $1,300,298 in the amount of sales from the record of the first six months of 1892.

The building operations for the first half of this year include a total of 4,281 plans, for an estimated total of $14,499,300, as against 4,451 plans for a total of $16,812,350 for the first half of 1892. Included in the plans filed this year were 2,676 two-story dwellings, costing $5,352,000; 1,261 three-story dwellings, costing $4,791,800, and 110 four-story dwellings, costing $222,500. From this it would appear that there must be a good deal of a sameness in the style and sizes of the two and three-story dwellings, since the two-story houses figure to cost an even $2,000 each, and the three-story $3,800 each. The four-story houses cost an average of $22,250 each. New York builders will be surprised at the manifest disproportion in the estimated cost of three and four-story dwellings—a disproportion which, it is safe to say, exists nowhere else in the world. If it costs but $3,800 to build a three-story dwelling, there must be

a very remarkable difference from it in the style, size and finish of a four-story house to make it cost $18,450 more, or nearly six times as much. The same evidence of disproportion is manifest in the figures for 1892, where 2,941 two-story dwellings are given as costing $2,000 each; 1,121 three-story dwellings, costing $3,800 each, and four four-story dwellings, costing $23,750 each. Stables are the next most numerous form of construction, the Philadelphia article being of the monotonous $3,000 type. 168, costing $336,000, were built in the first half of 1892, and 143, costing $ 86,000, in the first half of this year. Of factories there were 44 in 1892, costing $933,000, and 44 in this year, costing $1,025,000.

* * * *

The following buildings were damaged by fire during the past week and will probably require reconstruction or redecoration: No. 212 8th avenue, owner Simon Seligman; 70 to 84 Washington street, owners B. T. Babbitt & Co.; 200 East 44th street, owner William O'Connor; 1156 2d avenue, owner Leopold Freedberg; 324 East Houston street, owner M. Felsenhard; 16 Avenue A, owner J. Renkel; foot East 126th street, owners Rapp & Johnson; 867 and 869 Broadway, owners Metropolitan Telephone Company and others.

* * * *

On the southeast corner of West End avenue and 93d street six attractive houses are being pushed forward toward completion by F. L. Smith, and on the avenue, diagonally opposite, the City Real Estate Company's houses, of which one has just been sold, are about ready for occupancy.

* * * *

Further north, on West End avenue and 99th street, Dunn Bros. are completing eleven houses, while on 104th street, between West End avenue and Riverside Drive, Welcker & Fisher have nearly finished six three-story houses adjoining those finished by them early this year.

* * * *

The six four story houses of Edward Tipping on the south side of 76th street, between Columbus and Amsterdam avenues, are now having their trim put on, and Hy. F. Cook's five houses, nearly opposite, are practically ready for occupancy.

* * * *

The five houses of James Brown on the south side of 77th street, 100 feet east of Amsterdam avenue, are topped out. They are on lots which were for a long time on the market owing to their being so near a school. But they will not meet with the fate that some have predicted, as houses in good localities are very scarce, and a school is not so great an objection as people would make it out to be.

* * * *

The eight four-story houses being built by R. Wallace on the south side of 80th street, near Columbus avenue, are nearing completion.

* * * *

Five flats are being built on the north side of 106th street, near Central Park West. Three are nearly completed, the owner being F. J. Schnugg, and the two others are up to the fifth story and are being built by Mrs. A. J. Stevens.

* * * *

Ed. Kilpatrick seems to be doing no end of building on the West Side. He has just about finished five more houses. They are situated at Central Park West and 95th street.

Out Among the Builders.

Koster, Bial & Co. (incorporated) will alter the Manhattan Opera House, which they now own, to suit the requirements of a concert hall. Eight centre boxes and 150 chairs in the balcony will be taken out, and the space thus secured, 80x100 feet, will be fitted up for lounging and smoking room and cafe. The house will also be redecorated and refitted. The orchestra chairs will be reduced in number from 800 to 600 to afford greater space. The improvements will probably cost $10,000.

The building committee of the New York Life Insurance Co. have under consideration plans submitted by a number of architects for an addition to their present building at Broadway and Leonard street. The addition will be built on the plot, 13.x75 feet, Nos. 106–114 Leonard street, and running through to Catharine lane. The addition will probably be built on the same lines as the main building. Further particulars could not be ascertained.

The two five-story flats, which John Wellwood will erect at the southeast corner of Perry and 4th streets, as noted in THE RECORD AND GUIDE of July 8th, will be built of mottled brick and brownstone, have all improvements, including steam heat, and be half cabinet trim. The corner house, which is 25x68 feet, will have two stores and will cost $28,000. The inside house, which is 25x58 feet, will cost $26,000.

R. R. Davis is preparing plans for a five-story flat, 25.11x90 feet, to be built by A. A. Walsh, on the east side of Park avenue, 100 feet south of 102d street. It will be of mottled brick and brownstone, with entrance and vestibule of polished oak and arranged for four families on a floor. Cost, about $18,000.

De Jonge & Herzog will convert the three four-story dwellings, Nos. 135–139 West 42d street, into a store for the Acker, Merrall & Condit Co., to whom they have been leased for twenty-one years. Alterations in the fronts, the removal of the stoops, the removal of most of the interior partitions and construction of floor supports in their places, the extension of the buildings in the rear, and a general strengthening of the buildings, and redecorating, and construction of elevators will be necessary.

Architect Andrew Spence has plans on the boards for three flat houses which Robert Hall will build on the Southern Boulevard, north side, 252 feet east of St. Ann's avenue. They are to be 16.8x50 each, with brownstone and brick fronts and all improvements, and are to cost about $7,000 each.

Van Auken & Forbes are preparing plans for a five-story stable, 95x98 feet, to be built for Jos. Keith & Son on the south side of East 33d street, 144.11 feet west of 4th avenue. The plans are so arranged that the building will be built only two stories in height at present. It will be of brick and stone with concrete floors. It will cost $50,000.

Thayer & Wallace of 4 and 5 Court square, Brooklyn, have sketches for a large private stable, 50x100 feet, two story front and one-story rear, to be erected up town in this city—where they refuse to say.

Randolph Guggenheimer, owner, with Geo. Clausen, Jr., of the New York Hotel property, has not fully determined what sort of a structure he will erect. Mr. Guggenheimer said yesterday that it might be an eight, ten or twelve-story building, but would probably be designed to accommodate the wholesale dry-goods trade. Whether the upper stories will be lofts or offices is still under consideration. There is ample time, however, for consideration, as leases of the property which do not expire until May 1, 1891, will prevent any building before that time.

Brooklyn.

Frank Freeman has plans for a two and a half-story and basement brick and terra cotta dwelling, 45x80 feet, to be erected on the Plaza, north of Union street, for G. F. Shiebler, to cost $6,000.

Out of Town.

BATH BEACH, L. I.—Van Auken & Forbes have plans in preparation for a two story and attic frame cottage in the Colonial style, to be built here for J. R. Koradoefer. It will be 31x31 feet, have shingle roof and hot air heat. Cost, about $4,000.

YONKERS, N. Y.—Jacob Klinger will build two two-story frame stores and flats, 30x47 feet, on Napperhan avenue, at a cost of $4,000, and Miss Murphy will build a two-story and attic frame cottage, 2 x31 feet, with shingle roof and all improvements, at Lowerre Station. The cost of the latter will be $2,500. Geo. Palliser, of New York, is the architect for both.

HIGHTSTOWN, N. J.—Geo. Palliser, of New York, is the architect for a two story and attic frame dwelling in the "Colonial" style which Geo. W. F. Bennett will build. It will be 45x35 feet, have slate roof and the lower floor finished in hardwood. The cost will be about $4,000.

NEWARK, N. J.—Geo. Palliser, of New York, has completed plans for a two-story frame double flat house, 44x54 feet, which Mrs. Benj. Ecke will build on Woodside avenue. It will be arranged for four families each family having five rooms and bath. The cost will be about $5,000

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at foot of this list.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

†*Editor* Record and Guide:

The lien filed by Peter Muller on premises n e cor 117th st and Madison av is an outrage. He has drawn more than he was entitled to and refused to tear down and make good the bad work he had done by unskilled labor. The loss of material caused by him in doing work which must come down will cost about $1,000. He also borrowed $300 which he failed to return, for which suit is now pending. I am finishing the work myself by day's work.

John J. Macdonald.

BUILDING MATERIAL MARKET.

BRICKS.—The market for Common Hards has kept along in very much better form than expected for this month, and down to present writing there is practically no change since our last report. Arrivals probably have not been quite so liberal as they were one week ago, and as the run of demand underwent no abatement a pretty good clean up of stock took place from day to day, all passing direct into consumption. In fact, just as suggested in this column some little time ago, the class of structures at present under way in this city are of a character to absorb a vast quantity of brick up to the street level. At all events, a good proportion will want a large amount for each story until completed, making a pretty nice sort of trade these dull times. It looks, however, as though the flush of demand was probably about over, and some operators commence to think that unless arrivals moderate a little the value line may have to be toned down somewhat. At present the same general range as for some time is used. No complaint of importance regarding quality is heard, and the weather during the week has been excellent for moulding. Pales, too, are retaining a little cinch in the way of a continuous demand that has taken the offering about as fast as it came to hand, and made no objection to former cost especially on the best quality. Receivers met the market readily enough, as it is well understood that the time to sell pales is when they are wanted, and demand has a peculiar way of dropping off suddenly and unexpectedly.

CEMENT.—The general market continues in the same slow, unsatisfactory condition so long current, and complaint is common. Domestic goods are called for in an erratic manner, rarely running to any extensive orders even for the pet brands, and the offerings are not only ample, but in excess of the outlet. Foreign stock is extremely irregular, but about all the advantage favors the buyer. The demand from every locality has proven very disappointing this season, stocks have come rushing in with great volume during the past six or eight weeks, and with no compensating outlet the accumulation is piled up to remarkable proportions. Prices are weak and irregular, and some very low sales have been made from wharf. The fact that one of our largest and most prominent importing houses went into the hands of a receiver this week has added to the unpleasant features of the situation.

GLASS.—Reports received this week state that the National Plate Glass Company, recently organized with a capital of $3,000,000, and controlling furnaces and factories at Crystal City, Kokomo, Ellwood and Charleroi, have abandoned their plan of operation and the organization of the company will not now be perfected on account of poor trade. At a meeting of manufacturers of plate glass held in Pittsburg for purpose of talking over the situation it was reported that two and a-half million feet remained in stock and that was deemed sufficient to indefinitely postpone the resumption of work. The general run of business at the moment in both plate and window glass is limited and the market without feature worthy of note.

LATH.—Some arrivals have taken place from both Maine and the provinces, but nothing of an extensive character or more than could be disposed of with reasonable promptness. Occasionally it was a cargo entire and again it became necessary to break up into small lots, but receivers found custom, and at latest reports they were getting $2.40 per M. All the advices coming to hand are of a character to convey an impression that the general line of shipments continues moderate, and the chances are that we shall not be overburdened with quantity. We happen to know, however, that some hemlock stock are on the way, much to the disgust of those who must receive them and find a market, and it is intimated that $2 would buy the stock before arrival.

LIME.—The general market remains in a healthy, uniform condition, according to most reports. It is claimed that demand is now full enough to take away the arrivals about as rapidly as they come to hand, and the recent advance in value is sustained without difficulty, with a calculation that it will not immediately settle off. Receivers are backed by the Eastern manufacturers' combination, which includes the production of all localities, and the object is to so control the output and regulate the shipments to wants of various markets that at least a living profit can be secured. State line is steady, and in about usual natural proportionate demand.

LUMBER.—A dull market continues all around, and demand is simply a matter of necessity rather than of choice in nine cases out of ten. On the other hand sellers find nothing to justify them in seeking custom with greater freedom, well knowing that those who would be most likely to respond could hardly be accepted as thoroughly desirable, while those whose orders would be considered most attractive are just the ones likely to take advantage of pressure to realize by crowding down the line of value. Arrivals have not been particularly liberal, though the settlement of the strike at western end of this State is starting more stuff forward. A great deal of it comes on contract, and there is a whispered hint that those who have to receive it and arrange for settlement would not have cared had the strike continued much longer. Some few export orders are coming along but not of satisfactory character.

Spruce has apparently a very firm position. Most of the arrivals are on orders, and receivers now and then find a buyer anxious for a random and making a good round bid for stock that is not here, with a probability that a first-class specification could readily be disposed of if promptly available. It is, however, a certainty that a comparatively few cargoes would make a surplus, as the general line of dealers are indifferent customers, and the strength of the position is not due so much to the demand as to the light shipments from the Eastward and the positive scantiness of the offering. The present demand for piling is of somewhat indifferent character, but contracts are pending which, if closed, will require a great deal of stock.

Hemlock meets with some attention from local custom and occasional calls from outside buyers, but shows no activity. All inquiries can be met without much difficulty and promptly, but sellers are not urging matters, as it is hardly a time when voluntary action of that sort would seem to be good business policy.

White Pine is quoted steady, and the quantity immediately on offer is still comparatively small, with a probability that were anything like a normal demand prevailing there would be an exceedingly stiff market. As it is, the chances are all against buyers getting advantages on the finer qualities, and if there is any giving way it will be on the coarser stuff. Of the latter a larger amount is now quite likely to come forward, as the trouble at the other end of the Erie canal has been settled, and every manufacturer who has stock sold to reliable parties will be anxious to make deliveries.

Yellow Pine meets with the indifferent demand common toward all kinds of stock, and it would be a pretty hard market upon which to attempt placing random offerings. There is, however, now and then something done in the way of taking contracts for special, and those who devote themselves to the export trade can pick up some stray business at about former rates.

Carolina Pine is steady, because the offerings are kept within control, and manufacturers refuse to name a shading from former list rates, openly at least. Demand, however, proves slow and careful, and even the very best of custom refuses to commit itself to negotiations beyond the limit of immediate wants.

Hardwoods of all kinds get some attention from consumers who are compelled to purchase a little to keep their standing engagements. Dealers, however, seem to be a trifle more indifferent, if anything, than a few weeks ago, and there is very little chance for any early improvement in the demand, as not only is the outlook for business still very uncertain, but the chances are thought rather in favor of some shading in value at primal points as the fall and winter seasons draw near. The present attitude of manufacturers of leading hardwoods is steady, but they all admit unsatisfactory business.

GENERAL LUMBER NOTES.

STATE.

The Albany *Argus* as follows:

The local lumber market has shown more activity during the past week, while the general situation of affairs has likewise improved. For the first time since the season opened, the dealers are now able to look ahead to plain sailing, the last of the season's numerous drawbacks, the labor troubles at Tonawanda and the break in the canal at Rochester, having passed into history. If it was not for the uneasiness in the financial world, there would now be no cloud on the horizon. Dealers in pine lumber have been visited by numerous customers the past week, and while trade is quiet as usual during the mid-summer, there is more inquiry noticeable and some buyers are after large lots. The present week opens with more lumber on the yards than ten days ago, and with considerable more activity on the dock front than at any time probably during the present season. While a good deal of lumber is being shipped, there is now nothing to hinder deliveries here, and boats will probably come along more promptly with receipts from this time forward. Despite the fact that building operations may be supposed to be affected by the money stringency, the eastern trade

seems to be looking up, as a big order taken here within a day or two, and spoken of in another column, will go to show. Prices on all grades of pine continue stiff.

In spruce and hemlock there is a fair amount doing, but dealers are selling cautiously and appear to prefer to stock up their yards to selling on long time paper. Receipts are moving in well, and all are now looking forward to a rush of stock from the Black River Canal country. There will be demand for everything that comes. Boats are rather scarce on the Black River Canal, and reports tell of an advance of fifty cents in the carrying charges from there. There is a big shipment of shingles now about due here, and trade in lath and shingles continues fair. Hardwoods are in moderate demand and good supply.

THE WEST.

The Northwestern *Lumberman* as follows:

No change worthy of note has occurred in the cargo market, either in respect to demand or prices, since last week. The shippers and commission dealers are making no effort to force sales on unwilling purchasers. The yard dealers are buying no more than they need to keep a moderate trade going. They have not yet reached a point where they feel justified in stocking up for future trade. Probably they do not so much object to current prices as they fear to assume obligations which they do not feel certain they can meet. No man at the present time feels sufficiently confident to expand his credit even if he had the opportunity to do it. The attitude of the manufacturers and dealers is one of resting on their oars until they become satisfied that it will be safe to venture in the free selling and buying of lumber. The mill operators appear determined to pile up and hold their output rather than sell below present figures. They have conceded $1 to $2 a thousand on common lumber in the hope that it would stimulate sales. Such has not been the result. No one can blame the yard dealers for refusing to buy much ahead of current requirement. They can keep their trade going in that way and take less risk than would be involved in stocking up. By buying from hand to mouth the mill operator is the one who is obliged to carry the lumber and take the risk. Should trade start up next month and monetary events take shape so as to restore a measure of confidence without doubt dealers will buy more freely, especially should there be any indication of an advance of prices. Should there not be such a prospect and trade drag along in a moderate way it is likely that dealers would continue to buy only dry lumber, and that simply as they needed it next winter, depending largely on rail receipts.

The few and scattering cargoes that are being sold these days are usually bargained for before arrival. The yard men occasionally want some specialty or specialties, and get cargoes shaped up to suit their purpose. The lumber is altogether wanted for immediate trade or to keep the yard men busy in sorting and putting it into piles. The commission men are making no effort to crowd lumber on to buyers, but are working off stuff, when it moves at all, within the actual requirement. Thus they are able to maintain the basis of $10 for short piece stuff, $11 to $11.50 for long, and $11 to $11.50 for strictly common boards and strips.

At the yards, prices are standing up well under depression, though they have settled a degree. Piece stuff is selling off about $1 from last spring's prices, and common and cull inch 50 cents. Good lumber in all sizes and grades has not appreciably declined, except, perhaps, on some of the thick selects used in the factories and shops. The heavy cargo purchases of good lumber made early in the season by eastern dealers have prevented a decline of values in the west.

The poplar market continues to hold its own in spite of general commercial dullness. Demand has fallen off within the past sixty days, but prices are practically as firm as ever. The cause of this is the light stocks on hand. According to the report submitted at the poplar manufacturers' meeting, at Louisville this week, there is a lighter supply of common and cull poplar than there was last December, and an increase of only about 9,000,000 feet in the supply of firsts and seconds. The secretary's estimate from reports received is that the cut this season will be nearly 200,000,000 feet short of a year ago. Under these circumstances there is little doubt but prices will be maintained.

The Mississippi Valley *Lumberman* as follows:

It is a remarkable fact that lumber during the last twenty years has not advanced in the northwest as rapidly in price as stumpage, although the expense of getting logs to the mills is now nearly double, and the price of logs has nearly kept pace with lumber. This accounts in part for the fact that pine lands are very scarce on the market, as holders of stumpage see a considerable profit in disposing of timber in the water rather than on the stump. When stumpage stood at $1, $1.25, $1.50 and driving 50 cents, logs brought from $5 50 to $7.00 and lumber sold for $9.50 to $10.00, now stumpage $3 50 to $4.00, driving $1.25 with an extra dollar for hauling and lumber stands at $12.50 or less and logs in the boom from $9.00 to $12.00.

In the white pine districts manufacturers are preparing to meet any emergency, and rather than have outstanding accounts are not urging business unless it be for cash. There is a general disposition which is being carried out to curtail the product of the season, and corps of employes are being reduced and night crews taken off. Mills must be run if possible, but with as little expense as possible. Preparations are being made everywhere to bridge over a month or two of dullness without allowing prices to weaken, for that would be almost fatal. The fact that manufacturers are able to hold prices stiff shows their strength. At the head of the lakes the demand is light, and mills are curtailing their cut, with the exception of those cutting on contract. There is a general feeling that the worst is about over and that very soon trade will be better, as the stringency in the money market has somewhat relaxed and business has a brighter outlook. Because of this manufacturers are holding up bravely and looking anxiously ahead.

METALS.—COPPER—Ingot has been offered with moderation and a freedom from direct effort to realize, while a fairly steady surface showing was made on line of valuation. That favorable feature, however, was pretty well neutralized by the slow, indifferent character of demand and it has for some little time been evident that business could only be increased by further sacrifice in cost. Sales have been made on contract for fall delivery at a fraction below spot prices. On the average range of valuation we quote at 10¼@10⅜c. for Lake and 10@10⅛c for casting brands. Manufactured copper sells along fairly to about an average extent against natural consuming wants, and there is no new ground for complaint. Old valuations are given out, but there is reason to expect that quiet allowances are sometimes made. We quote as follows: Sheet, not above 30x72 in., 16 oz. and over, 22c.; do, 14 to 16 oz., 23c.; do, 12 to 14 oz., 24c.; do, 10 to 12 oz., 25c.; do, 8 to 10 oz., 28c.; do under 8 oz, 30c. Sheets longer than 72 inches add 1c. for 12@14 oz., 2c. for 10@12 oz, and 3c. for 8@10 oz. Sheets, not above 36x96 in., 16 oz and over, 22c.; do, 14 to 16 oz, 24c.; do, 12 to 14 oz, 26c.; do, 10 to 12 oz, 30c.; do, 8 to 10 oz, 33c. Sheets longer than 96 inches 22c. for over 32 oz, and add 1c. for 16 to 32 oz.; 1c. 14 to 16 oz.; 1c. 12 to 14 oz, 1c. for 10 to 12 oz., and 12c. for 8 to 10 oz. Sheets, not above 48x96 32 to 64 oz, 22c.; do, 16 to 32 oz, 24c.; do, 14 to 16 oz, 26c. do, 12 to 14 oz, 28c.; do, 10 to 12 oz. 32c. Sheets wider than 48x96 and longer, 22@25c. for 32 to 64 oz.; 25@28c. for 16 to 32 oz, 27@29c. for 14 to 16 oz. and 29@34c. for 12 to 14 oz. All bath tub sheets, per lb., 16 oz. 24c.; 14 oz, 26c.; 12 oz, 27c.; and 10 oz, 29c. Bolt copper, 8½ inch diameter and over, 22c. Circles, segments and pattern sheets, 60 diameter and less, 3c. above price of sheets of same thickness; circles, 60 to 96 do do, 4c. do: circles, 96 do and over, 5c. do. Cold or hard rolled copper, 1@2c. per lb. above the foregoing prices. Copper bottoms, 26@32c. per lb. IRON—American Pig sells along in a routine way without changes in general features and retains about the same general line of cost for some time ruling. There seems to be stock enough available and to spare for the outlets at present open, but at the rate production is shutting off it looks as though supplies might gradually come under close management. We quote at $14.00@15.00 per ton for No. 1 X foundry; $13.00@14.00 for No. 2 X do. and $11.75@12.50 for Gray Forge. Old material finds only the most indifferent demand and a very uncertain sort of market beyond the fact that a search for bids generally brings response far below the views of holders when buyers consent to name any figures at all. We quote at $16.00@16.50 for old iron rails; $15.00@16.50 for No. 1 wrought scrap; $11.50@12.50 for cast scrap, 13 50@14 for old car wheels, and $6 50@10.00 for borings, stove plate, etc. Manufactured iron secures only moderate uncertain attention, even structural varieties showing a great deal more quietness than early in the month, and the tone of the market is weak throughout. There are hints of contracts made for fall and winter delivery at a considerable shading on cost. We quote Common Merchant Bar, ordinary size, at 1.80@1.90c. from store, and refined at 1.90@2.20c; Rods round and square, 2.10@2.20c.; Bands, 2.20@2.30c.; Norway Nail Rods, 3¾@4c., and domestic sheet on the basis of 3.00@—c. for common Nos. 10@16. Other descriptions at corresponding prices, with 1.10c. less on large lots from car. Steel rails simply find the same small and indifferent sort of demand for a long while prevailing, and the old basis price is retained, though buyers get good allowances on light rails. We quote standard sections $29 per ton at mill, with usual advances for delivery at tide water. Pig lead has sold somewhat irregularly, but rarely in any volume, and while sellers abstain from forcing the market, the indications lead to the belief that an undertone of more or less weakness prevails for all deliveries. We quote at 3.50@3.55c per lb. The manufactures of lead are quoted at 6¼c. for Pipe, 7c. for Sheet, 15c. for Tin-lined Pipe, and 37½c. for Block Tin Pipe. Pig tin does not settle down into anything like a uniform and stable market. The new duty now in effect seems to be offset by the large importation made in anticipation of the tariff and the slack consumption which, in conjunction with the manipulations of speculators, keeps alive a feverish tone. We quote at about 19@19.10c. for round lots, and 19¼@19⅜c. for jobbing parcels. Tin plates meet with no improvement in demand, either for present or future delivery, and the market has been stupidly monotonous. Values fluctuate but little and the offering of supplies is quite equal to all calls. We quote as follows: I. C. Charcoal, ⅛ cross assortment Melyn grade, $6.45@6.50, each additional X add $1.50; I. C. Charcoal, ⅛ cross assortment, Allaway grade, $5.62½@5.65, each additional X add $1; Charcoal terne, M. F. grade, 14x20, $7.25@7.30; M. F. grade, 20x28, $14.50@14.55; Worcester, 14x20, $5.70@5.75; Worcester, 20x28, $11.25@11.30; Dean grade, 14x20, $5.35@5.37½; Dean grade, 20x28, $10.50@10.70; D. R. D. grade, 14x20, $5.15@5 20; D. R. D. grade, 20x28, $10.30@10.35; I. C. Coke, Penlan grade, nominal; J. B. grade, 14x20, 5 40@5.45; I. C.

Bessemer steel, squares, $5.60@—— basis; I. C. Siemens steel, squares, $5.70@—— basis. Spelter has received only moderate attention, the inquiries confined in the main to car lots and, while nominally unchanged, prices were really rather weak in tone. We quote 4.2@4.10c. for Common Western, according to brand.

Official reports just issued give the complete statistics of the production of pig iron in the United States in the first six months of 1893 and of the stocks of pig iron on hand and for sale on the 30th of June last show that the total production of pig iron in the United States in the first half of 1893 was 4,562,918 gross tons, against 4,387,317 tons in the second half of 1892, an increase of 175,601 tons. The production in the first half of 1892 was, however, 4,769,683 tons. The production of the second half of the present year, the bulletin says, will undoubtedly be less than that of the second half of last year, so that the total production of 1893 will be much less than the total production of 1892.

Pennsylvania largely increased her production in the first half of 1893 and there was a large decrease in Illinois. The production of bessemer pig iron in the first half of 1893 was the largest half-year production in our history, amounting to 2,374,890 gross tons, against 2,189,696 tons in the second half of 1892 and 2,254,345 tons in the first half.

The number of furnaces in blast on June 30, 1893, was 236, against 253 on Dec 31, 1892, and 256 on June 30, 1892. The number out of blast on June 30, 1893, was 312.

The stocks of pig iron on the market on June 30, 1893, amounted to 578,831 gross tons. On Dec. 31, 1892, the stock aggregated 535,616 tons.

NAILS.—Business is irregular, but orders exceeding the limits of jobbing dimensions are the exception, and buyers rarely require an assortment calling for anything beyond standard sizes. Curtailment is the order in matter of production, but the quantity of stock available has been quite equal to or in excess of the demand. We quote Cut at $1.05@1.25 per keg for car lots and $1.35@1.45 per keg for parcels from store for iron, and add 3c. per keg for steel; Wire, $1.50@1.55 at mills, and $1.80@1.85 from store.

PAINTS, OILS, ETC.—It remains a comparatively narrow and uneventful market for pretty much all descriptions of paints and colors. As the month works along there is just a slight increase of demand for staple goods, principally from regular lines of custom finding it necessary to fill out assortments, but nothing approaching any real animation or prospects that such a consummation will soon be reached. Sellers do not care to urge trade upon a market where such a course could only result in demoralizing the tone, and no class of custom that is of really desirable character feels disposed to assume obligations beyond the line of early and positive necessities. The supply and assortments within reach are quite sufficient to insure prompt delivery on all orders placed, and it will be quite an easy matter to present larger amounts should they be wanted. Prices are unsettled, with the stereotyped story about White Lead, but no official change announced. Corroders' rates stand as follows: Lead in oil in kegs and dry lead in kegs in lots of less than 500 lbs., 7¼c. net; in lots of 500 lbs. to 5 tons at one purchase, 6¾c.; 5 tons to 12 tons, one purchase, 6¾c.; 12 tons and over, one purchase, 6½c.; kegs. Lead in oil in 12½ lb. tin pails, add 1c.; in 25 and 50 lb. tin pails, add ½c.; and in 1 to 5 lb. tin cans, assorted (100 lbs. in case) add 2½c. per lb. to keg price. Terms on lots on 500 lbs. and over, note or acceptance at sixty days, or 2½ per cent. discount will be allowed for cash paid within fifteen days of invoice date. To make either of the above required quantities any assortment of packages of white lead, red lead and litharge may be counted. The above quotations are free on board cars or boat at corroding point. Linseed Oil meets with moderately active attention, and shows small irregularities on cost, but no variation in the average run of figures for standard products. We quote on general range at 48@49c. for Western, 50@51c. for City from domestic seed, and 62@63c. for do. from Calcutta seed. Spirits Turpentine continues only moderately active and without much strength of tone. Supplies appear to be under good enough control to prevent serious pressure, but it would be difficult to realize upon any great amount of stock except at a shading. We quote at 27½@28½c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—A steady market is reported with no great abundance of stock seeking sale. The general run of demand at the moment, however, is light, with buyers taking merely enough stock for current consumption. We quote Tar at $1.90@1.95 in pine or Wilmington bbls., $2.00@2.05 in pork bbls., and $3.70@3.75 in oil bbls., Pitch $1.50@1.70.
